INTRODUCTION

This report provides summary information regarding University enrollments. The tables and graphs show enrollments for the past 11 years, i.e., 1993-2003.

HIGHLIGHTS

- University enrollment increased for the sixth consecutive year. From fall 1997 to fall 2003, headcount enrollment increased by a total of 4,357 students or 14.5%. Over the same six year period, the number of FTE students increased by a total of 3,928 or 19.6%.

- Compared to last fall, the number of full-time students is up by 796 and the number of part-time students is down by 510, a total increase in headcount enrollment of 286 students or 0.8%, resulting in 34,375 students at the University of Maine System. There are 569 more FTE students (2.4%) compared to last fall.

- Students who are Maine residents number 30,165 which is 87.8% of total enrollment. In-state enrollment increased by 26 students and out-of-state enrollment increased by 260 students. Foreign students (1,103) represent 3.2% of the student body.

- Of the 34,375 students, there are 21,685 women who make up 63.1% of the student body and 12,690 men, which account for the other 36.9%.

- Every county in Maine sends at least 400 students to the University. The largest numbers come from Cumberland (6,151), Penobscot (4,846), Kennebec (3,220), and York (3,088).

- Students come from every state in the country, plus the District of Columbia. 56.9% of out-of-state students (excluding foreign students) come from the other New England states. Massachusetts alone accounts for 23.6% of students coming from other states.

- The University of Maine System has students from 92 different countries enrolled. The largest delegation comes from Canada (688 or 62.4%).
HIGHLIGHTS

- There were 3,481 students enrolled in distance learning courses at receive sites across the State of Maine. About 70% of these students were enrolled in only distance learning courses. Overall distance learning enrollment has increased about 8% from Fall 2002. Effective with the fall 1995 semester, students enrolled in distance learning receive site courses are counted as part of the enrollment of the university that is broadcasting the course, regardless of where the receive sites are located.

- A summary profile of distance learning students is as follows:
  - 82% are part-time
  - 75% are associate or non-degree
  - 79% are women
  - 80% are 23 years of age or older (54% are 31 years of age or older)

SUPPLEMENTAL REPORT
Distance Learning Receive Site Report

The following table provides a summary profile of students taking a distance education course (i.e. through Interactive Television, the Internet or another delivery mode). Students taking an ITV course at the broadcast sites, i.e. the classroom at which the course originated, are excluded as the broadcast course represents a traditional university course that would have historically been offered whether or not ITV existed.

This table shows all students taking at least one distance education course, whether they are taking only distance education courses or are taking distance education courses and at least one non-distance education course. There are 2,450 students that are taking only distance learning courses and no other courses.

There are a total of 3,481 students taking distance learning courses in Fall 2003, up from 3,221 in Fall 2002. Distance learning credits were 14,696 compared to 13,211 in Fall 2002.

The students shown in the following table have already been counted in the enrollment figures in all other tables. These numbers should not be added to previously reported university enrollment figures.
