ISIR Corrections

Concept

The system stores and displays each loaded ISIR in a separate effective-dated row that cannot be modified. Original ISIR data loaded into the **ISIR Corrections** component have all fields unavailable. To make corrections to the ISIR, you must insert a new effective-dated row in the component.

Procedure

Step	Action
1.	Navigate: Financial Aid > Federal Application Data > Correct 20xx-20yy ISIR records. (Select the correct aid year in place of "20xx-20yy".)

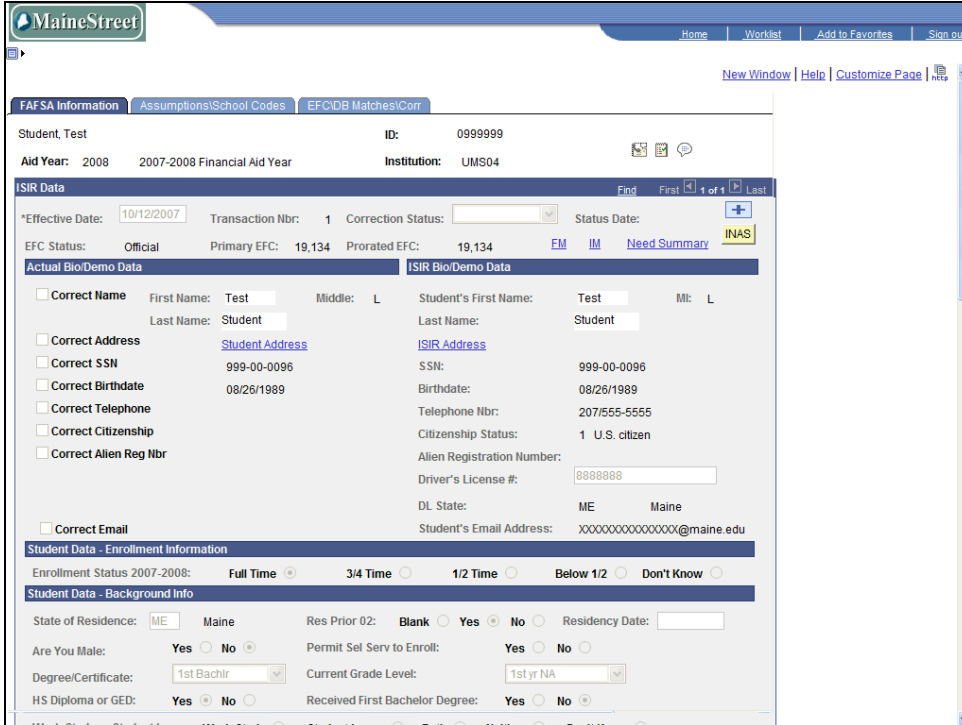

The screenshot shows the 'MaineStreet' web application interface. On the left is a navigation menu with 'Correct 2007-2008 ISIR records' highlighted. The main area is titled 'ISIR Corrections 07/08' and contains a search form with the following fields:

- ID:** begins with [0999999]
- Academic Institution:** = []
- National ID:** begins with []
- Campus ID:** begins with []
- Last Name:** begins with []

There is a 'Case Sensitive' checkbox and a 'Search' button. The page also includes a 'Find an Existing Value' section and a 'Basic Search' link.

Step	Action
2.	Enter search criteria to identify the student such as the student's ID or name. Enter the Institution. (Campus ID is not used.)
3.	Click the Search button. 

Step	Action
4.	To make more room for the page, you can collapse the menu. 

Step	Action
5.	The fields on these pages are not available for editing because they are derived from the loaded ISIR. To make changes, add a new effective-dated row. On the new row, you can edit the fields.
6.	To add a new row click the Add a new Row button.
