INCREASE YOUR EARNING POWER

There are many reasons to continue your education past high school, including earning more money and lowering your chances of being unemployed.

PAY FOR COLLEGE

A great way to find out how to pay for college is to talk with the financial aid office at the college where you will be applying. You can also contact the Financial Authority of Maine (FAME) for more information on state grants, scholarships and loans. One of the best ways to pay for college is to save for college - use money from part-time or summer work. Do not exclude any colleges from your list because of the cost. Financial aid programs can make more expensive schools affordable. Choose the college that is best for you!

FIND SCHOLARSHIPS

There are many scholarships and grants available; some are based on financial need and some are based on your academic ability or other talents. Start your scholarship search on FAME’s Web site at www.famemaine.com. This search allows you to look for primarily Maine-based scholarships that match your selected criteria. For a larger selection of nationwide scholarships, visit the following Web sites for more free scholarship searches:

- www.collegeboard.com
- www.fastaid.com
- www.fastweb.com
- www.scholarships.com
- www.theoldschool.org
- www.lunch-money.com

Also, check with the following sources for additional scholarship information:

- Local high school guidance office
- College financial aid office
- Place of student or parent employment
- Faith-based institutions
- Local service organizations (such as Kiwanis, Elks)

A Note of Caution: Students and families are cautioned about purchasing the services of individuals or organizations that claim to help students identify scholarships and aid programs for a fee. There are free resources available, such as high school guidance counselors, college financial aid offices, and the Finance Authority of Maine to help students identify scholarships and other potential sources of financial assistance for college.

READ THE FINANCIAL AID TOOL KIT

The Financial Aid Tool Kit is designed to help you understand now you can pay for your education, including answers to such commonly asked questions as:

- When and how do I apply for financial aid?
- What student financial assistance programs are available to help me pay for college?
- How is my eligibility for financial aid determined?
- What is a reasonable amount to borrow?

Also included in this book is information on student loan programs available to Maine families, tips for scholarship searches and answers to frequently asked questions. This publication is available at all high school guidance offices and adult education offices, as well as on the FAME Web site at www.famemaine.com.

ATTEND COLLEGE GOAL SUNDAY

On January 29, 2006 at 2:00 p.m. at several sites throughout Maine, financial aid professionals will assist families with line-by-line completion of their FAFSA form. Understanding how to access financial aid resources is critical to achieving higher education success. For students who are considering college for the fall of 2006, College Goal Sunday is a program that provides an opportunity for Maine students and families to complete the Free Application for Federal Student Aid (FAFSA), the form required to determine eligibility for all federal and state financial aid programs. For more information on this program visit www.collegegoal sundaysmaine.com.

In addition, an overview of the financial aid process and how to access financial aid resources and scholarships will be provided at financial aid nights at school districts throughout Maine from October through December 2005. For specific sites, dates and times go to www.famemaine.com or check with your high school guidance counselor.

ACCESS RESOURCES (ADULT LEARNER)

The Maine Educational Opportunity Center (MEOC) - provides the adult learner with career counseling, college admissions assistance, referral/advocacy services, financial aid counseling and other services free of charge. Valuable service can be obtained by calling 1-800-281-3703 or by visiting their Web site at meoc.maine.edu (see their ad on the back page.) Other agencies such as Women, Work & Community (www.womenworkandcommunity.org), and Aspire (www.maine.gov/dhhs/blf/ASPIRE.HTM) also provide services for the adult learner.

The College-Level Examination Program (CLEP) helps students of all ages obtain credit for what they already know. Many colleges and universities award credit in various subjects for satisfactory scores on CLEP exams. Check with the college or university and visit the CLEP Web site at www.clep.org/clep.

SAVE FOR COLLEGE

Families who save for a college education are always in a better position when it comes to paying for college costs. Students should be encouraged to save money for college from temporary or part-time jobs and full-time summer employment. No matter how few years remain before entering college, savings will help to defray college costs by replacing debt with savings.

That’s why the State of Maine, through the Finance Authority of Maine and the Maine State Treasurer, has arranged with Merrill Lynch to bring Maine families the NextGen College Investing Plan®. NextGen® has been designed to meet the requirements of a Section 529 Qualified Tuition Program and provides parents, grandparents and family friends a tax-advantaged way to save and invest for future higher education expenses. NextGen® and its programs offer real advantages for Maine families and make investing for college easier and more affordable than ever before.

To learn more about the NextGen College Investing Plan® contact FAME at 1-800-228-3734 or visit www.famemaine.com for a list of participating Maine Saving Agents. Matching Grants are available to eligible families.

Description of Institution
Bangor Theological Seminary in Bangor and Portland, Maine, is the only accredited theological school in the three northern New England states. Its emphasis is ecumenical and students from all mainline Protestant denominations are enrolled.

The Master of Divinity degree (M.Div.) is open to persons with baccalaureate degrees. Under the unique “Bangor Plan,” persons age 21 and over who have not yet completed their college education enroll in two years of pre-theological study in the liberal arts and sciences, and are then admitted to the M.Div. program. Upon completion, they are awarded the Seminary Diploma and are expected to continue their education by transferring to a college or university of their choice.
Bangor Seminary also offers the Master of Arts degree, an academic program requiring a baccalaureate degree upon entrance, and the Doctor of Ministry degree, offered to persons with at least three years in the full-time practice of ordained ministry and an M.Div.

Special Programs or Services for Adults
Bangor Theological Seminary offers a wide range of continuing education opportunities, including evening, weekend, and online courses. Special programs are also available, including evening and weekend classes. Andover College also offers free placement services and lifetime placement assistance to all students and graduates.

enroll@cmcc.edu

Student Costs 2005-2006 academic year
Tuition: $74 per credit hour
Room and Board: $2,820 per semester
Preferred Financial Aid Deadline: May 1st.

Description of Institution
Central Maine Community College provides quality, accessible college education and lifelong learning opportunities. It provides associate degree and technical education, education for transfer to baccalaureate programs, and services to support economic development and community vitality.

Central Maine Community College is located on the shore of Lake Auburn in Auburn, ME. The 110-acre campus provides a beautiful setting for classrooms, hands-on learning laboratories, dormitories, dining, gym, and recreational facilities.

The Associate in Arts-Liberal Studies and General Studies (AAS) program is offered specifically to provide the first two years of education for transfer to a bachelor's program at a four-year college or university. Two-year programs leading to an Associate in Applied Science (AAS) or Associate in Science (A.S.) Degree are offered in Accounting, Applied Technologies, Architectural & Civil Engineering, Automotive Technology, Automotive Parts & Service Management, Fire Science, Computer Technology, Early Childhood Education, Education, Electromechanical Technology, Graphic Arts/Printing, Human Services, Machine Tool Technology, Mechanical Engineering, and Occupational Health & Safety.

Special Programs or Services for Adults
Central Maine Community College provides both credit and non-credit courses for people who are not currently pursuing a degree program. Offerings are also available from the regular Central Maine Community College course schedule on a space available basis, in both day and evening sections. This option often provides students with the opportunity to apply coursework towards future program requirements. Central Maine Community College's Corporate and Community Services division offers regional business and industry opportunities for general or specialized training on campus or at the business location.

djenison@cmhc.org

Date Founded: 1891
Control: Private
Regional Accreditation: New England Association of Schools and Colleges

Student Costs 2005-2006 academic year
Tuition: $2,898
Fees: $138 per credit hour
Room Only: $1,500
Preferred Financial Aid Deadline: March 15th.

Description of Institution
The Central Maine Medical Center School of Nursing offers a two-year (4 semester) State, Regional, and National L.N. accredited co-educational registered nurse education program leading to an Associate Degree in the Applied Science of Nursing. Located in Lewiston, the school is near shopping districts, churches, libraries, athletic facilities, and a day-night ski area.

Formerly known as the Central Maine General Hospital School of Nursing, the school was founded in 1891, and is situated within the Central Maine Medical Center complex, facilitating the student's orientation to the art and science of nursing and the registered nurse's role in hospitals and similar settings.

All courses in the nursing major are taught by the faculty of C.M.M.C. School of Nursing. Eight general education courses totaling 27 credits are taken at any regionally accredited college or university and submitted for approval to transfer to the school.

Graduates are awarded an Associate Degree and are eligible to write the National Council Licensure Exam for Registered Nurses. C.M.M.C. School of Nursing graduates are employed in registered nursing positions throughout the United States.

Special Programs or Services for Adults
An Advanced Placement program is available for qualified applicants who meet the criteria for advanced placement. These applicants may challenge Semester I or Semester II if the four-semester program, thus saving up to one year of full-time enrollment in the program. Please call the school for more information.

Various extension courses for graduates are offered during the academic year.

Other course offerings include C.N.A., C.N.A.-M., Medical Terminology, Critical Care Internship Course, Perioperative Nursing Course, and R.N. Refresher.

Regional Accreditation: New England Association of Schools and Colleges
Student Costs 2005-2006 academic year
Comprehensive Fee: $41,770
Preferred Financial Aid Deadline: January 15th.

Description of Institution
Colby College, located in the lakes region of central Maine, has a 714-acre campus often ranked most the beautiful in the country. The entire campus is a wildlife management area. New facilities include an apartment complex for members of the senior class, a new 9,000 square-foot addition to the extraordinary Colby Museum of Art, and a studio art building. Colby's libraries house more than 900,000 items. The 12th oldest independent liberal arts college in the nation, founded in 1813 and coeducational since 1871, Colby has maintained a reputation for excellence. The education offered is based on the belief that a broad acquaintance with human knowledge is the best preparation for the professions, for graduate study, and for life. To that end, Colby offers a traditional liberal arts program that is complemented by extensive interdisciplinary programs and extensive opportunities for independent and off-campus study. Students sit on virtually all major committees of the College and actively participate in a wide variety of extracurricular experiences.

Special Programs or Services for Adults
With the permission of the dean of admissions and the course instructor, area residents may enroll in courses at the College. Colby offers several different enrollment plans for local tuition claim. Outstanding area residents have the opportunity to enroll in a self-paced program leading to the bachelor of arts degree. More detailed information on these programs may be obtained by contacting the admissions office.

Director of Registration: Susan A. Mehlman

College of the Atlantic awards the Bachelor of Arts in Human Ecology. The study of human ecology emphasizes the understanding of relationships between humans and the technological and natural environments. Students may concentrate their studies in one or more of the following areas: design, environment, landscape and building architecture, marine studies, natural history/museum studies, public policy, education and teacher certification and selected humanities studies. Student-related workshops, independent studies, internships, and senior projects provide important learning experiences. Forty percent of COA’s students have graduated or have pursued advanced education at some of the country’s leading institutions.

Special Programs or Services for Adults
Residents of Hancock County may enroll for one or two courses per term at a greatly reduced rate. Adults are encouraged to seek admission to the college and do receive careful consideration in the admission process.

The Postsecondary Guide of Maine

Description of Institution

The Postsecondary Guide of Maine is a private, co-educational, liberal arts institution located on the shores of Sebago Lake in Standish, about 18 miles from Portland. The beautiful 331-acre campus attracts approximately 1000 students who represent 15 states and several foreign countries. Popular programs include nursing, business, elementary and secondary education, biology, criminal justice, history, communications, psychology and sports management. The College also has strong pre-professional programs in fields such as pharmacy, engineering, and medicine.

The Division of Graduate and Professional Studies enrolls more that 4,000 students from all over the world and has graduated more than 6,500 students since its inception in 1976.

The hallmark of a Saint Joseph’s College education are: academic challenge; Catholic tradition; modest class size; opportunities for learning through participation in community service; internships; campus ministry, and clubs and organizations; and a strong sense of community.

Saint Joseph’s is a NCAA Division III institution that boasts a strong tradition of athletic success. The College sponsors the following teams: Men—Basketball, Golf, Baseball, Cross Country, Soccer; Women—Basketball, Field Hockey, Cross Country, Softball, Volleyball, Soccor.

Special Programs for Adults

The Division of Graduate and Professional Studies offers a number of degree programs for adults. Students engage in independent course study from home on their own schedules. They may work towards a bachelor or master’s degree or take individual courses. Saint Joseph’s College faculty and advisors guide, encourage, and monitor students as they complete their coursework (offered by our Center for Un- dence and on-line). Students may choose from a number of academic fields: Health Care, Pastoral Studies, Education, Business, Criminal Justice, Liberal Studies. Nursing: Master’s in Nursing (MSN); Graduate Nurse (RN) to BSN; and a Licensed Practical Nursing Program (LPN) to BSN - all programs are available through independent study and summer residencies.

President: Dr. David B. House

Special Programs or Services for Adults

Each summer the Workshops holds more than 200 one-week workshops and master classes. Here, visual artists, professional photographers, timemakers, students and amateurs spend an intensive week with their masters improving their eye, mastering their craft, exploring their career options and stretching their personal vision.

Thomas College specializes in preparing men and women for professional careers in business, technology and education. With this goal in mind, the College offers four-year degrees in accounting, computer science, elementary education, criminal justice, computer information systems, psychology, management, sports management, marketing management, finance/economics, entrepreneurship, human resource management, political science, and communications. Two-year associate degrees are also available in some of these areas.

The criminal justice program offers a unique opportunity for students to include the actual Basic Law Enforcement Training Program required of all law enforcement officers through a partnership with the Maine Criminal Justice Academy.

The academic experience at Thomas College is enhanced by a selection of liberal arts courses and a practical approach to learning that emphasizes hands-on experience through internships, student employment and consulting opportunities. Thomas College takes pride in its placement rate. In fact, the College now guarantees job placement for all bachelor’s degree recipients in their field of study.

Special Programs or Services for Adults

The Continuing Education Division Education Division offers bachelor’s degrees in business and professional studies, as well as associate degrees in applied business and professional studies.

Master’s Degrees: The Graduate School offers the Master of Business Administration degree, an M.B.A. in Human Resource Management, and an M.S. in Computer Technology Education.

Description of Institution

University College is an independent, co-educational college, located in Orono, Maine near the shores of Lake Winnipesaukee. Our 250-acre campus includes a 100-acre tree farm, community garden and extensive nature trails. Highlights of the campus include the Student Center, the gymnasium that also houses the climbing wall, the Learning Resource Center and the Outdoor Adventure Center that provides a wide array of opportunities for outdoor enthusiasts. The University College education is a unique combination of interdisciplinary liberal arts with professional preparation in the environmental field. Our Environmental Stewardship Curriculum is a key component in educating students on the inter-relatedness of the various disciplines that comprise environmental studies. University College offers a Bachelor of Science degree in Adventure Education Leadership, Adventure Therapy, Conservation Law Enforcement, Ecology, Environmental Analysis, Environmental Biology, Environmental Education, Environmental Policy, Environmental Law, Fisheries & Aquaculture, Forestry, Landscape Horticulture, Parks, Recreation & Ecotourism, Wildlife, Wildlife Biology, Wildlife Care and Education.

Special Programs or Services for Adults

University College’s Learning Resource Center is an academic center that provides instruction and supportive services to students. The Learning Resource Center (LRC) is a faculty-manned service for learning disabled students, students who may have difficulty mastering a college education. The LRC offers the following programs: academic courses, placement testing, services for learning disabled students, study skills workshops, personal tutoring, and SAGE (Student Academic Growth Experience).

Description of Institution

The University of Maine offers a comprehensive range of baccalaureate, masters and doctoral degree programs. UMaine is the Land-Grant University and Sea Grant College of the state. Academic programs are offered in the Colleges of Business, Public Policy & Health, Education & Human Development, Engineering, Liberal Arts & Sciences, Natural Sciences, Forestry & Agriculture, and the Honors College. Nationally-known interdisciplinary programs include those in Canadian Studies, International Affairs and Research. Outstanding students may participate in an Honors College Program taught by faculty from each of the five colleges. Supporting the teaching and research mission of UMaine is the Raymond Fogg Library, the largest library in Maine. Extensive computer facilities bolster UMaine’s academic mission. Noteworthy facilities available on the 600-acre campus bordering the Stillwater River.

Spring sports programs for men and women take place in an extensive athletic complex. Black Bear teams compete in Division I of the National Collegiate Athletic Association.

Special Programs or Services for Adults

The BUS (Bachelor of University Studies) degree program is designed to serve the needs of busy, active adults. Offered through the Division of Lifelong Learning, the BUS program provides highly motivated part-time adult students the opportunity to complete degree work in an individually planned degree program. Flexible and adaptable describe the design of this program. For further information, contact the Division of Lifelong Learning at 207-581-3142 or visit the web page at http://dll.umaine.edu/bus/.

See listing for The University of Maine at Augusta.

University College of Bangor (UC) is the part of the University of Maine System (UMS) that provides statewide access to courses and degrees for those who cannot pursue studies on the main campus. In communities statewide, students can take courses leading to 38 degree and certificate programs. Courses offered through UC are the same quality courses available on UMaine’s campuses, so students can receive financial aid, apply for scholarships, and transfer credits with confidence.

At UC centers around Maine, people can take university courses, pursue degrees, and receive all the support they need to earn a degree close to home and on schedules that fit into their family and work lives. Courses are taught by UMS faculty on-site, online or via interactive television (ITV). That combination of “close to home” access and on-going personal support in a smaller environment are the hallmarks of the UC Centers. ITV and online classes are also available at over 75 sites around the state in high schools, adult education centers, community centers, and other locations. Coordinated by the local UC Center, staff at sites welcome students, distribute and collect course materials, proctor exams, and monitor classroom equipment.

In addition to a range of services, UC offers the following special programs:

Osher Scholarships—Qualified students who would like to give college a try apply for an Osher scholarship, which will pay up to $600 toward tuition, books and fees for one course. A person must be a Maine resident with a high school diploma or GED, must fill out a simple one-page application form, and must enroll in a qualifying college course. Preference is given to those who have never completed a college course.

Liberal Arts Certificate–to help students get started, UC offers a six-course Certificate in Liberal Arts, which provides a solid foundation for transfer to any of the UMS campuses or a Maine community college. The certificate is awarded when a student has completed at least one course in each of six core Liberal Arts subject areas.

Senior College—this program is designed to provide a curriculum of intellectually stimulating learning opportunities and special activities for people 55 years of age and older.

Senior College programs are located around the state in high schools, adult education centers, community centers, and other locations. Coordinated by the UC Center, staff at sites welcome students, distribute course materials, proctor exams, and monitor classroom equipment.

For more information about UC and its services, contact location near you or call 1-800-868-7000. Visit us on the Web for the latest course information: www.learn.umaine.edu.

1-888-Go-To-UMM
Fax: 207-255-1363
ummadmissions@maine.edu
www.umm.maine.edu

Description of Institution
What sets apart the University of Maine at Machias from so many other leading small New England liberal arts colleges? While the differences are many, the opportunities for learning in a unique coastal environment make UMaine Machias a first choice for students looking to stretch beyond the classroom.

UMaine Machias students are engaged not just in their classroom work, but in their community and their environment. Education students get real classroom experience in their first year of study. Marine Biology students experience Maine's aquaculture industry first-hand. Business Administration majors participate in work/study and internship programs at Bangor banks.

While the Downeast coastal environment orients almost every program at the University, there is also a strong focus on the individual. Campus richness to the college and campus life that is usually associated with only large urban campuses.

The university’s location is equidistant for recreation as well as education. The coastal waters, inland lakes, forests, and Intercollegiate (NACC) club, and intramural sports are offered. Students are encouraged to participate in extra-curricular activities as well as the national and international student exchange programs to enhance their academic experience.

The majority of first-year students live on-campus in a variety of residential options that include all female, co-ed, quiet, scholar, and healthy lifestyle areas. Support services on campus include a health clinic, a fitness center, personal and vocational counseling, advising, academic advising, tutoring and academic support services, a state-of-the-art computer center, a wireless computing environment and a well equipped library. Admission is selective and students interested in being considered for financial aid, writing and education are encouraged to apply early since these programs may fill quickly. More than 8 out of 10 students receive some form of financial aid. To meet the deadline for priority consideration, the FAFSA must arrive at the federal processor by March 1.

Special Programs or Services for Adults
Admission to UMF is selective. The majority of students at UMF enter directly from high school; however, qualified transfer students and non-traditional students are encouraged to apply. The admission decision is based on adequate preparation for college, academic potential, and motivation to succeed. Age is not a factor in the decision. The high school record, GED, and/or previous college transcript(s) are among the criteria used to make a decision. Excellent career services such as the Learning Assistance Center and the Center of Human Development are available to help smooth the transition to UMF's supportive learning environment.

**Note:** The table above lists programs offered in various fields. Each entry represents a specific program, with codes indicating the specific institutions offering the program. The abbreviations are key identifiers for the programs and institutions mentioned.
### Programs Offered

**GRAPHIC COMMUNICATIONS**

- BTS
- Bates
- Bowdoin
- CAMDEN
- CCJC
- Casco
- CCY
- CMCC
- HUSK
- KVCC
- MECA
- Rockport
- NESC
- SMCC
- St. Joseph's

**HEALTH FIELDS**

- AD/RN Registered Nurse
- Applied Immunology
- Public Health
- Community Health Education/Allied Health
- Dental Assistant
- Dental Hygiene
- Emergency Medical Services
- Gerontology
- Health Administration/Sciences
- Applied Bioscience
- Health Information Technology
- Health Policy & Management
- Medical Assistant
- Medical Lab. Technology/Clinical Lab Sciences
- Medical
- Medical Technology
- Nursing (see PROF. STUDIES also)
- Occupational Therapy/Assistant
- Physical Therapy/Assistant
- Practical Nursing
- Professional Studies (Nursing)
- Psychiatric Nursing
- Radiologic Technology
- Radiation Therapy
- Rehabilitation Services
- Respiratory Therapy
- Sports Medicine
- Therapeutic Recreation

**HUMANITIES (see INTERDISC. also)**

- Art
- Art History
- Classics/Archaeology
- Classics/Classical Studies
- Classics/English
- Classics/Philosophy
- Communications Art
- Comparative Literature
- English
- East Asian Languages
- Fine Arts
- French
- German
- Humanities
- Latin
- Linguistics
- Modern Languages
- Music
- Performance Arts
- Philosophy
- Philosophy/Mathematics
- Philosophy/Religion
- Pre-Theological
- Religious
- Religious/Philosophy
- Resources Languages
- Russian
- Spanish
- Speech Communication
- Speech/Theater
- Theatre Arts
- Theology

**LAW AND PUBLIC SAFETY**

- A
- AB
- A
- B

**Other**

- A
- AB
