

JOB DESCRIPTION
(Classified Employee)

Job Title: Hazardous Material Technician

Date: August 1987

Job Code: 1480

Statement of the Job

Employee removes and disposes of hazardous materials and prepares worksite to insure safety of the public during removal. Materials removed may include asbestos found in pipe lagging, ceilings and floors or other hazardous materials.

Duties of the Job

1. Prepares job sites for hazardous materials removal and disposal, including constructing containment and negative air pressure systems as appropriate.
2. Removes or encapsulates hazardous materials in accordance with applicable state and federal regulations.
3. Disposes of hazardous materials in accordance with applicable state and federal regulations and University policies.
4. Uses high efficiency particulate matter vacuum system to clean areas where asbestos dust and fibers are present.
5. Assists in planning work assignments, determining material needs, and estimating time and cost of hazardous material removal or encapsulation.
6. Posts appropriate signs to warn facility users of potential hazards; informs facility users about removal or encapsulation projects.
7. Cleans and maintains equipment.
8. Monitors air to verify clean environment after removal or to assess conditions.
9. Keeps required records of work performed, such as asbestos removal and air quality.

This job description reflects the general duties of the job but is not a detailed description of all duties which may be inherent to the position. The University may assign reasonably related additional duties to individual employees consistent with policy and collective bargaining agreements.
