4. **BACKGROUND:**

   The University of Maine at Machias anticipates increases in the cost of the recently approved Powers Hall Exterior and Masonry renovation project.

   The cost of the roof portion of this project and previously unknown hazardous material abatement will increase the cost of this project.

   The University is working with the intention of providing the Committee with an updated cost estimate and an updated agenda sheet so this situation may be converted to an action item for the Committee’s consideration May 5.

   The project already is approved for up to $680,000 for the repair of the masonry and exterior of Powers Hall. The prior agenda sheet is attached.
