

UMS Online Payment System Privacy Notice

Privacy

The University of Maine System is committed to protecting your privacy when you use any of our online information systems. The University of Maine System does not collect personal information about individuals, such as names and mailing or e-mail addresses, unless the individual knowingly provides it.

The University of Maine System has contracts with several third-party payment processors who follow strict industry-standard legal and security requirements. Personal information will be disclosed to these third-party payment processors only for the purpose of processing your on-line payments. Your personal information will not be disclosed to others.

Online Payments

When you pay a bill or make a donation to any of our seven Universities, we require your name, billing address, telephone number, email address, and credit card, debit card or electronic check (ACH) information to process your payment. The UMS does not store your credit or debit card or ACH information. We do retain your payment information, including name and contact information, for our records.

Security

This payment site uses secure server software implementing the industry-standard Secure Socket Layer (SSL) encryption technology. SSL encodes your personal information, including account number, name and address, as it travels over the Internet so that all transactions are secure.

If you prefer not to pay on-line, alternative payment methods are available.

For information, or to request access to and/or correction of your personal data, contact:
