AGENDA ITEM SUMMARY

1. NAME OF ITEM: Enterprise Risk Management – Human Resources

2. INITIATED BY: James R. Erwin, Chair Pro tem

3. BOARD INFORMATION: X

4. OUTCOME:

5. BACKGROUND:

Gretchen Catlin, Risk Manager, will present an update to the Human Resources and Labor Relations Committee regarding the implementation of Enterprise Risk Management (ERM). Previous guidance from Trustees has been reflected in the development and implementation of the ERM program. Trustees suggested that the ERM program should:

- Identify a specific Trustee committee for oversight of each identified risk;
- Rate each risk based on materiality and scope;
- Be manageable within existing resources; and
- Be actionable.

Based these suggestions, Risk Management is preliminarily tracking 15 University risks. Two risks are assigned to the Human Resources & Labor Relations Committee for oversight. Each risk is also assigned a leader who is responsible for implementing mitigation and control strategies.
Risk Management’s key objective is preventing loss for the University and ensuring our campuses are safe for our students, employees, and guests. This is accomplished by:

- Performing enterprise level risk assessments.
- Procuring and projecting insurance needs for the University. Today Risk Management manages over 30 insurance policies ranging from auto, liability, property, workers compensation, aviation, cyber, crime and more.
- Being the administrative home for registering more than 400 vehicles, 50+ marine-craft, airplanes, and unmanned aerial and nautical vehicles used by students, faculty and staff in carrying out the University’s mission.
- Providing guidance and support to the University at the daily operational level and enterprise level.
Executive Summary

On May 29, 2019, Gretchen Catlin and Chip Gavin provided an Enterprise Risk Management (ERM) update to the Audit Committee. This included a review of the risk assessment tracking tool and ERM implementation schedule.

Trustees approved the implementation approach which consists of having each enterprise risk assigned to a Board Committee for oversight.

The University of Maine System is preliminarily monitoring 15 enterprise level risks and each has a designated Trustee committee of oversight, as suggested by Trustees.

2 of these risks have been designated to the Human Resources & Labor Relations Committee.
Risks are scored and prioritized based on materiality and scope.
