Getting regular checkups and exams can help you stay well, catch problems early and may be lifesaving. Our health plans cover 100% of the services listed in this flier as preventive care. This follows the health care reform law and state regulations. When you get these services from providers in the network, you don’t have to worry about paying anything out of your own pocket for covered preventive care such as screenings, immunizations and exams. You may have to pay part of the costs if you use a provider outside the network.

Preventive versus diagnostic care
What’s the difference? Preventive care is precautionary. Diagnostic care is used to find the cause of existing symptoms. For example, if your doctor suggests you have a colonoscopy because of your age, that’s preventive care. But, if your doctor suggests a colonoscopy to see what’s causing your symptoms, that’s diagnostic care and you may need to pay part of the cost (this is your “cost share”).

Here’s an overview of the types of preventive services we cover. Refer to your benefits summary to learn more.
Child preventive care (birth to 18 years)
Preventive care physical exams are covered as well as the screenings, tests and vaccines listed here. The preventive care services listed below may not be right for every person. Please ask your health care provider what's right for you.
