RE: University of Maine System Legislative Update
123rd Legislature - First Regular Session

DT: January 12, 2007

Welcome to 2007! Enclosed is the first Legislative Newsletter and Update for this legislative session. For those of you who are first-time recipients, we will try to keep you current on proposed legislation that affect the University System, either directly or indirectly. Diane Gilmour in Augusta reviews the bills daily, compiles the material and publishes it weekly. The annotations are gleaned from the Statement of Fact included in each legislative document. Diane also tracks the legislation and updates the current status of all bills that are of University interest. Each week we will send you an updated Legislative Newsletter and Update with copies of newly introduced legislation that we are following. If you require further information, need a copy of a document or believe a piece of proposed legislation may affect the University System in some way, please get in touch with me or Diane Gilmour at 621-3344.

We look forward to working with you and wish you all the best for this new year.
