Board of Trustees
Academic and Student Affairs Committee
April 24, 2023 at 9:00 am
Zoom Meeting – No Physical Location Available

The public is invited to view the meeting on YouTube. The link to the Board of Trustees YouTube page can be found on the Board website: https://www.maine.edu/board-of-trustees/

AGENDA

9:00am - 10:25am
Executive Session
The Academic and Student Affairs Committee will enter Executive Session under the provision of: MRSA Section 405 6-A & C

Following the executive session, the committee will reconvene the public meeting to discuss the following item:

10:25am - 10:30am
Tab 1  Tenure at Time of Hire - Professor in the School of Nursing, UM

10:30am - 10:35am
Tab 2  Tenure at Time of Hire - Professor in the Department of English, UM

10:35am - 10:45am
Tab 3  New Academic Program Proposal - B.S. Special Education, USM

10:45am - 11:30am
Tab 4  Faculty Initiated Discussion
Shared Governance

11:30am - 11:40am
Tab 5  Student Representative Discussion
Campus Communication

Items for Committee decisions and recommendations are noted in red.
Note: Times are estimated based upon the anticipated length for presentation or discussion of a particular topic. An item may be brought up earlier or the order of items changed for effective deliberation of matters before the Committee.
AGENDA ITEM SUMMARY

NAME OF ITEM: Tenure at Time of Hire, Professor in the School of Nursing, UM

INITIATED BY: David M. MacMahon, Chair

BOARD INFORMATION: BOARD ACTION: X

BOARD POLICY:

Board Policy 310: Tenure

UNIFIED ACCREDITATION CONNECTION:

BACKGROUND:

The University of Maine has requested that Dr. Colleen Marzilli be awarded tenure at the rank of Professor in the School of Nursing within the College of Natural Sciences, Forestry, and Agriculture at the University of Maine, effective August 1, 2023, in accordance with Board of Trustee Policy 310. Dr. Marzilli’s credentials have been reviewed by the faculty of the School of Nursing at the University of Maine and received their full support.

TEXT OF PROPOSED RESOLUTION:

That the Academic and Student Affairs Committee forwards this item to the May 21-22, 2023 Board of Trustees meeting for approval of the following resolution:

That the Board of Trustees accepts the recommendation of the Academic & Student Affairs Committee and approves tenure at time of hire, Professor in the School of Nursing at the University of Maine with tenure to be effective August 1, 2023.
Date: April 11, 2023

To: Dannel Malloy, Chancellor
University of Maine System

From: Jeffrey St. John, Interim VCASA
The University of Maine System (UMS)

Regarding: Tenure at Time of Hire for Dr. Colleen Marzilli at the University of Maine

President Joan Ferrini-Mundy, Provost John Volin, and appropriate University of Maine (UM) administrators are recommending and requesting consideration of immediate tenure at the rank of full professor in the Department of Nursing in the College of Natural Sciences, Forestry, and Agriculture for Dr. Colleen Marzilli, effective August 1, 2023.

Dr. Marzilli was selected through a rigorous national search process. She has an impressive record of teaching, scholarship and public service.

After reviewing Dr. Marzilli’s credentials, I also concur with the recommendation of tenure at the rank of professor. Dr. Marzilli’s academic achievements demonstrate that she meets the standards for tenure at the University of Maine and the scholarly expectations of the Professor rank.

Chancellor Dannel Malloy

Date 4/11/23
March 27, 2023

Dr. Dannel Malloy
Chancellor
University of Maine System
267 Estabrooke Hall
University of Maine
Orono, ME 04469

Dear Chancellor Malloy:

In accordance with Board of Trustee policy concerning appointments, I am pleased to forward for your approval and transmittal to the Board of Trustees my recommendation that Dr. Colleen Marzilli be awarded tenure at the rank of professor effective August 1, 2023. According to Section 310 (Tenure) of the University of Maine System Administrative Procedures Manual, “[at] the time of initial appointment, exceptionally qualified individuals may be awarded tenure at the rank of full professor, with the approval of the appointment by the Trustees.”

Dr. Marzilli was hired as a spousal accommodation for Dr. T. Scott Marzilli, Associate Provost for Student Success and Innovation.

Dr. Marzilli currently holds the position of tenured professor at the University of Texas at Tyler School of Nursing. She holds a Ph.D. in Nursing from the University of Texas at Tyler and a Doctorate of Nursing Practice in Public Health Nursing from the University of Tennessee Health Science Center. She has served as a faculty member at the University of Texas at Tyler since 2009.

The School of Nursing peer committee reviewed Dr. Marzilli’s curriculum vitae based on the school’s evaluation criteria and determined that she meets or exceeds their standards for teaching, research, and service. She has published 22 peer-reviewed articles and authored three book chapters. She has a strong record of seeking internal and external funding. Dr. Marzilli has met the School of Nursing’s metrics for excellence in teaching by meeting or exceeding the 4.0 median benchmark on her course evaluations throughout her 13-year academic career as a nursing faculty. She consistently displays a high level of service by serving on national review boards and holding leadership positions.
Dr. Colleen Marzilli Tenure Recommendation
Page 2

The recommendation for immediate tenure has the full support of the School of Nursing peer committee; Kelley Strout, Director of the School of Nursing; Diane Rowland, Dean of the College of Natural Sciences, Forestry, and Agriculture; and John Volin, Executive Vice President for Academic Affairs and Provost. Copies of these recommendations, Dr. Marzilli’s curriculum vitae, and the School of Nursing evaluation criteria are attached.

The University of Maine will be very fortunate to have Dr. Marzilli as a member of the faculty in the School of Nursing. I enthusiastically support her appointment as professor with the award of tenure effective August 1, 2023.

Questions concerning this appointment should be directed to Nicole Lawrence, Interim Vice President for Human Resources. Thank you for your assistance in this matter.

Sincerely,

Joan Ferrini-Mundy
President

Joan Ferrini-Mundy
President
University of Maine
200 Alumni Hall
Campus

Dear President Ferrini-Mundy:

I am pleased to forward for your approval and transmittal to Chancellor Malloy my recommendation that Dr. Colleen Marzilli be appointed at the rank of professor and awarded tenure effective at the time of her appointment on August 1, 2023.

The recommendation for tenure has been reviewed and approved by the Peer Committee in the School of Nursing; Kelley Strout, Director of the School of Nursing; and Diane Rowland, Dean of the College of Natural Sciences, Forestry, and Agriculture.

A copy of Dr. Marzilli’s curriculum vitae is attached for your review. Dr. Marzilli’s contributions to teaching, scholarship, and service meet the school’s evaluation criteria (attached) for the rank of professor with tenure. Dr. Marzilli was hired as a spousal accommodation for Dr. T. Scott Marzilli, Associate Provost for Student Success and Innovation. She achieved promotion to full professor in November 2022 at the University of Texas at Tyler School of Nursing.

Dr. Marzilli meets the School of Nursing’s metrics for excellence in teaching by meeting or exceeding the 4.0 median benchmark on her course evaluations throughout her 13-year academic career as a nursing faculty at University of Texas at Tyler. Her highly skilled credentials as a Family Nurse Practitioner with two doctoral degrees and experience teaching in a range of simulation, didactic, laboratory, clinical, graduate, and undergraduate courses make her highly qualified to teach across all School of Nursing programs. She exceeds the scholarship requirements with 22 peer-reviewed articles published from 2017-2022, with 5 as first author. In addition, she has authored three book chapters in nursing textbooks. She has received $11,000 in internal funding to support her work and has actively applied for more than $2 million in internal and external grants. She is an active researcher and scholar in the areas of fatigue and persistence. Dr. Marzilli has invested significant service within her School of Nursing, to the university, the community, and national nursing organizations.
I support Dr. Marzilli's appointment as professor with immediate tenure effective August 1, 2023. She will contribute impact and support to UMaine's highly recognized and respected nursing programs.

Sincerely,

[Signature]

John C. Volin
Executive Vice President for Academic Affairs and Provost

December 28, 2022

Dr. John Volin
Executive Vice President for Academic Affairs & Provost
201 Alumni Hall
University of Maine
CAMPUS

Dear Provost Volin:

I have reviewed the recommendations from the School of Nursing (SON) peer committee and director, Kelley Strout, concerning the granting of tenure upon hire at the full professor rank for Dr. Colleen Marzilli. Based on their unanimous support, I concur with their recommendation to grant tenure upon hire, with the Board of Trustees approval, to Dr. Marzilli.

Dr. Marzilli achieved promotion to full professor at the University of Texas at Tyler School of Nursing in November 2022. Based on her qualifications, our SON peer committee and director found her level of scholarship and achievements in teaching and research/professional activity to also be worthy of their standards for both tenure and the rank of full professor at the University of Maine. She is an active researcher and scholar in the areas of fatigue and persistence – topics that align well with the current UMaine SON focus on well being and health of nursing professionals.

We are excited to have Dr. Marzilli join the SON community in 2023 and I have no doubt she will contribute impact and support to our highly recognized and respected UMaine nursing programs.

Sincerely,

Diane L. Rowland
Dean of the College of Natural Sciences, Forestry and Agriculture
Director of the Maine Agricultural and Forest Experiment Station

diane.rowland@maine.edu
December 16, 2022

Dr. Diane Rowland
College of Natural Sciences, Forestry, and Agriculture
University of Maine

Dear Dean Rowland,

The UMaine School of Nursing Peer Review Committee evaluated Dr. Colleen Marzilli’s scholarship, service, and teaching against the school’s peer review criteria. The committee determined that Dr. Marzilli’s contributions to teaching, scholarship, and service meet the rank of professor. I support the Peer Committee’s recommendation to hire Dr. Marzilli at the rank of Professor with tenure.

Teaching
UMaine School of Nursing has established metrics for excellence in teaching evaluations. The school reviews a median score of 4.0 on a 5-point scale as meeting the target benchmark. Throughout Dr. Marzilli’s 13-year academic career as a nursing faculty at Texas Tyler, she has met or exceeded the 4.0 median benchmark on her course evaluations for nearly a decade. Additionally, Dr. Marzilli has supported faculty through mentorship and was inducted into the National Academies of Practice as a fellow. Her highly skilled credential as a Family Nurse Practitioner with two doctoral degrees and experience teaching in a range of simulation, didactic, laboratory, clinical, graduate and undergraduate courses make her highly qualified to teach across all school of nursing programs.

Scholarship
Dr. Marzilli exceeds the scholarship requirements within the School of Nursing peer review criteria. She published 22 peer-reviewed articles from 2017-2022, with 5 as first author. She authored three book chapters in nursing textbooks. She has received $11,000 in internal funding to support her work. However, she has actively applied for more than $2 million in internal and external grants.

Service
She has invested significant service within her School of Nursing, to the university, the community, and national nursing organizations. She served as the president of Sigma Theta Tau International Honor Society, secretary for the Texas Nurses Association, and American Nurse Association Membership Assembly representative. She’s also served on the faculty senate and the covid-19 response team.

In summary, Dr. Marzilli’s meets the School of Nursing’s peer review criteria at the rank of professor. I fully support the peer committee’s recommendation to hire her with tenure at the rank of professor.

Sincerely,

Kelley Strout, Ph.D., RN
Director UMaine School of Nursing
Associate Professor
207-581-2601
kelley-strout@maine.edu
December 16, 2022

Kelley Strout, PhD, R.N.
Director, School of Nursing
University of Maine
Orono, ME 04469

Dear Dr. Strout,

On November 11, 2022, The University of Texas at Tyler School of Nursing Tenure and Promotion Committee determined that Dr. Colleen Marzilli met or exceeded all their requirements to support her promotion to the rank of Professor. On December 15, 2022, the Peer Review Committee of the School of Nursing at the University of Maine met to review Dr. Marzilli’s portfolio to be hired as a tenured Professor. Votes were unanimously in favor of Dr. Marzilli’s hire with tenure as a Professor (three votes). The following summary represents our review of Dr. Marzilli’s past contributions to teaching, scholarship, and service.

Teaching/Advisement
Dr. Marzilli has demonstrated proficiency as an educator with evaluations consistently about 4.0 on a 1–5-point scale where she has taught courses to include Capstone, Legal Regulatory & Finance, Advance Epidemiology, and Population Health. Dr. Marzilli demonstrated expertise and incorporated student feedback for course improvement. In the summer of 2018, Dr. Marzilli served as the Faculty Advisor and Coordinator for the Shandong University International Collaboration, with over 100 hours of collaboration and almost 300 hours of Teaching Enhancement Activities. In 2020, she was inducted into the National Academies of Practice as a Fellow.

Scholarship/Professional Activity/Research
Dr. Marzilli has authored three book chapters, including Communication, Collaboration, and Technology in Community and Public Health Nursing: Promoting the Public’s Health (10th ed.). Dr. Marzilli has authored 22 journal articles from 2017-2022, with five as the first author. Dr. Marzilli reached readers via 34 LinkedIn Pulse articles; topics included fatigue, tenacity, grief, gratitude, courage, bravery, and persistence. Since 2018, Dr. Marzilli has presented 10 posters and delivered 38 presentations at local, national, and international venues. During the same time, Dr. Marzilli sought over 2 million dollars in internal and external funding and was awarded $11,000 in internal grants. Funding in the process includes a $200,000 Nursing Innovation Grant Program.

Service
Dr. Marzilli consistently displays a high level of service by serving on national review boards and holding leadership positions, including past president of Sigma Theta Tau International Honor Society for Nursing Iota Nu Chapter at Large, Secretary for the Texas Nurses Association, and American Nurse Association Membership Assembly Representative. Dr. Marzilli also served on Faculty Senate and the COVID Incident Response Team.
Dr. Marzilli meets the University of Maine School of Nursing’s tenured Professor requirements in teaching, scholarship/professional activity/research, and service. The Peer Review Committee strongly supports her hire with tenure at the rank of Professor.

2034 McClendon  
Houston, Texas 77030

Dear Dr. Marzilli,

I am pleased to offer you an appointment as Professor of Nursing effective August 1, 2023. I am delighted that you have already indicated your interest in this position and I want to extend a warm welcome to you.

The attachment to this letter discusses the terms and conditions of your appointment as mandated by federal law and the University of Maine System. Please sign the attachment to indicate your formal acceptance of this offer. If you have any questions regarding that information, please feel free to contact Human Resources at (207) 581-1581.

Sincerely,

John C. Volin  
Executive Vice President for Academic Affairs and Provost  

JCV/mjg

To: Colleen Marzilli

From: Nicole Lawrence, Interim Vice President of Human Resources

Re: Conditions of Appointment

This memo accompanies your formal offer of employment from Executive Vice President for Academic Affairs and Provost John C. Volin and describes in further detail the terms and conditions of your employment at the University of Maine, which are subject to modification in the event of changes in University policy, in accordance with the AFUM collective bargaining agreement, or to meet the changing needs of the University.

Your appointment as Professor of Nursing in the School of Nursing will be effective August 1, 2023. Your appointment as Professor of Nursing with immediate tenure is subject to the approval of the University of Maine Board of Trustees. I anticipate that the Executive Committee of the Board of Trustees will consider your appointment with tenure at their upcoming meeting and give final approval. Your annual salary for this full-time, academic-year appointment is $101,000.00. With an August 1st start date you will be paid 1/9th ($11,222.22) of your academic year salary for the month of August 2023. Beginning with the 2023-2024 academic year, your salary will be paid in twelve equal installments of $8,416.67 from September through August. The academic year begins September 1 and ends May 31.

In accordance with Article 20.5 of the collective bargaining agreement between the University of Maine System and the Associated Faculties of the University of Maine System (AFUM) all unit members are required to participate in the direct deposit/electronic funds transfer program with the financial institution of their choice.

Employees in the University of Maine System are required to comply with UMS COVID protocols which strongly encourage employees to be fully vaccinated or obtain a qualified vaccination exemption. Employees with no vaccination record or exemption on file may be subject to asymptomatic testing. By accepting this offer, you are agreeing to abide by this requirement. Further details regarding recording of your vaccination status and/or exemption will be provided upon acceptance of this appointment.

As part of this appointment, you may be required to teach evening courses and to teach at any University of Maine location as well as to utilize alternative delivery systems, e.g., Interactive Instructional Television or computer-based learning systems. Your responsibilities will include teaching, research, University and public service, and student advising. Your future workload will be assigned in accordance with the collective bargaining agreement.

With this appointment, you will become a member of the AFUM unit. The provisions of employment and eligibility for fringe benefits are in accordance with the AFUM Collective Bargaining Agreement. For more information concerning your obligations, the full text of this collective bargaining agreement is found at https://www.maine.edu/about-the-system/system-office/human-resources/labor-relations/.

You are eligible to participate in the University’s group medical, dental and vision insurance programs, and you will be enrolled in the University’s group life insurance program. University employees who are at least 30 years of age are required to participate in the University’s retirement plan, to which both the employees and the University contribute a specific percent, currently 4% and 10% respectively.

When Human Resources receives notification that you have accepted this job offer, a University of Maine System User Account will be created for you (or reactivated if you are a former student and/or former employee) and you will be notified by email to the address used when you applied. The email will contain important information such as your MaineStreet ID (employee ID), your maine.edu email address, and your New Hire Onboarding Activity Guide. All employees are encouraged to monitor their @maine.edu email account regularly. The University’s Employee Benefits Centers will send information regarding your eligibility for benefits and how to enroll to your @maine.edu account. Information about the University’s benefit programs, including tuition waiver for University courses, is also available at https://www.maine.edu/benefits. You have 31 days from your first day of employment to sign up for employee benefits. Failure to do so will jeopardize your eligibility for benefits until the next open enrollment period each November. Please contact the Employee Benefits Center toll-free at (866) 269-9635 for further information.

The Immigration Reform and Control Act of 1986 requires employers to hire only U.S. citizens and lawfully authorized alien workers. You will be required to produce original documents within the first three days of employment at the University of Maine showing proof of identity and the right to work in the U.S. An information sheet showing the types of documents that are acceptable for this purpose is enclosed. You will receive an email from Human Resources about your University of Maine System User Account, which will provide you directions to complete section 1 of the I-9 form in MaineStreet. You will need to schedule an appointment to verify section 2 of the I-9 form with a representative from Human Resources within your first three days of employment. This step must be completed for you to continue working beyond your first three days of employment.
The University of Maine System (UMS) takes your safety and the safety and security of all of its community members seriously. To that end, you will be required to complete yearly mandatory compliance trainings via UMS Academy, which can be accessed through your campus portal or BrightSpace.

You are encouraged to attend New Faculty Orientation (NFO) which will be held sometime in August of 2023. The orientation is designed to give you a jump start on the academic year, with lots of helpful information to make your first year a success. In addition to practical skills needed to navigate UM systems, you will also have a chance to meet new faculty and academic leaders from across the campus. Past participants have found NFO to be a great introduction to the University! You will receive more information as time gets closer. In the meantime, please mark your calendars for that week.

Please note that under the University of Maine System intellectual property policy all right, title, and interest in tangible research property, research data, records, and associated materials prepared for or resulting from funded research or involved with any university agreement, is owned by the University of Maine System. You are required to deposit or otherwise make such materials available to UMS upon your departure.

The University of Maine is a tobacco-free campus. This policy applies to faculty, staff, students, contractors, vendors and visitors. The use of tobacco and all smoking products is not permitted on any university-owned property, which includes but is not limited to; buildings, university grounds, parking areas, walkways, recreational and sporting facilities and university-owned vehicles. Tobacco use includes the possession of any lighted tobacco products, or the use of any type of smokeless tobacco. This includes the use of electronic cigarettes.

Please indicate your acceptance of the terms of this appointment by logging into your applicant profile at [https://umaine.hiresuch.com/applicant-login](https://umaine.hiresuch.com/applicant-login) and signing the job offer which is now attached (within 10 days). If you have any questions regarding your appointment or information contained in this letter, please contact your Senior Human Resources Partner, Jessica Johnston, at jessica.johnston@maine.edu or 581-5407.

PEER REVIEW CRITERIA

I. Introduction

A. Background

The purpose of this document is to articulate the goals of the Peer Review Committee through description of the Peer Review process, within the context of the School of Nursing and the University of Maine. The Peer Review Committee (hereinafter referred to as the PRC) seeks to provide a sound educational environment in the School of Nursing through appointment of faculty who carry out the mission of the School of Nursing and the University of Maine. The ranks of non-tenure track faculty Instructor, and tenure track Assistant Professor, Associate Professor, and Professor are described, with criteria for evaluation at each rank.

Because nursing is a professional practice as well as a scholarly discipline, faculty skills and responsibilities differ from those that may be required in other departments. Boyer (1990) has suggested that academics move toward viewing teaching, scholarship, and research as integrated activities. He defines scholarship in terms of four functions: teaching, discovery, application, and integration. This definition is supported by the American Association of Colleges of Nursing (AACN, 1999), and the Commission on Collegiate Nursing Education, the accrediting body for the University of Maine School of Nursing. We believe that the four functions described by Boyer are necessary functions for an academically sound and robust program, and that individuals within the School of Nursing may serve different roles, with quite different emphasis on each of the four functions. The faculty of the School of Nursing concurs with this broader definition of scholarship as a basis for its promotion and tenure criteria. Leadership and clinical practice may be key elements in judging the value of a faculty member’s scholarly contributions to the mission of the School.

Professional activity of faculty occurs in several equally valued domains—teaching, service and scholarship. All should be evaluated within the School, the discipline, and broader national academic context. The balance of professional responsibilities will vary according to the faculty assignment and the individual.

Professional schools are the primary source of leadership for the profession of nursing. Directors and faculty of schools of nursing maintain the integrity of the profession by leading and participating in the continuing development of standards of practice, standards and means for education and regulation, and close attention to ethical codes which are affected by changing technology, new practice, policy, and research. These responsibilities may be carried out via faculty leadership in state and national organizations as well as other formal and informal venues. Leadership may also be demonstrated within the academic environment, from the School of Nursing to the broader University community.
State licensure to the School of Nursing gives authority to the faculty to educate students who, upon completion of the program requirements, will be eligible to take the national licensing/certification examinations. The teaching, discovery, application, and integration functions described by Boyer (1990) may be directly enabled by competence in clinical practice, which is one of the criteria necessary for schools of nursing to be licensed. Because of the emphasis on practice in the discipline of nursing, there is a stronger role for nursing faculty members that is external to the academic setting.

Nursing faculties recognize, appreciate, and encourage diversity of talent as a necessity for creating a balance that will ensure a program that is responsive to professional norms. The development of strong faculty is seen as a process that takes place within a dynamic system. With that understanding, the definition of each rank is intentionally broad. More precise criteria follow, including examples that may be used to describe the faculty member at that rank.

B. Process: Faculty Reappointment, Promotion, and Tenure

Faculty members are reviewed on a rotating basis in accordance with the provisions of the University of Maine System and the Associated Faculties of the University of the University of Maine System contract—annually for non-tenured faculty and every four years for tenured associate and full professors.

New faculty will be invited to an informational meeting hosted by the Peer Committee in early fall, outlining the review process. Sample review dossiers will be shown to give new faculty a sense of how to organize materials, and questions about tenure and promotion will be answered.

The first reappointment review for new faculty takes place in accord with deadlines appearing on the Human Resources website, updated annually (see Appendix B). New faculty submits a vita, their summary document, and teaching evaluations from fall if available.

The second review for new faculty takes place during their second year at the University of Maine, following the same format as in the first year. The review materials should fit easily into a small binder or folio. The Peer Committee will also check the written comments in the personnel file, and ask for additional review materials if needed.

A major review of tenure track faculty takes place during the spring of the third year. This evaluation will be comprehensive—the “pre-tenure” evaluation. The expectation is that this review would give the candidate a clear sense if she or he appears to be meeting the requirements for eventual tenure and promotion in the School. If the third year review is satisfactory, the candidate will be released from six credits of teaching at some point during the following year (either one course per semester, or two courses during one semester, to be negotiated with College administration). The purpose of this release is to prepare for the application for promotion and tenure. After the third year review, the written recommendation from the Peer Committee will be detailed, comparable to the letter written during a promotion and tenure.

Updated 10/26/2006
review. The candidate will also have a meeting with the dean after the pre-tenure evaluation, to discuss progress and performance to date.

In the fourth and fifth years, tenure-track candidates will undergo additional reviews, submitting their summary documents and teaching evaluations. Late in the spring semester of each year, third year faculty and beyond are reviewed. Likewise, tenured associate and full professors will be reviewed in the late spring, every four years.

A great deal of information pertaining to regulation by AFUM and the process for faculty reappointment, promotion, and tenure can be found on the Website for Human Resources: hrweb@umit.maine.edu. Selected portions from that website that are of more general interest have been included in this document as Appendix B. Candidates for reappointment, promotion, and tenure are strongly encouraged to visit the website at least annually, for updated procedures as well as current deadlines. Faculty who are being reviewed by the PRC who were appointed under previous criteria may ask to be evaluated under the criteria used at the time of the previous appointment. They may also opt to be evaluated by the newer criteria, if they wish.

Application for tenure, without promotion: in the event that the Peer Review Committee deems it appropriate for a faculty member to seek tenure without promotion (for example, in the case of a faculty member hired as associate professor without tenure who seeks tenure at that rank), the Peer Committee will justify that recommendation in the letter to the Director.

Application for early tenure: in the event that the Peer Review Committee deems it appropriate for a faculty member to seek early promotion and tenure, the Peer Committee will justify that recommendation in the letter to the Director.

C. Purpose, function, composition of the Peer Review Committee (PRC).

According to the Bylaws of the School of Nursing, the Peer Review Committee is a standing committee. An excerpt from the Bylaws of the School of Nursing that pertains to the purpose, function and composition of the PRC is included in this document as Appendix A.

II. Faculty Rank(s) considered by the Peer Review Committee.

The review process for the following ranks of appointment takes place under the purview of the PRC. Specific criteria for each rank in the areas of teaching, scholarship, and service, are in section III of this document and labeled accordingly.

A. Non-Tenure Track Faculty Lecturer

This rank is open to individuals who are employed in a nontenure track faculty position. Peer review criteria for this position include demonstrated clinical proficiency in nursing and success as an educator of nursing students. Teaching and service criteria are addressed at this rank. Nontenure track faculty positions include no requirement for scholarship; however, nontenure track faculty who wish to include such information may certainly do so.

Updated 10/26/2006
B. **Assistant Professor**

This rank is open to individuals who have completed a doctoral degree or are doctoral candidates. Appointment to the rank of assistant professor assumes that the individual possesses potential which, when developed further, will merit promotion in rank or the granting of tenure. The Assistant Professor will have progressed beyond the level of clinical proficiency and teaching success at the rank of instructor. The Assistant Professor is developing an area of expertise and is successful in meeting the mission of the School of Nursing.

Appointment or promotion to the rank of assistant professor may also be possible for individuals in a pre-tenure position who are in the early stages of doctoral education. Except in unusual cases, the assistant professor, whose duties include teaching upper division courses, should have the highest earned degree traditional to the discipline or should have made substantial progress toward its attainment. The initial appointment of an assistant professor from outside the University is for one year. Reappointment may be for a one or two-year term, repeatable providing the probationary period, including any credit for prior service, does not exceed seven years. Tenure will not ordinarily be granted at the assistant professor level.

C. **Associate Professor**

This rank is open to individuals who have completed a doctoral degree. An exception may exist in the case of a faculty member who was awarded promotion and tenure prior to the adoption of these criteria (2006). The Associate Professor is distinguished by steady progress in achieving excellence as a faculty member in the role that has been developed for that person to meet the mission of the School of Nursing. Progress may be demonstrated through research, publication, and dissemination of knowledge critical to the discipline, clinical excellence, and/or teaching achievement. The associate professor shall normally hold the highest earned degree traditional to the discipline or have professional experience of an equivalent nature.

D. **Professor**

This rank is open to individuals who have attained a record of academic accomplishment comparable to outstanding nurse educators, nurse scholars, or nurse leaders and practitioners within this and/or other land grant universities. Candidates for full professor have a stable record of contributions to the mission of the School of Nursing, and are active as leaders in the profession. The Professor demonstrates the functions of teaching, discovery, application, and integration.

E. **Graduate Faculty**

The Peer Review criteria for the University of Maine School of Nursing also address the specific criteria necessary for qualification to serve in each of the four functional categories of Graduate Faculty membership: Full Graduate Faculty, Associate Graduate Faculty, External Graduate Faculty.
Faculty, or Graduate Instructor. Article III of the Graduate Faculty Constitution is appended for a full description of these categories (Appendix C). School of Nursing criteria for appointment at each level follow.

1. Full Graduate Faculty: Full members of the Graduate Faculty must hold formal faculty appointments at the University of Maine or must be a full member of an established, multi-institutional graduate faculty group. Full members of the Graduate Faculty who possess doctoral degrees may serve on University of Maine master’s and doctoral committees, either as the chair or as a committee member. A full member of the Graduate Faculty possessing a master’s degree may not chair a doctoral committee, but on the recommendation of the unit graduate committee and with the permission of the Graduate School, may serve as a member of a doctoral committee, if the individual possesses a specific area of expertise essential to the makeup of the committee. Full members of the Graduate Faculty may also advise graduate students in non-thesis programs.

Although it is expected that Full members of the Graduate Faculty shall possess the highest level of achievement in scholarship, graduate teaching, and public service, this appointment is reserved for those who are actively engaged in research and/or knowledge development as demonstrated through dissemination of findings, e.g. publication of at least one article in the previous 5 years.

2. Associate Graduate Faculty: Members of the Associate Graduate Faculty are individuals at the University of Maine, who do not meet all the criteria for appointment as Full Graduate Faculty but who have significant qualifications for graduate instruction. Associate members of the Graduate Faculty possess all the privileges of Full Graduate Faculty members with the exception of chairing student committees, although Associate members may serve as co-chairs of committees. Associate members of the Graduate Faculty who do not hold doctoral degrees may serve on doctoral committees only on the recommendation of the School of Nursing Graduate Committee and with the permission of the Graduate School.

3. External Graduate Faculty: Members of the External Graduate Faculty are individuals who do not hold appointments at the University of Maine. External members of the Graduate Faculty possess all the privileges of Full Graduate Faculty members with the exception of chairing student committees, although External members may serve as co-chairs of committees. External members of the Graduate Faculty who do not hold doctoral degrees may serve on doctoral committees only with permission of the Graduate School.

Individuals who qualify for External Graduate Faculty status but who were previously appointed as Associate Graduate Faculty shall be automatically reappointed as External Graduate Faculty for the duration of their current appointments. Thereafter, such individuals shall be eligible for reappointment as External Graduate Faculty.

Updated 10/26/2006
Associate Graduate Faculty who qualifies for Full Graduate Faculty status as full members of an established graduate faculty group shall be automatically reappointed as Full Graduate Faculty for the duration of their current appointments. Thereafter, such individuals shall be eligible for reappointment as Full Graduate Faculty.

4. Graduate Instructor: Must have earned at least a master’s degree. Graduate instructors may teach graduate-level (500 and 600) courses but may not advise graduate students, or serve on graduate student committees.

5. Ex officio members: The CAO of the Graduate School may appoint appropriate persons holding administrative positions as ex officio Graduate Faculty members. The Graduate School's administrative leadership and all department chairpersons and graduate coordinators shall be ex officio members unless holding a different category of graduate faculty appointment.
III. GUIDELINES FOR EVALUATING TEACHING, SCHOLARSHIP AND SERVICE

The Guidelines and Criteria for Evaluating Teaching, Scholarship, and Service are not intended to be exhaustive regarding the ways in which faculty may demonstrate development, quality, and achievement. Every candidate for faculty appointment, reappointment, and/or promotion is reviewed in the context of the academic position. The criteria are intended to provide broad guidelines to evaluate faculty members’ contributions to the tripartite mission of the University. The faculty of the School of Nursing have incorporated the work of Boyer (1990) in formulating these criteria, integrating teaching, discovery, application, and integration into the language at each rank.

A. Teaching.

A major responsibility for faculty in the School of Nursing is teaching, which may include classroom, clinical, laboratory, and continuing education settings. The quality of teaching is determined through evaluation of the candidate’s command of an area and his/her ability to convey knowledge. The standard is excellence. The PRC considers that evaluation of teaching is reflected in peer and student evaluations as well as in the candidate’s description and documentation of teaching. Faculty preparing review documents are asked to include the following supporting materials for teaching:

a. Narrative summary reflecting on your teaching from the last review period
b. List of courses taught by semester
c. Current course syllabi
d. Computer printouts of student evaluations for each course
e. Summary of computer printout in both chart form and as a written narrative, including the number of students per course (include item #13 and #22, and at least three other items in the summary)
f. A sample of written comments from signed student evaluations
g. Documentation of second form of evaluation for each course (e.g. narrative by students, mid-semester evaluation, observation by other faculty)

Guidelines for Evaluating Teaching (by rank)

The criteria for evaluating teaching vary with the career stage of each faculty member. The peer review committee may request that a candidate for tenure be evaluated in the classroom by a tenured faculty. In this case the candidate for tenure may select the tenured faculty for the classroom visit/s. The faculty who made the classroom visit/s will be expected to write a report of the classroom visit/s to be placed in the candidates tenure file. Online courses will be evaluated in an appropriate manner.
1. Nontenure track faculty will:
   a. Convey knowledge of the subject areas inclusive of current literature.
   b. Teach and update course content using effective methods, as appropriate to the teaching assignment.
   c. Work effectively as a team member with faculty and other instructors.
   d. Attend course orientations, course coordinator meetings, and regular faculty meetings.
   e. Select appropriate student assignments within the educational setting.
   f. Create appropriate student assessment activities or exam items.
   g. Maintain effective communication with the program coordinator and/or course coordinator.
   h. Advise students at the undergraduate level demonstrating knowledge of curriculum requirements and university resources.
   i. Demonstrate respect for students in the teaching-learning relationship and serve as student advocate as appropriate.
   j. Serve as a role model of professionalism for students.
   k. Maintain professional competence
   l. Engage students effectively in the educational setting.
   m. Collaborate with students, colleagues, and patients/clients/families.

2. Faculty at the rank of Assistant Professor will demonstrate a higher level of teaching effectiveness through the addition of some although not necessarily all of the following:
   a. Convey knowledge of the subject area inclusive of classic literature
   b. Design, teach, and evaluate learning of course content using appropriate educational methods
   c. Develop course syllabi that reflect currency in topics
   d. Coordinate course, didactic, and/or lab for effective learning
   e. Supervise adjunct faculty
   f. Advise students at the graduate level, demonstrating knowledge of curriculum requirements and university resources as needed.
   g. Coordinate and collaborate with clinical agencies
   h. Apply creative teaching strategies

3. Faculty at the rank of Associate Professor will demonstrate a higher level of teaching effectiveness through the addition of some although not necessarily all of the following:
   a. Mastery of the subject area in depth and breadth
   b. Success as an educator in the implementation of a variety of teaching strategies
   c. Participation, as appropriate, in course development, administration, evaluation, and curriculum planning.

Updated 10/26/2006
d. Integration of theory and practice

e. Evaluation of cognitive, affective, and psychomotor learning

f. Engagement of students outside the classroom in scholarly endeavors that encourage critical thinking, higher order reasoning, and problem solving

g. Mentorship of junior faculty in the academic role

h. Conduct of classroom or instructional data analysis on regular or special educational instructional strategies or curricula

4. Faculty at the rank of Professor will demonstrate a higher level of excellence in teaching through the addition of some although not necessarily all of the following:

a. Mentorship of other faculty members

b. Evaluation of colleagues’ teaching

c. Expertise in a variety of teaching modes

d. Development of theory and/or curriculum innovation

e. Advancement of the discipline of nursing through leadership in education

f. Recognition as an expert in a subject area

B. Scholarship

The quality of scholarship is determined through appraisal of the candidate’s involvement in the investigation of knowledge. This may be knowledge within the domain of the discipline of nursing as well as knowledge relevant to nursing which is outside the discipline, including but not limited to physiological, psychological, spiritual, philosophical, sociological, historical, organizational, or epidemiological phenomena. Scholarship is also demonstrated by involvement in developing standards for education, practice, and regulation. The PRC is responsible for evaluating both the significance and the quality of work. Opinions of experts outside the School of Nursing are valued in the peer review process. Scholarship may include roles in leadership and clinical practice, consistent with the mission of the School of Nursing.

Guidelines for Evaluating Scholarship

Evidence of excellence includes, for example, the preparation and submission of training, equipment, and/or research grants; participation in ongoing research as a principle investigator, member of a research team, advisor or consultant; supervision of graduate scholarly projects or theses, or significant curriculum revision in response to the demands of the practice and changing health care systems. Further evidence of excellence in scholarship includes development and/or refinement of concepts, theories, and paradigms relevant for nursing. Evidence includes presentation and/or publication of research and scholarly work, as well as application of such scholarship to improve education and/or health care. Faculty preparing review documents are asked to include the following supporting materials for scholarship, as appropriate:

a. Narrative summary describing scholarship

b. List of all manuscripts for that review time period; indicate the status of each (i.e.
published, accepted, sent, in progress)

c. Copies of all manuscripts in progress and those published since the last review, with
narrative explanation

d. Brief description of your current fields of scholarly work

e. List of refereed presentations, indicating the name and level (local, state, etc.) of the
sponsoring organization and including an abstract where possible

f. List of professional organization memberships and activities, including office held
and committee memberships

g. List of national/regional meetings attended and sessions chaired

h. List of service in reviewing papers submitted for publication, grant proposals, and or
service as a member of a review panel

i. Documentation of research/training grants

j. List of media and/or technological innovation(s)

1. Faculty at the rank of Assistant Professor will demonstrate some although not necessarily
all of the following:

a. Utilization of research in practice

b. Dissemination of research findings within the classroom setting

c. Invitation as a guest lecturer

d. Command of literature in an area of study

e. Development of a plan for the accomplishment of scholarly work

f. Development in an area of scholarly work through involvement in research

g. Development of new research based on previous findings

h. Dissemination of research findings through presentation at professional meetings

2. Faculty at the rank of Associate Professor will demonstrate a higher level of
professional scholarship through the addition of some although not necessarily all of the
following:

a. Publication in non-refereed journals

b. Publication in refereed venues

c. Presentation of scholarly work or creative achievement in a professional
venue

d. Mastery of literature in an area of study

e. Demonstration of expertise in one's field

f. Supervision of graduate theses and/or scholarly projects.

g. Participation on doctoral committees

h. Creation of curricula to reflect and transform the evolving health care
system

i. Participation in the development of health care policy and other regulation
affecting the profession

j. Analyses of research with application to nursing education

k. Reviewer or editor of professional journal

Updated 10/26/2006
l. Honoree or recipient of award for professional distinction
m. Revision of curricula based on knowledge development
n. Development and analysis of concepts
o. Advancement of nursing theory
p. Grant-writing
q. Management of ongoing research
r. Participation in developing standards for nursing education and practice

3. Faculty at the rank of Professor will demonstrate a higher level of professional scholarship through the addition of some although not necessarily all of the following:
   a. Recognition as an expert in one's field
   b. Dissemination of scholarly work at national/international levels
   c. Leadership on doctoral committees
   d. Leadership in the area of regulation of health care policy and/or regulation of the profession
   e. Providing mentoring and guidance to the profession, through educational leadership
   f. Citation rate of published work
   g. Leadership in developing standards for nursing education and practice
   h. Leadership in the promotion of scholarship in nursing education or practice

C. Service

Commitment to service includes engagement in the health of the people of Maine, reflecting a distinct feature of the Land Grant Mission of the University of Maine. As the largest professional school in the Flagship campus, the School of Nursing is dedicated to helping to create an educated and engaged nursing workforce, making better health care accessible to the citizens of Maine. Since the University of Maine is a land-grant institution, the faculty as a whole must respond to requests for service when they arise and should develop appropriate public service activities, as they perceive a need for them.

Professional service as described by Elman and Smock (1985) includes three categories of activities. The first is service rendered to professional associations and organizations, such as service on committees or as an officer of a professional society. This type of service is within the faculty member's discipline, and therefore, clearly merits university support and recognition.

The second category is consulting, or those professional services for which the faculty member is compensated at the "market" rate. Consulting is viewed as employment in which faculty engage for extra compensation. It is additional work that is conducted by faculty, over and above the work required to fulfill the faculty member's responsibility to the University. Consulting enhances the visibility of the faculty member and the University, and is acknowledged for its contribution to the mission of the University.

Updated 10/26/2006
The third category of professional service includes the professional services that faculty perform for no fee, a minimal fee, or on a cost-recovery only basis, i.e. public service. Such service takes a variety of forms, ranging from conducting workshops and in-service nursing education, to providing expert advice and counsel to individuals and agencies. Faculty are expected to make themselves actively available for service activities (paid and unpaid) and to carry such activities through with diligence and according to the highest ethical and professional standard.

A fourth and final category of service has been added for the discipline of nursing, i.e. service to the community as an expert nurse. Expertise in practice is often indicated by certification in a specialty area in nursing. Certification may depend upon a minimum number of practice hours. Service to the community as an expert in one’s field, whether for compensation or not, brings a broader dimension of practice expertise to teaching and scholarship. Thus, maintenance of professional certification and continuation of practice are not only indicators of service, but venues for achieving excellence in teaching and scholarship. Faculty in the clinical setting influence practice and policy by sharing their expertise with health care practitioners and administrators.

1. Faculty at the rank of Assistant Professor will demonstrate:
   a. Participation in School of Nursing committee(s)
   b. Participation in local or state professional organizations
   c. Participation in health related community activities

2. Faculty at the rank of Associate Professor will demonstrate a higher level of professional service through the addition of some although not necessarily all of the following:
   a. Leadership in School of Nursing committees
   b. Participation in University and/or College committees
   c. Leadership in local professional organizations
   d. Involvement in the community that integrates scholarship and service
   e. Participation in activities promoting health care at local, regional or state levels
   f. Membership in professional organizations at the national level
   g. Leadership in health related community activities
   h. Invited juror for a professional activity

3. Faculty at the rank of Professor will demonstrate a higher level of professional service through the addition of some although not necessarily all of the following:
   a. Leadership in College or University Committees
   b. Leadership in national professional organizations, e.g. member or leader of an accreditation team
   c. Acknowledgment as an expert within an area of scholarship that results in

Updated 10/26/2006
service (e.g. testimony as an expert witness)
d. Leadership in creating ways to increase access to health care through education, outreach, or service
e. Leadership in the development of programs that increase opportunities for mentorship, excellence in nursing, or engagement with broader communities
f. Innovative integration of teaching, scholarship and service.
g. Advisement related to health policy at state, national, or international levels
h. Recipient of state or national leadership or service award
i. Consultation and/or expert testimony that affects the legislative and regulatory process
j. Reappointment or reelection to a leadership position at the state or national level

Revised Summer 06

Updated 10/26/2006
Appendix A
Excerpt from Bylaws
University of Maine School of Nursing
Peer Review Committee

A. Purpose:

To provide a comprehensive evaluation of Faculty performance in the areas of teaching, scholarship, and public service within the context of the University of Maine and School of Nursing criteria. The resultant recommendations furnish a foundation for administrative decisions regarding review, reappointment, promotion, tenure, and merit salary increases.

B. Function:

1. To provide Faculty with a focus toward successful fulfillment of the criteria for reappointment, promotion, and tenure, and for continued development in the Faculty role.

2. To offer Faculty support and guidance in the preparation of materials for submission to the Committee, and in the revision of materials which will be forwarded to the Director and others in the University of Maine Faculty evaluation process.

3. To formulate, based on the School of Nursing tenure and promotion criteria, recommendations for Faculty members being considered for internal review, reappointment, promotion, and tenure.

4. To formulate recommendations for discretionary salary increases according to criteria established by the Dean.

C. Composition:

1. The Committee is composed of five (5) full-time Faculty members.

2. The majority of the five slots are reserved for Tenured Faculty

3. Committee members are elected for two (2) year terms.

4. All members of the committee and Faculty who participate in the election of committee members are members of the bargaining unit represented by the Associated Faculties of the University of Maine.

Updated 10/26/2006
5. Committee members are elected in the spring. A Chairperson is elected by Committee members after the Committee is selected.

6. Faculty who are not members of the Committee may submit to the Committee written materials regarding a candidate scheduled for review. These materials must be submitted one week prior to the scheduled review to the candidate and Chairperson of the Committee. This written commentary is presented to the Committee for consideration; it is not entered in the candidate's personnel file.

7. Faculty who are not members of the Committee may attend Committee meetings, and participate when recognized by the chairperson.
Appendix B: Reappointment/Non-Reappointment of AFUM Unit Faculty
Excerpts from Human Resources website: hrweb@umit.maine.edu

A. Faculty Reappointment Cycle

Guidelines for the reappointment/non-reappointment of AFUM unit faculty are available at http://www.umaine.edu/hr/relations/faculty/appoint.html. These guidelines include the contractual and administrative deadlines for official notice of unit faculty who do not hold tenure or continuing contracts as well as other procedures provided by the collective bargaining agreement.

Faculty should be evaluated prior to consideration for reappointment. The faculty member must have an opportunity to meet with the committee, upon request, and must also have a one week period in which to submit a written response to the Committee’s recommendation. The faculty member’s response must then go forward with the peer committee’s recommendation to the next step. The agreement defines the limited circumstances under which additional material may be added to the recommendation packet. Recommendations for reappointment at each administrative step should indicate that a copy was sent to the faculty member and a copy placed in the faculty member’s official personnel file.

B. Faculty Reappointment Cycle General Information

The AFUM agreement bases the reappointment cycle (notice of reappointment/non-reappointment) on the years of service in a probationary (tenure track or continuing contract eligible) appointment. The reappointment cycle for soft money faculty or instructors/lecturers with on-going (non fixed-length) appointments is based on the number of years of regular University service unless otherwise noted in the faculty member’s personnel file.

How long may a department recommend for a reappointment term?

- Following the first year, based on performance, tenure track/continuing contract eligible faculty may be reappointed for a one year term. Second or third and subsequent year faculty may be reappointed for a one or two year term; however, the reappointment of a 2nd or 3rd and subsequent year faculty member, which is not for a terminal year, will guarantee employment for a year beyond the stated term.
- First year faculty are not normally reappointed for terms greater than one year.
- Ongoing lecturers/instructors may be reappointed for up to three years.
- Soft money faculty may be reappointed for a duration which extends beyond the time for which funding is currently available. The recommendation should clearly distinguish between the term of the reappointment and the duration of funding that is currently available for the position.

Updated 10/26/2006
- Tenure track faculty should not be reappointed beyond the year of mandatory tenure/continuing contract consideration. For example, a faculty member who is to be considered for tenure/continuing contract in 2006-07 should not be reappointed beyond the end of that academic/fiscal year.
- The recommendation concerning reappointment should be to reappoint for a specific term or to reappoint for a terminal year. The recommendation is for the coming year, beginning July 1 or September 1, although reappointment of 2nd or 3rd and subsequent year faculty, which is not for a terminal year, will also guarantee employment for the subsequent year.

Current information about deadline and issues specific to a particular year can be found on the Human Resources website and all faculty members are encouraged to consult updated information periodically. Faculty and Peer Committee deadlines will change yearly, so current deadlines must be confirmed with dates posted on the HR website.

C. Peer Committee

The Chairperson (Dean or Director in units without Chairpersons) must instruct the Peer committee as to its responsibilities following the enclosed time table.

These instructions to the Peer Committee should include the following points:
- (in writing) the names of faculty who must be considered,
- the date by which the committee must make a recommendation,
- the faculty member must have an opportunity to meet with and address the committee prior to preparation of the written recommendation,
- the committee has access to the personnel file of the faculty member being considered,
- the committee should evaluate the faculty member before considering reappointment. Refer to guidelines on faculty evaluation.

No administrator to whom a Peer Committee makes recommendations can be a voting member of that committee. The Chairperson should not chair the Peer Committee, nor act as its secretary. It is, however, important that the Chairperson convene the Committee and be present during the Committee=s deliberations.

All reports of the Peer Committee must be signed by all members participating in the report. The names of all Peer Committee members must be listed and a tally of the vote must be recorded.

The written Peer Committee recommendation is forwarded to the Chairperson and to the faculty member. The faculty member has an opportunity to respond, in writing, within one week of receipt of the Peer Committee recommendation by the Chairperson. (The Chairperson should make sure that the faculty member receives the Peer Committee recommendation and is aware of the right to respond to that recommendation in writing.)

Updated 10/26/2006
Once the faculty member has had an opportunity to respond to the Peer Committee recommendation, materials may be added to the file being reviewed for reappointment consideration only in very limited circumstances. Please call Catherine Pease or John Kidder at x1-1581 if you have questions concerning additional file materials.

D. Unit members must apply in writing in order to be considered for tenure or continuing contract prior to the sixth year of service or for promotion. Unit members who are in tenure track or continuing contract slots and are in their sixth year of service must be considered unless they indicate in writing their intent to resign at the end of the current appointment or they have been granted an extension to their probationary period by the Provost.

Chairpersons (deans or directors) may convene the Peer Committee on or before September 15 to identify unit members who should be encouraged to apply for tenure, continuing contract or promotion.

Chairpersons (dean or directors) should, as soon as possible, distribute the formats and instructions concerning the application for tenure, promotion, or continuing contract to sixth year unit members who must be considered and to other unit members who formally request consideration. These unit members should also be informed of the deadline for submission of materials to the Peer Committee.

September 25 is the deadline for the chairperson (dean or director) to instruct the Peer Committee as to its responsibilities regarding promotion/tenure/continuing contract recommendations. The chairperson should inform the Committee in writing of the names of unit members in their sixth year of service who must be considered for tenure, of the names of other faculty members who have requested consideration for promotion/tenure/continuing contract, and of the date (November 10) by which the Committee’s recommendations must be submitted.

The chairperson should also inform the Committee that the unit member must have an opportunity to meet with and address the Committee and should give the Committee access to the personnel file. If a Peer Committee has been properly instructed, failure of the committee to comply with its responsibilities is not grievable. The department chairperson should not chair the Peer Committee nor act as its secretary. The department chairperson should convene the Committee and be present during its deliberations, BUT MAY NOT BE A VOTING MEMBER OF THE COMMITTEE. ALL REPORTS OF THE PEER COMMITTEE MUST BE SIGNED BY ALL MEMBERS PARTICIPATING IN THE REPORT. THE NAMES OF ALL PEER COMMITTEE MEMBERS MUST BE LISTED AND A TALLY OF THE VOTE MUST BE RECORDED.
E. Procedure

The department chairperson is responsible for convening the peer evaluation committee. The chairperson may be an observer of the deliberations of the committee evaluation. The chairperson will provide the peer committee access to the personnel file, including student evaluation results. The peer committee or the chairperson of the peer committee must meet with the faculty member who is being evaluated for a frank discussion of the faculty member's performance, if such a meeting is requested by the faculty member. This meeting should occur before the peer committee puts its evaluation in writing. Once the evaluation is in writing, the faculty member has one week in which to comment, also in writing, if he/she so desires. The response must be attached to the evaluation and both placed in the personnel file.

F. Suggestions to Faculty for Preparing an Effective Application

(5) S The promotion and tenure committee has access to your personnel file. Review it to make sure it is complete and up-to-date.

(6) S Be concise and observe all page limits noted in the attached application format. Longer applications are NOT more impressive. Evaluators read many applications and appreciate direct, well-focused writing.

(7) S Check your writing for grammar and punctuation. Simple errors make a very poor impression on readers. It is good practice to lay work aside for a couple of days before final proofing.

(8) S Do not compare yourself to other faculty members. You are evaluated against University standards and the specific criteria in your unit's promotion and tenure guidelines, not against other faculty members.

(9) S Follow the format exactly, using all the headings, even if the heading is not applicable, in which case, includes the heading and follows it with the phrase “Not Applicable”. Eliminate from the document all wording printed in Italics in the attached sample document. Wording in Italics is explanatory and not part of the format.

(10) S University of Maine System policy limits the period covered by documentation of achievement in the BODY of the application for tenure to the past five years. If you received prior credit toward tenure or are requesting early tenure consideration, material falling within the five year limit, even that which occurred prior to your appointment at UMaine, may be included in your document. Applications not adhering to this five year limitation will be returned to you for correction. Accomplishments prior to
that period may be included in an appendix. Evaluators in your unit, college, and the University of Maine's central administration will review such materials, but appendices will be removed from the application when it is forwarded to the Board of Trustees. In general, please keep appendices to a minimum.
AGENDA ITEM SUMMARY

NAME OF ITEM: Tenure at Time of Hire, Professor in the Department of English, UM

INITIATED BY: David M. MacMahon, Chair

BOARD INFORMATION: BOARD ACTION: X

BOARD POLICY:

Board Policy 310: Tenure

UNIFIED ACCREDITATION CONNECTION:

BACKGROUND:

The University of Maine has requested that Dr. Megan Walsh be awarded tenure at the rank of Professor in the Department of English within the College of Liberal Arts and Sciences at the University of Maine, effective December 19, 2022, in accordance with Board of Trustee Policy 310. Dr. Walsh’s credentials have been reviewed by the faculty of the Department of English at the University of Maine and received their full support.

TEXT OF PROPOSED RESOLUTION:

That the Academic and Student Affairs Committee forwards this item to the May 21-22, 2023 Board of Trustees meeting for approval of the following resolution:

That the Board of Trustees accepts the recommendation of the Academic & Student Affairs Committee and approves tenure at time of hire, Professor in the Department of English at the University of Maine with tenure to be effective December 19, 2022.
Date: April 12, 2023

To: Dannel Malloy, Chancellor
   University of Maine System

From: Jeffrey St. John, Interim VCAA
       The University of Maine System (UMS)

Regarding: Tenure at time of Hire for Dr. Megan Walsh at the University of Maine

President Joan Ferrini-Mundy, Provost John Volin, and appropriate University of Maine (UM) administrators are recommending and requesting consideration of immediate tenure at the rank of full professor in the Department of English in the College of Liberal Arts and Sciences for Dr. Megan Walsh effective December 19, 2022.

Dr. Walsh was selected through a rigorous national search process to be Dean and Campus Director of the University of Maine at Machias. She has an impressive record of teaching, scholarship and public service.

After reviewing Dr. Walsh’s credentials, I also concur with the recommendation of tenure at the rank of professor. Dr. Walsh’s academic achievements demonstrate that she meets the standards for tenure at the University of Maine and the scholarly expectations of the Professor rank.

Chancellor Dannel Malloy

4.12.23

Date
April 10, 2023

Dannel Malloy
Chancellor
University of Maine System
267 Estabrooke Hall
Campus

Dear Chancellor Malloy:

In accordance with Board of Trustee policy concerning appointments, I am pleased to forward for your approval and transmittal to the Board of Trustees my strong recommendation that Dr. Megan Walsh be granted tenure as a Professor in the Department of English in the College of Liberal Arts and Sciences, effective December 19, 2022. The granting of tenure coincides with Dr. Walsh’s appointment as Dean and Campus Director at the University of Maine at Machias, also effective December 19, 2022.

It is my understanding that granting of tenure for a senior administrator requires approval of an exception to BOT policy (Policy Manual Section 310: Tenure). According to BOT policy, “Senior administrators shall not be awarded tenure as part of their administration contracts. However, the Trustees will consider, on an exceptional basis, a nomination to tenure for an academic dean, when presented under these conditions: 1. the nomination will have been accepted by an appropriate academic department and accorded faculty rank, at the time of appointment as academic dean; 2. the nomination will have been duly evaluated through the campus tenure process.”

Dr. Walsh’s appointment as Professor with immediate tenure has the full support of the peer committee of the Department of English as well as Dr. Sarah Harlan-Haughey, Acting Chair of the Department English, and Dr. Emily Haddad, Dean of the College of Liberal Arts and Sciences. A recommendation supporting immediate tenure has also been reviewed and approved by Executive Vice President for Academic Affairs and Provost John Volin. Copies of these recommendations, along with Dr. Walsh’s curriculum vitae and the Department of English Guidelines for Reappointment, Promotion, Tenure, Annual Evaluation, and Post-Tenure Review are enclosed for your information.

Dr. Walsh progressed in her academic career serving as Director of the Honors Program; Acting Dean, School of Arts and Sciences; Director of the B.A. program in Literacy Publishing and Editing; Chair of the Department of English; and Professor of English with tenure at St. Bonaventure University. Dr. Walsh has a strong record of scholarship, teaching, and service that fully meets the requirements for tenure at the rank of Professor in the Department of English in the College of Liberal Arts and Sciences at the University of Maine.

Joan Ferrini-Mundy
President
University of Maine
200 Alumni Hall
Campus

Dear President Ferrini-Mundy:

Dr. Megan Walsh has been hired as the Dean and Campus Director at the University of Maine at Machias. As is standard with most senior level administrative appointments, I am also recommending that Dr. Walsh be granted immediate tenure at the rank of Professor effective at the date of her appointment as Dean and Campus Director on December 19, 2022. Granting of tenure for a senior administrator requires approval of an exception to BOT policy (Policy Manual Section 310: Tenure). According to this policy, [...] the Trustees will consider, on an exceptional basis, a nomination to tenure for an academic dean, when presented under these conditions: 1. the nominee will have been accepted by an appropriate academic department and accorded faculty rank, at the time of appointment as academic dean; 2. the nomination will have been duly evaluated through the campus tenure process.]

Dr. Walsh’s credentials have been reviewed by the peer committee of the Department of English at the University of Maine, as well as by Dr. Sarah Harlan-Haughey, Acting Chair of the Department of English, and Dr. Emily Haddad, Dean of the College of Liberal Arts and Sciences, and they all agree that she meets the criteria for professor with tenure as outlined in the Department of English Guidelines for Reappointment, Promotion, Tenure, Annual Evaluation, and Post-Tenure Review. Dr. Walsh earned a Ph.D. in English in 2010 and M.A. in English in 2006 from Temple University. She previously served in the roles of Director of the Honors Program; Acting Dean, School of Arts and Sciences; Director of the B.A. program in Literacy Publishing and Editing; Chair of the Department of English; and Professor of English at St. Bonaventure University. Dr. Walsh’s scholarly accomplishments include a monograph, The Portrait and the Book: Illustration and Literacy Culture in Early America (University of Iowa Press, 2017); a co-edited edition of Frank Webb’s 1857 novel The Garies and Their Friends (Broadview Press, 2016); and ten articles and book chapters on topics in 18th- and 19th-century American literature and culture. As a faculty member at St. Bonaventure University, Dr. Walsh’s contributions spanned the American literature curriculum. She was a highly engaged faculty member, serving on numerous search committees and committees on general education, program evaluation,
Dr. Megan Walsh Tenure Recommendation
Page 2

curriculum development, technology, accreditation, and faculty awards. She has served the profession through manuscript review and service on review panels and selection committees.

A copy of Dr. Walsh’s curriculum vitae is enclosed for your review. I fully support her appointment as professor with the award of tenure effective December 19, 2022.

Sincerely,

John C. Volin
Executive Vice President for Academic Affairs and Provost

Dr. John Volin
Executive Vice President for Academic Affairs & Provost
Alumni Hall 201
University of Maine

Dear Provost Volin,

I am very pleased to confirm the recommendation of the peer committee and chair of the Department of English that Megan Walsh, Dean and Campus Director at the University of Maine at Machias, be tenured in the University of Maine Department of English at the rank of professor.

Dr. Walsh joined the UMaine community this year. She previously held a series of administrative positions at St. Bonaventure University, where she was tenured in 2016 and promoted to Professor of English in 2018. Following three years as chair of the Department of English, she served a year as acting dean of the School of Arts and Sciences. In her last two years at St. Bonaventure, she twice directed the Honors Program and also led an interdisciplinary BA program in literary publishing and editing. This is the record of a versatile and trusted colleague.

Dr. Walsh’s scholarly accomplishments include a monograph, The Portrait and the Book: Illustration and Literary Culture in Early America (Univ. of Iowa Press, 2017); a co-edited edition of Frank Webb’s 1857 novel The Garies and Their Friends (Broadview Press, 2016); and ten articles and book chapters on topics in 18th- and 19th-century American literature and culture. The many competitive and prestigious fellowships that she has held or been offered for scholarly research provide further evidence of the quality and importance of her work.

As a teacher, Dr. Walsh’s contributions span the American literature curriculum, including survey courses, specialized courses in literary studies, and topics courses. She has also taught composition and a methods course. Her faculty service record at St. Bonaventure shows that she was a highly engaged and influential faculty member there. In addition to numerous search committees, her areas of involvement included general education, program evaluation, curriculum development, technology, accreditation, and faculty awards. She served the profession through manuscript review and service on review panels and selection committees, among other activities.

The UMaine English Department’s criteria for the rank of professor stipulate that the candidate “must demonstrate excellence in intellectual work and academic/professional citizenship.” Both intellectual work and citizenship may be practiced across teaching, research, and service. Service in the category of citizenship includes “contributions to the administrative work of the department and the university.” In addition, the candidate for promotion “should have established a national reputation, as validated by experts in the field.” As the examples above show, Dr. Walsh has fully met each of these criteria. Writing as department chair, Sarah Harlan-Haughey concludes that Dr. Walsh’s “career to this point seems an
exemplary blend of dedicated scholarship, ethical outreach and leadership, and dedicated administrative work." The peer committee calls her "a welcome addition to our UM/UMM community." I fully agree.

It has been my privilege to work with Dr. Walsh over the past several months. She is insightful and approaches problems with creativity and good humor. I respect her commitment to academic values and to the wellbeing of students. I am delighted to recommend that she be awarded tenure at the rank of professor in the Department of English at the University of Maine. Thank you for your consideration.

Sincerely,

Emily A. Haddad
Dean

Emily Haddad
Dean, CLAS

RE: Dean Megan Walsh

Dear Dean Haddad,

Please accept this letter in support of Dean Megan Walsh’s appointment with tenure to the Department of English at the rank of Professor. Dr. Walsh serves as the Dean and Campus Director at the University of Maine at Machias. She has held this position since December 19, 2022. I agree with the Peer Committee’s evaluation of Mary’s work at the University of St. Bonaventure and their positive recommendation for her appointment to our department at the same rank she held there: Professor.

Though we as a department have not interacted with Dr. Walsh personally at the time of my writing, her career to this point seems an exemplary blend of dedicated scholarship, ethical outreach and leadership, and dedicated administrative work. Her field is Early American Literature, a gap for our department, with an emphasis on book history—if she were to reenter the teaching pool, we would be able to find classes for her. And her publication record is respectable.

Already primed to think interdisciplinarily in her own research, Walsh has become someone who can advocate for many different constituencies and stakeholders on her campus, and has the skill necessary to maintain and enhance UMM’s reputation for excellent instruction, student-focused learning opportunities, and true community engagement. We wish her luck as she learns the ropes at Machias, and we look forward to collaborating with her as we continue to bring the two campuses together.

Dr. Walsh is a thoughtful scholar and an engaged leader. I second the peer committee in recommending her appointment with tenure to Professor of English without reservation.

Sincerely,

Dr. Sarah Harlan-Haughey
Interim Chair, Department of English

CC: Megan Walsh; personnel file

Sarah Harlan-Haughey
Interim Chair, Department of English

RE: Hiring of Dean Megan Walsh

Dear Professor Harlan-Haughey,

This is the Peer Committee of English’s letter in support of Megan Walsh, the Dean and Campus director at the University of Maine at Machias, who was hired into the UMS at the rank of Professor, which was her rank at her former institution, St. Bonaventure University. We support her appointment and tenure at the rank of Professor in the Department of English. We base this recommendation on our evaluation of her Curriculum Vitae.

Dr. Walsh was named Dean and Campus Director of the University of Maine at Machias, effective Dec. 19, and is a member of the University of Maine President’s Cabinet. She has no direct responsibility to the English Department at the University of Maine at this time.

In her work as a professor of English and as an administrator, Dr. Walsh has justly earned the rank of Professor at St. Bonaventure, and we support her appointment at that same rank here for the reasons listed below. She has authored two peer-reviewed books—one a monograph and the other an edited volume—and ten articles. Her interdisciplinary work on early American print culture and illustration is exciting and important to her subfield. She has also clearly thrived in multiple leadership positions, from Chair, to Acting Dean of the School of Arts and Sciences, to Director of the honors program. We hope her vision and dedication to the liberal arts and to providing an excellent education for all will also help her thrive at her new post. She is a welcome addition to our UM/UMM community.
The Peer committee unanimously recommends that Megan Walsh be appointed to the Department of English at the rank of Professor.

LEADERSHIP EXPERIENCE, UNIVERSITY OF MAINE AT MACHIAS
Dean and Campus Director
Dec. 2022-present

- Responsibilities
  - Represent UMM as the branch campus of UMaine and as one of the seven UMaine System universities
  - Oversee approximately $7.5 million annual operating budget, not including UMaine Foundation endowments; 300+ acre campus; buildings valued at approximately $28 million
  - Lead the final implementation of the 2021 Regional Campus Task Force Report, including unifying undergraduate catalog (for 2023-2024), general education core curriculum (for 2024-2025), and academic and administrative budgets (for FY24)
  - Communicate regularly with UMM Board of Visitors, major donors, and regional leaders
  - Manage administrative oversight for faculty grants and legislative earmark funds
• Initiatives and Accomplishments
  o Hosted Maine Development Fund Legislative “Bus Tour” for approximately 75 Maine State legislators
  o Implementing new external program review process for all UMM academic programs; B.A. Psychology reviewed Sp23, B.S. Biology and B.S. Marine Biology reviewed 23-24
  o With Executive Dean of the Maine School of Business, developing a new program in Small Business Management with a required Machias residential semester
  o Overseeing allocation of $1.8 million existing bond money for capital improvements; projects include Black Bear student lounge, allergen-free student kitchen, administration building envelope repair, and stormwater management system
  o With UMaine Police, establishing new on-campus Emergency Operations Center; cost estimate for FY24 is $92,000
  o Leading request for $1.5 million congressional earmark for Reynolds Murdock Fitness and Aquatics Center at UMM; earmark to be sponsored by Sen. Collins and Sen. King
  o With UMaine VP for Finance, conducting audit of all UMM expenses and revenue in order to achieve zero-based budget; identified $241,000 in potential reductions for FY24

**LEADERSHIP EXPERIENCE, ST. BONAVENTURE UNIVERSITY**

**Director, Honors Program**

* Responsibilities
  o With school deans, oversaw staffing of Honors courses
  o Organized events including annual first-year reception with the president, Spring Honors symposium, and workshops for students
  o Managed Honors budget
  o Coordinated student project approval and curriculum changes with faculty Honors Council members

* Initiatives and Accomplishments
  o Participated in two National Collegiate Honors Council institutes: “Anti-racism in Honors Institute” (online, June 2021) and “Admissions and Recruitment Institute” (online, Oct. 2021)
  o Worked with faculty to add five new HON 299: Special Topics courses (“Diversity and the Courts,” “The Art of Science Communication,” “Race and Policing,” “Queer Theory,” and “Media and Mental Health”)
  o Eliminated SAT/ACT requirement for program admission
  o Led Honors Council committee in developing an evaluation rubric for capstone projects
  o Reallocated funds and received internal grant to provide stipends for faculty serving as senior project advisors
  o Involved upper-level students in events for prospective and first-year students

**Acting Dean, School of Arts and Sciences**

* Responsibilities
  o Served approximately 630 undergraduate majors in nearly 40 programs, including all general education core courses
  o Managed 80 full-time faculty members, additional 20-30 adjuncts/semester, and two full-time staff members
  o Oversaw approximately $6 million budget, including annual operating expenses, grants, and endowments
Conducted regular program review; 2021-2022 programs included Biology, Behavioral Neuroscience, Environmental Studies, History, and Psychology

Initiatives and Accomplishments

- Oversaw beginning of $11.5 million ($2.875 million HECAP grant-funded) renovation of main humanities and social sciences building; relocated 30 full-time faculty and adjunct offices
- Initiated three institutional grant applications, all successful:
  - $125,000 George I. Alden Trust Grant for computer science and cybersecurity infrastructure project (submitted Feb. 2022; awarded July 2022)
  - $10,000 Anna C. Manley Charitable Trust grant for cybersecurity classroom improvement (submitted May 2022; awarded July 2022)
  - $150,000 NEH Initiatives Grant application for Seneca (Onödowa’ga:) general education learning module (submitted April 2022; awarded Dec. 2022)
- Held administrative oversight for two institutional grants:
  - History and Education faculty members awarded $34,924 NEH Humanities Connections Planning Grant for “Collaborative Pathways for Inquiry Based Education: Piloting a Humanities Education Partnership” (submitted Sept. 2021; awarded April 2022)
  - Chemistry faculty member awarded $544,000 NSF CAREER grant (submitted under previous dean July 2021; awarded Jan. 2022)
- Steward gifts, including new $82,500 gift sponsored in part by the Olean Business Development Corp. for faculty-community innovation projects
- With dean for graduate studies and Keypath Education, began development of online M.S.W. program
- Worked with Mathematics faculty member to build B.S. in Data Science program
- Implemented faculty-developed rubric for all full-time faculty performance reviews
- Held diversity, equity, and inclusion professional development events, including meetings with all faculty search committees in A&S and a workshop on DEI and faculty advising
- Worked with HR to integrate new online hiring and onboarding system

Director, B.A. Program in Literary Publishing and Editing

**Responsibilities**

- Developed admissions materials for prospective students
- Worked with current chair of the department of English to schedule courses
- Identified internship opportunities for current students
- Advised all majors in the program

**Initiatives and Accomplishments**

- Coordinated with admissions to contact individual applicants
- Invited alumni speaker to meet with current students
- For Fall 2022, added new special topics course taught by recent alumni

Chair, Department of English

**Responsibilities**

- Served majors, minors, and, in ENG 101 and ENG 102, all SBU students
- Served 7 full-time faculty members and 4-8 adjunct faculty members
- Staffed and oversaw 30-35 course sections/semester
- Coordinated admissions events, assessment review, and departmental events
- Oversaw English budget, including Panzarella Endowed Professorship budget
* Initiatives and Accomplishments
  - Coordinated revision of curriculum, including updating senior comprehensive exams and aligning course offerings with general education needs
  - Developed and ran annual Panzarella Undergraduate Writing Awards
  - Secured two tenure-track assistant professor hires and one full-time lecturer hire
  - Led departmental refocusing, which included sunsetting B.A. in Professional and Creative Writing and development of new B.A. in Literary Publishing and Editing (approved by NY State Jan. 2021)

**Additional Leadership Experience, St. Bonaventure University**

* President’s University Planning Commission
* Co-chair, Middle States Self-study Committee: Planning, Resources, and Institutional Improvement
* Middle States Accreditation Self-study Steering Committee
* Provost’s Student Retention Committee
* Search Committee for 22nd University President
* Provost’s Academic COVID-19 Taskforce
* Provost’s Academic Advisory Council
* Board of Trustees Academic Affairs Committee
* University Assessment Program Evaluation Committee
* Search Committee for 21st University President

**ACADEMIC PUBLICATIONS**

GUIDELINES FOR REAPPOINTMENT, PROMOTION, TENURE, ANNUAL EVALUATION, and POST-TENURE REVIEW

(revised 2006)

1. Definitions of Faculty Ranks

Instructor

Effective September 1, 1996, the department will not normally make appointments at the rank of Instructor. Individuals who hold this title at the time this policy is initiated may choose to retain that title and will be subject to the same job description as for Lecturer.

Lecturer

Appointments of full-time Lecturers in the Department of English occur when the department has enrollment needs which cannot be met by tenured or tenure track faculty. The minimum requirement for appointment as Lecturer is, normally, an M.A. degree and teaching experience in composition and/or introductory literature courses. The position of full-time Lecturer is normally a full-time teaching position. Lecturers are evaluated annually by the Peer Committee, in consultation with the course coordinators of the courses in which these lecturers are teaching. Lecturers are not eligible for tenure.

Assistant Professor

Appointments to Assistant Professor of English occur when the department has openings in positions necessary for the accomplishment of departmental missions. In selecting candidates for such positions the department chooses individuals whose credentials best qualify them for the duties of those positions. Except in unusual cases (such as specialties for which the applicant pool is very small and the competition with other hiring departments, therefore, very strong; or when, as in the case of a published writer, experience and accomplishment are more important than academic degrees), individuals appointed to this rank must have earned the highest degree traditional to the discipline and/or area of specialization. The department will not recommend tenure at the assistant professor rank.
**Associate Professor**

To be recommended for promotion to Associate Professor of English with tenure, assistant professors must, in the over-all review made no later than the sixth year of their probationary periods, rank high in intellectual work and academic/professional citizenship. Their scholarly or creative work after initial appointment should be significant contributions, as evaluated by experts in the field. Moreover, they must have demonstrated, excellence in accomplishing those duties for which they were hired, and they must show high promise for continued development consistent with the long-range missions of the department.

**Early Tenure**

Faculty members wishing to apply for early tenure and promotion must meet all usual criteria for teaching, research, and service. In addition, they must demonstrate exceptionally broad national and/or international recognition of their work, as substantiated by measures that may include significant national awards, invitations to speak at prestigious conferences or institutions, frequent citation of their work, well-placed favorable reviews, or a publishing record beyond that required of a typical applicant.

**Professor**

Recommendation for promotion from Associate to Professor depends not on length of time in rank but on quality of work. Candidates for Professor must demonstrate excellence in intellectual work and academic/professional citizenship. Through their work, they should have established a national reputation, as validated by experts in the field. Appointment to the rank of Professor from outside the university will not ordinarily be made; in the unusual case when it is, these same criteria will be used.

**II. The Probationary Period**

University policy on the probationary period for faculty on a tenure track is established by the *Agreement of the University of Maine with Associated Faculties of the University of Maine—i.e., the university contract*. This document varies from one contract period to another, and all faculty members should regularly consult the current contract. All faculty, especially probationary faculty, should clearly understand (1) what probationary status is, (2) what the criteria—departmental and university—for promotion to the various ranks are, and (3) what the evaluative procedures used by the department, college, and university are. Very early in the first year, new faculty members should meet with the department chair to discuss these policies. No new member of this department should be reappointed for a second year without knowing the policies and procedures that govern reappointment, promotion, and the granting of tenure.
The probationary period is a time of testing and trying-out; new colleagues must be allowed time to show how they can contribute to the department’s missions in teaching, scholarship, and service. During this time, the department’s Peer Committee evaluates as fully as possible the quality of the faculty member’s progress toward a permanent, tenured position within the department. Because these evaluations are, especially at the beginning of the probationary period, limited to short-term performance, and because performance may in subsequent years vary positively or negatively, and because the mission and needs of the department may change, satisfactory annual evaluation during the early years of the probationary period cannot be considered as a promise of (or the equivalent of) tenure. Annual evaluation during the first two years of the probationary period is both judgmental and developmental; criticism should be tempered with constructive advice. Later on in the probationary period, the accumulating evaluation process must yield a final judgment; the entire probationary period is reviewed carefully and thoroughly and it is on the basis of the entire accumulated record that the Peer Committee makes its final judgment: to recommend for promotion and tenure, or to terminate.

III. Peer Committee

Under the terms of the AFUM contract, a peer committee is responsible for evaluating all faculty and for recommending faculty members for reappointment, promotion, and tenure. Additionally, the Peer Committee conducts post-tenure reviews, and it uses the evaluation criteria detailed below for this review. In the English department, the Peer Committee is composed of all tenured members of the department. For cases of promotion to Professor, the Peer Committee is restricted to the full professors.

IV. External Evaluation

For promotion to Associate Professor and to Professor, UM System policy stipulates external letters of evaluation from experts in the candidate’s discipline. Such letters are solicited by the department chair in accordance with College of Liberal Arts and Sciences procedures.

V. Evaluation Criteria

The department of English sees intellectual work and academic and professional citizenship as the primary components of faculty work. Research, scholarship, teaching, and service are the activities through which intellectual work and academic/professional citizenship are accomplished. The department believes that the quality, significance, and impact of faculty work are more important than the category to which the work belongs. Intellectual work is not restricted to research and scholarship but is also a component of teaching and service. And just as research is not the exclusive site of intellectual work, service is not the exclusive site for academic and professional citizenship. Therefore, to achieve the standard of overall excellence in intellectual work and academic/professional citizenship, a faculty member’s accomplishments need not be uniformly spread among research/scholarship, teaching, and service, though continuing satisfactory performance is required of every faculty member in all three activities.
Intellectual Work

Teaching

Faculty holding tenure and tenure-track appointments must be able to teach service courses, undergraduate major courses, and graduate courses. The department expects its faculty to be able to translate disciplinary expertise into meaningful and accessible models for learners at different stages. Teaching includes such additional intellectual work as course development and/or pedagogical innovation. Because teaching resists reductive analysis and quantitative measurement, the Department of English is not committed to any single method of evaluating teaching effectiveness. The department does, however, endorse the following guidelines:

(1) The Peer Committee evaluates teaching practices, including student evaluations, course materials, and classroom performance, of all faculty under consideration for reappointment or promotion.

(2) Every faculty member must submit student evaluations of all courses taught each semester.

(3) Unsolicited letters from students, alumni, and other faculty, along with any special recognition such as an award for good teaching, should be added to the record.

Signed commendations or complaints in writing to the department become part of the faculty member's personnel file. The department chairperson must supply the faculty member with a copy of such a document. The faculty member may respond in writing to any such document, and the written response also becomes part of the personnel file. All materials placed in the Personnel File fall under the provisions of Article 6 of the current AFUM contract.

Research/Scholarship

Tenured and tenure-track faculty in the department spend a portion of their professional time in scholarly work and, in accord with the University's research responsibilities as a land-grant/sea-grant institution, are expected to show an appropriate record of research and scholarship. By its nature, scholarship is cosmopolitan and trans-institutional rather than local. Significant intellectual work is an outgrowth of professional expertise and is legitimated in accordance with the standards of at least one disciplinary or professional community. Faculty may receive additional time, reassigned from teaching, for this purpose. The department defines research/scholarship as encompassing the following activities:

(1) Refereed publications within the discipline. "Refereed" means that the scholarly work is evaluated by another expert in the field, whether it be an editor or editorial board for a journal, or a distinguished scholar asked to pass judgment at the request of a journal's editor or of the contributor. Publications can take a variety of forms: for example, publication or acceptance for publication of scholarly articles and books; of textbooks on literature or composition; of bibliographies and biographies on literary figures; of poetry,
fiction, drama, and essays; and of reports and reviews.

(2) Editorial work for a scholarly journal or press.

(3) Formal presentation (invited or refereed) delivered at professional or academic venues (international, national, regional, state, or local).

(4) External grants designed to elicit support for scholarly research or for curricular development.

The Peer Committee may include in its evaluation of scholarship works submitted for publication and/or grant proposals submitted but not funded.

Service

Intellectual work is accomplished in service when faculty use their specialized knowledge in activities that sustain academic institutions as intellectual centers and enable them to carry out academic goals. Structuring a new program or contributing one's disciplinary expertise to college or university committees, for example, involves more than the general knowledge or skills that most educated people possess. That academic knowledge may also benefit government, industry, the law, the arts, and not-for-profit organizations; examples would be serving on a state or local humanities council, helping a school system revamp its curriculum, working on a community literacy project, writing a script for public television, and consulting on expert testimony for Congress.

Academic/Professional Citizenship

Academic and professional citizenship encompasses the activities required to create, maintain, and improve the infrastructure that sustains the academy as a societal institution. Such activities are not dependent on disciplinary expertise but on one's commitment to the academic and professional community. The Department recognizes the significance of faculty work in support of the institution at all levels.

Teaching

Citizenship in teaching is demonstrated through contributions to student advising and retention, as well as service in faculty recruitment and on college or university curriculum committees.

Research/Scholarship

Citizenship activities within research and scholarship include participating in promotion and tenure reviews, evaluating manuscripts for a journal or publisher, and serving on committees in professional organizations in one's discipline.

Service

Activities that constitute citizenship in service include participation in department, college, and university governance, activities, and committee work (standing or ad hoc); representing one's institution on an external task force or in a public forum; and contributions to the administrative work of the department and the university.
AGENDA ITEM SUMMARY

NAME OF ITEM: New Academic Program Proposal - B.S. in Special Education, USM

INITIATED BY: David M. MacMahon, Chair

BOARD INFORMATION: BOARD ACTION: X

BOARD POLICY:
305.1 Program Approval, Review & Elimination Procedures

UNIFIED ACCREDITATION CONNECTION:

This proposed program reflects a significant degree of collaboration among UMS universities, Maine’s community colleges, and the Maine Department of Labor. USM Special Education faculty have contacted and met with their Special Education colleagues across our System over the past two years to develop ideas for addressing a state-wide Special Education staffing crisis. Efforts to date include meetings with faculty from individual universities and a February 3, 2023 meeting with faculty from all of our universities to discuss ongoing collaboration in as many pathways for Special Educator certification as possible. Plans include a new website where all UMS Special Education certification programs will be listed, a clearinghouse for information about all UMS Special Education courses, and an in-person meeting in Augusta in spring 2023 to create an action plan for long-term solutions. In addition, USM Special Education faculty met with UMM, UMA, and UMPI faculty and administrators on February 28, 2023 to discuss how this proposal can both support and collaborate with those universities' existing online Special Education undergraduate programs.

Ongoing collaboration with our community colleges includes articulation agreements ensuring that credits earned in an associate’s degree are automatically counted toward the bachelor’s degree at USM. The proposed degree will strengthen an ongoing collaboration with the Maine Department of Labor (MDOL), which has approved a unique apprenticeship for bachelor’s degree students pending degree authorization by UMS. Further, this collaboration brings financial resources to support school-based mentors as well as coordination of transitions between associate's degree completion and bachelor’s degree enrollment.

Maine school districts will also be critical partners and collaborators in this program. Degree-seeking students will work as Educational Technicians (Ed Techs) in collaborating school districts while they complete the degree. The districts will assign certified Special Education teachers as mentors to the candidates, and those mentors will provide daily observation, coaching, and support. This is a crucial feature of the degree proposal and one that connects to the apprenticeship built into it. (Notably, the partner school districts have approached USM Special Education faculty to propose the idea for the embedded apprenticeships. In particular, the Gorham school district has a long history of collaboration with USM for teacher preparation; Gorham contacted USM faculty to seek assistance because they know and trust USM’s record of collaboration.) Additionally, USM Special Education faculty are meeting with the Lewiston school department and Central Maine Community College to discuss programs that can serve their needs and provide a pathway to teacher certification.

04/13/2023
Students pursuing a career in Special Education are a primary source of future teaching power for Maine’s K-12 schools. This proposal offers a pathway for students to complete a bachelor’s degree and earn Special Education teacher certification while learning on the job as they do so.

BACKGROUND:

The University of Southern Maine (USM) is seeking permission to offer a Bachelor of Science in Special Education. This proposed degree program has been developed to address state workforce needs for instructors with specialization in supporting students with disabilities. Employment for graduates of this field is projected to increase in Maine and nationally, with more than 900 job openings in Maine for 2023.

The proposal was reviewed at all appropriate faculty and administrative levels at USM and was reviewed and subsequently recommended by the Chief Academic Officers Council. Dr. Jeffrey St. John, Interim Vice Chancellor for Academic and Student Affairs, recommended the program to the Chancellor. Chancellor Malloy signed his approval of the Bachelor of Science in Special Education on April 10, 2023.

TEXT OF PROPOSED RESOLUTION:

That the Academic and Student Affairs Committee forwards this item to the Consent Agenda at the May 21-22, 2023 Board of Trustees meeting for approval of the following resolution:

That the Board of Trustees accepts the recommendation of the Academic & Student Affairs Committee and approves the Bachelor of Science in Special Education at the University of Southern Maine.
Date: March 21, 2023

To: Dannel Malloy, Chancellor
    University of Maine System (UMS)

From: Jeffrey St. John, Interim VCAA

Regarding: Program Addition – B.S. in Special Education

Please find the attached program proposal from the University of Southern Maine (USM) to offer the B.S. in Special Education. The attached material includes documentation of university level support including approval from the President Jacqueline Edmondson as well as the full program proposal.

The proposed addition of the B.S. in Special Education was reviewed and recommended by the Chief Academic Officer’s Council (CAOC) on March 16, 2022. I also recommend this program for your approval.

Chancellor Dannel Malloy

Date: 10.23
March 28, 2023

Dr. Jeffrey St. John  
Vice Chancellor for Academic and Student Affairs  
University of Maine System  
259 Estabrooke Hall  
15 Estabrooke Drive  
Orono, ME 04469  

Dear Vice Chancellor St. John:

The University of Southern Maine (USM) is pleased to submit a new Program Proposal to the University of Maine System.

The faculty and staff of the School of Education and Human Development at USM have developed an undergraduate major leading to initial licensure in special education in the state of Maine. USM has been preparing teachers since its origin as the Gorham Normal School in 1878, including special educators. This program is an opportunity to increase the number of special educators in the state in a nationally accredited program that leads to immediate certification. In addition, this program is a response to direct requests from school districts in Maine that face a dire need to fill vacant teaching positions with qualified special education teachers. Finally, this program will include a unique partnership with the Southern Maine Community College to collaboratively prepare special education teachers through an apprenticeship pipeline.

The enclosed program proposal has been recommended by the USM Faculty Senate, and it has the full support of Interim Provost Adam Tuchinsky.

The program proposal for the Bachelor of Science degree in Special Education at USM has my unequivocal support.

I request that the enclosed program proposal be moved forward to the Board of Trustees for approval.

Sincerely,

Jacqueline Edmondson  
President  

ENC.

March 28, 2023

Dr. Jacqueline Edmonson
President
University of Southern Maine
93 Falmouth Street
Portland, ME 04104

Dear President Edmondson:

The University of Southern Maine (USM) is pleased to submit a new program proposal to the University of Maine System.

The Faculty and staff of the School of Education and Human Development at USM has developed a program proposal for a Bachelor of Science in Special Education degree providing specialized instruction for students with disabilities in the state of Maine. This program will address state workforce needs for special education teachers and make opportunities available to other qualified faculty around the state and expand collaboration in special education across the System.

The enclosed Program Proposal has been recommended by the Faculty Senate at USM.

I am pleased to forward this Program Proposal to you with my full support.

Sincerely,

Adam Tuchinsky, Ph.D.
Interim Provost and Vice President for Academic Affairs

ENC.

Bedford Street
Portland, ME 04104

Dear Provost Tuchinsky:

I am in full support of the University of Southern Maine’s BS in Special Education degree program. This program has been fully vetted through our campus curriculum review and development process.

The program serves an area of high need in the State of Maine and will help address the shortage of special education teachers in Maine.

Please let me know if you have any questions.

Thank you.

PROGRAM PROPOSAL:
Special Education Bachelor of Science Degree (Online)

Overview

There is currently a crisis in Maine special educator staffing. There are too few applicants for available positions and the numerous open positions have resulted in both significant safety concerns for students and failure to provide adequate educational programming. This proposal is for an online Bachelor of Science (B.S.) degree in special education offered in the Special Education Department, School of Education and Human Development in the College of Management and Human Services at the University of Southern Maine (USM). The Special Education Department (SED) at USM currently offers a Master of Science in Special Education that leads to Maine certification as a Special Education teacher (282). Enrollment in this program remains robust, however it is not accessible to individuals who do not have a bachelor's degree.

The proposed degree will be notable and distinct from other special educator pathways within the University of Maine System (UMS). This proposed degree will be different through its (a) collaboration with school district partners, other UMS programs, Maine community colleges, and with the Maine Department of Labor, (b) net new enrollments in a degree program, (c) embedded paid apprenticeships, and (d) degree completion support for working adults.

COLLABORATION

Maine school districts will be critical partners and collaborators for this unique degree program. The degree students will work full-time as Educational Technicians (Ed. Tech) in the collaborating districts while they complete the degree. The districts will assign certified special education teachers as mentors to the candidates. These mentors will provide daily observation, coaching, and support to the candidates. This is a crucial feature of the degree proposal and one that connects with the unique apprenticeship built into it. Notably, the collaborating school districts approached the USM Special Education Department faculty to propose the idea for the embedded apprenticeships. In particular, the Gorham School Department has a long history of collaboration with USM for teacher preparation. Gorham reached out to the USM Special Education Department to seek assistance because they know and trust USM’s record of prior collaboration. Additionally, the special education faculty are meeting on 2/28/2023 with the Lewiston school department and Central Maine Community College regarding our programs that can serve their staffing needs and provide a pathway to teacher certification. In essence, undergraduate students interested in a career in special education are a potential source of labor for Maine’s schools and this proposal offers a pathway for those interested in completing a bachelor’s degree and earning special education teacher certification to do so while learning on the job. See Appendix A for letters of support from superintendents and education associations.

This proposed degree will also incorporate a unique level of collaboration among UMS campuses, Maine's community colleges, and the Maine Department of Labor. The USM special education faculty
have reached out and met with their special education colleagues from the other campuses over the last two years to develop ideas for meeting the state-wide special education staffing crisis. Efforts to date include meetings with faculty from individual campuses as well as a recent meeting with faculty from all campuses (2/3/2023) to discuss ongoing collaboration towards as many pathways for special educator certification as possible. Plans include a new website where all special education certification programs in the UMS will be listed, a clearinghouse for information about all the UMS special education courses, and an in-person meeting in Augusta in spring 2023 to create an action plan for long-term solutions. The USM special education faculty will meet on 2/28/2023 with the University of Maine Machias, University of Maine Augusta, and University of Maine Presque Isle faculty and administrators regarding how this proposal and their current online special education undergraduate programs can work together. Ongoing collaboration with the community colleges includes articulation agreements that recognize credits earned in an Associate’s degree to be automatically counted toward the bachelor’s degree at USM.

Additionally, the proposed degree will include an ongoing collaboration with the Maine Department of Labor (MDOL) which has approved an apprenticeship for the bachelor’s degree students. This collaboration brings financial resources to support school-based mentors as well as coordination of transitions between Associate degree completion and Bachelor’s degree enrollment. The MDOL has tentatively approved the apprenticeship, pending degree authorization by the UMS.

NET NEW ENROLLMENT

This proposed degree will bring entirely new students to USM; in fact, the students for whom this degree is intended might not complete a college degree if not for this program. The creation of this fully online major in conjunction with a Registered Apprenticeship will support the USM, MDOL, and school partners to create a long-term “pipeline” of future special education teachers. The proposed degree is not a short-term fix for the current crisis. Instead it is a long-term solution that ensures schools can retain entry-level staff while they seek degree completion and certification. This degree will also create a pipeline for new enrollments within the UMS, helping to offset the decline in numbers of traditional-age college students.

The major also has the potential to help address the critical need for more racially, culturally, and linguistically diverse special educators who reflect the demographic shifts in our state’s student population. Through targeted partnerships with Maine’s urban school districts where the shortage of special education teachers is most acute, the major provides the opportunity for recruitment of candidates from diverse cultural and linguistic backgrounds. In addition, the degree will be accessible to those for whom employment is a necessity during a teacher certification program. For this reason, it is an important way that the UMS can contribute to workforce development.

REGISTERED APPRENTICESHIP

This undergraduate special education degree will be unique in the UMS for its status as an approved Registered Apprenticeship sponsor in conjunction with the Maine Department of Labor connected with online special education degree completion. The apprenticeship model means that teacher candidates work full-time in schools while they complete their degrees and certification. The target students for this program are Educational Technicians (Ed Techs) already working in Maine schools. These staff support classroom teachers in providing instruction and support for Maine students.
particularly those with disabilities. The proposed degree program will allow the Ed Techs to continue their current employment while they complete the degree program. This is important because there is also a critical shortage of Ed Techs in Maine schools and current staff will not need to leave their jobs in order to become special education teachers. In addition, the apprenticeship experience augments and improves candidate preparation by providing daily application of the knowledge and skills learned in university courses. Through a school-based mentor, the candidates will engage in continuous learning as they complete degree and certification requirements.

On 2/22/2023 the USM special education faculty, Gorham School Department (GSD), and the Department of Labor are meeting to finalize the arrangements for a Registered Apprenticeship among the GSD, USM, and Southern Maine Community College (SMCC). Additionally, the USM and SMCC are in the final stages of an articulation agreement allowing for Associate Degree credits to transfer to this special education bachelor’s degree. The registered apprentices in Gorham will be employed by the GSD beginning with Ed Tech I and II positions. The GSD and USM will then partner for Ed Tech III eligibility, undergraduate degree completion, and teacher certification. See Appendix B for details about the Apprenticeship, including the Maine Department of Labor approved Schedule of Work (SOW) for Ed Tech I and II and a draft of the SOW for Ed Tech III, bachelor’s degree completion, and special education teacher certification.

DEGREE COMPLETION

The program will have multiple entry points, including candidates who are first year students, candidates with associate degrees seeking a bachelor’s degree, and transfer candidates bringing a transcript of coursework. The program will be fully accessible to candidates working full time as Ed Techs and/or Apprentices in a school district through coursework in a fully online format with a combination of asynchronous and synchronous courses and field experiences linked to their employment. Candidates will be able to move into teaching positions immediately upon completion of the bachelor’s degree and teacher certification. Importantly, the new degree students will be ones who are not currently enrolled in any degree program. This means that they will be entirely new matriculated students who would have otherwise not been able to complete a degree. The marketing and recruitment for this proposed degree will focus on finding current school staff who do not have a bachelor’s degree. This group of individuals already work in schools and have an interest in a career in education. As of February 2023, a group of over 20 Ed Techs working in southern Maine schools are enrolled in district-sponsored Apprenticeships through Southern Maine Community College. These students anticipate enrolling at USM once they complete their associate degrees so that they can complete their preparation to become fully certified special education teachers.

Evidence of Need

In a recent report to the U.S. Department of Education, the MDOE listed special education as an area with shortages at all grade levels, K-12. Notably, special education is the only teacher certification area that has been listed with critical shortages in Maine every year since 1990. Based on data from the primary websites that post jobs for Maine teachers (Serving Schools and School Spring), as of 2/6/2023, there were over 900 unfilled positions for special educators in Maine’s schools. The ongoing lack of sufficient special educators prevents students’ individualized education programs (IEP) from being implemented correctly. When IEPs are not implemented correctly, the students suffer. In addition, schools face costly litigation because failing to implement an IEP correctly violates both state and
federal laws. In order to staff special education programs, most Maine schools are now hiring primarily Ed Tech levels I and II instead of III. This practice is important to understand because it demonstrates how lack of access to bachelor degree completion is influencing school district practices. Ed Tech level I requires only a high school diploma and Ed Tech II requires 60 college credits. Although these personnel help to meet immediate staffing needs, they cannot perform all the functions of fully certified special education teachers.

Data from the U.S. Department of Labor O*Net Center (2020) shows that the average special educator in Maine earns $51,210 with a range from $36,270 to $73,660 or more. Additional data from the U.S. Department of Labor related to long-term workforce predictions from 2016-2026 indicate that over that time Maine will not need as many special education teachers due to a smaller number of school-age children (Table 1). Nonetheless, even with reduced demand, by 2026, Maine will need an estimated 160 additional special education teachers. These projection models do not take into consideration that a third of Maine teachers are of retirement age and will require replacement hires and that there are hundreds of unfilled openings right now.

Additional documentation of the urgent need for additional special education teachers is found in the attached letters from Maine special education directors and superintendents. In addition, there is a letter from the Maine School Superintendents Association supporting the creation of a bachelor's degree in special education at USM to address the crisis-level shortage of special educators. These letters speak not only to the urgent need for the proposed degree, but also how prior collaborations with the University of Southern Maine have resulted in important benefits to public schools and workforce development.

### STATUS OF UNDERGRADUATE PROGRAMS IN SPECIAL EDUCATION

Data from the University of Maine System provide information about the existing programs and degrees that lead toward special education teacher certification. As shown in Table 2, the majority of students currently enrolled in a special education degree program are at the graduate level (n = 365). These students are spread among three campuses: University of Maine (UM), University of Maine at Farmington (UMF), and USM. Not all of these students are seeking certification because some are already certified and seeking an advanced degree. There is one bachelor's degree in special education program within the UMS and it is at UMF. This program currently enrolls 25 students. UMF also offers a bachelor's degree in early childhood special education (birth-5 years) and it has 30 students. The current proposal focuses on preparing K-12 special education teachers and not those working with children birth to 5. Both of the UMF bachelor's degrees are predominantly on-campus programs.

Four other UMS campuses offer bachelor's degrees in education (not special education) with a
concentration in special education: the University of Maine (n = 17), University of Maine at Augusta (n = 3), University of Maine at Machias (n = 25), and the University of Maine at Presque Isle (n = 17). The total number of undergraduate students enrolled in bachelor's degrees at these campuses that lead to certification is 62. Together with the 25 students at the UMF, there are currently 87 total special education bachelor's degree students in the UMS. There are additional graduate students seeking certification, however, not all graduate students in special education are pre-certification. For example, at USM about 50 of the enrolled graduate students are seeking certification. The remainder are already certified and seeking an advanced degree. It is also

</tr>
</tbody>
</table>

Important to note that many, if not all, of those in certification-track are already working in schools as conditionally certified special educators. Once they complete their programs, they will continue in their current jobs and not address the overall crisis in special-education staffing.

Currently, only one campus offers a bachelor's degree in Special Education (UMF). The other campuses with bachelor's degree programs provide this as a concentration and not a major. This distinction is important because it affects both the degree identity and the expertise of the faculty teaching the courses. Special education is a unique profession that is distinct from education as a whole. Special educators work specifically with children who have a wide range of disabilities and the professional preparation for such work requires different courses than other teachers. For example, special educators must learn to recognize the symptoms and treatments for disabilities ranging from dyslexia to orthopedic impairment. Some students require complex supports that include educational and medical components. In addition, special educators must learn how to conduct specialized assessments, manage IEPs, and supervise paraprofessionals. The Council for Exceptional Children (CEC) is the professional organization that represents special educators. CEC has program accreditation standards for degree programs specifically in special education.

**PROGRAM GOALS & OUTCOMES**

The proposed degree program seeks to:
1. Create an online special education bachelor's degree program that meets Maine K-12 special education teacher certification requirements through an approved program. The curriculum goals and outcomes of the degree will align with the State of Maine Initial Teacher Certification Standards (Table 3) and the Council of Exceptional Children Standards (Table 4).

2. Leverage an apprenticeship program through the Maine Department of Labor to provide job-embedded special educator preparation. Ongoing collaboration will include multiple campuses in the UMS as well as partner school districts where candidates will work while completing their degrees. The degree will be part of the solution for the special education teacher staffing shortages by maintaining immediate staff as they prepare for future roles as certified special education teachers.

3. Enhance and expand Maine's workforce by offering a way for current Ed Techs to remain in their jobs while they work toward both degree completion and certification. Importantly, the proposed program will support individuals with no prior college credits as well as those with many credits. Prior coursework will be evaluated to provide prior learning credit toward the bachelor's degree.

### Table 3. Maine Initial Teacher Certification Standards

<table>
<thead>
<tr>
<th>1. <strong>Learner Development</strong>: The teacher understands how students learn and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. <strong>Learner Differences</strong>: The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that allow each learner to reach his/her full potential.</td>
</tr>
<tr>
<td>3. <strong>Learning Environments</strong>: The teacher works with learners to create environments that support individual and collaborative learning, encouraging positive social interaction, active engagement in learning, and self-motivation.</td>
</tr>
<tr>
<td>4. <strong>Content Knowledge</strong>: The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners.</td>
</tr>
<tr>
<td>5. <strong>Innovative Applications of Content</strong>: The teacher understands how to connect concepts and use differing perspectives to engage learners in critical/creative thinking and collaborative problem solving related to authentic local and global issues.</td>
</tr>
<tr>
<td>6. <strong>Assessment</strong>: The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to document learner progress, and to guide the teacher's on-going planning and instruction.</td>
</tr>
<tr>
<td>7. <strong>Planning for Instruction</strong>: The teacher draws upon knowledge of content areas, cross-disciplinary skills, learners, the community, and pedagogy to plan instruction that supports every student in meeting rigorous learning goals.</td>
</tr>
<tr>
<td>8. <strong>Instructional Strategies</strong>: The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to access, and appropriately apply information.</td>
</tr>
<tr>
<td>9. <strong>Reflection and Continuous Growth</strong>: The teacher is a reflective practitioner who uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (students, families, and other professionals in the learning community), and adapts practice to meet the needs of each learner.</td>
</tr>
<tr>
<td>10. <strong>Collaboration</strong>: The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.</td>
</tr>
<tr>
<td>11. <strong>Technology</strong>: Effective teachers model and apply the National Educational Technology Standards for Students (NETS•S) as they design, implement, and assess learning experiences to engage students and improve learning; enrich professional practice; and provide positive models for students, colleagues, and the community. All teachers will meet the following standards and performance indicators.</td>

ACCREDITATION

Teacher education programs in Maine must be approved by the Maine Department of Education and Maine State Board of Education for program completers to be recommended for state certification. Teacher education programs at USM are state-approved programs as well as nationally accredited through the Council for Accreditation for Educator Preparation (CAEP). The teacher education programs at USM are reviewed every seven years to reaffirm that the standards and requirements established by the Maine State Board of Education for teacher preparation and CAEP are being met. The USM Special Education Program currently at the graduate level is one of only three nationally accredited programs in the state of Maine along with University of Maine, and University of Maine Farmington. CAEP accreditation requires a greater level of accountability for program quality, which helps ensure that teacher certifications earned at USM will also be recognized by most other states. The proposed special education bachelor’s degree was approved as a future program in the awarding of USM’s 2022 - 2029 national accreditation and state program approval. This means that the very first graduates from the new degree program can be recommended for special education teacher certification immediately upon degree completion.

ENROLLMENT PROJECTIONS

We expect to recruit and enroll an initial cohort of 25 students and then grow that number to annual cohorts of 35 students each year. By the fifth year of the degree, we expect to have a total 125 matriculated degree students (see Table 5) and sustain that over time.

Program Content

The proposed bachelor's degree will provide all of the coursework and field experiences necessary for graduates to earn Maine certification as a special education teacher. The program of study integrates work experiences in schools with course assignments to provide a combination of theoretical and applied learning experiences. See Appendix C for sample program schedules. Through the school partnerships and apprenticeship program, there are several distinguishing features of the program worth noting.

1. Fully online coursework and field experience supervision minimizing program related travel and maximizing school day time needed for teaching and professional activities, such as direct service instruction, staff duties, and IEP meetings.
2. Focus on integration of special education services within a multi-tiered system of supports (MTSS) that fosters access to free appropriate public education (FAPE) in the least-restrictive environment (LRE) as required by federal and state laws.
3. Preparation to use evidence-based instruction and progress monitoring to provide special education services (i.e., curriculum-based measures).
4. Three separate courses with applied instructional intervention projects for Positive Behavioral Interventions and Support (PBIS), Multi-Tier System of Student Support for Mathematics, Multi-Tier System of Student Support for Reading.
5. An Individual Internship Plan (IIP) is designed by the school district, university, and candidate to accommodate employment responsibilities, program requirements, and family needs. The two semester internship is a minimum of 450 hours. Summer experiences such as Extended School Year may count as internship hours.

RESEARCH & EVIDENCE-BASED PRACTICE

All coursework in the Special Education major will reflect the research literature documenting best practices for students with disabilities. Specifically, courses include foundations in systematic and explicit instruction and High Leverage Practices (Council for Exceptional Children, 2022). The catalyst around which these practices are organized is a Multi-Tiered System of Support (MTSS) whereby candidates learn how to support students with disabilities across all school settings. In addition, Special Education majors will complete a capstone experience through the development of structured lesson series that is done as part of SED 488 in the spring of the year-long internship.

CLINICAL EXPERIENCE

The candidates have a six-course sequence of courses that require field experiences which can be completed in their school employment settings. All candidates, including Registered Apprentices, will spend time in schools every semester prior to the full-time internship. All clinical experiences will be overseen by one or more school-based mentors who will be fully certified special education teachers. In addition, University faculty will provide additional supervision for course-required applied projects.
ENTRY INTO THE PROGRAM

Students may declare the Special Education major upon admission to the university. Admission to the university will have multiple entry points, including (a) first-year applicants, (b) candidates with associate degrees transitioning from community college to a bachelor’s degree program, and (c) transfer students seeking credit for prior coursework and experiences. As required by both the Maine Department of Education and CAEP, students must successfully complete the teacher candidacy requirements to move forward into the final professional coursework and the student teaching capstone. Students will apply for candidacy after completion of at least 18 major credits with a grade of B or higher. If students do not meet the requirements for candidacy, they will need to select a major other than Special Education to complete their bachelor’s degree.

Transfer students will need to meet the candidacy requirements as well. All USM transfer students are assisted by the Advising office for how best to transfer prior college credits as well as if they could earn Prior Learning Credit for work experience. One of the primary goals for this major is to offer a pathway for individuals with some college credits to complete a bachelor’s degree as well as special education certification. Every effort will be made to award credit for as many prior college credits and work experiences as possible. Such practice will both validate the applicant’s expertise and facilitate timely degree completion.

PROGRAM OF STUDY

The Special Education faculty have designed CAEP and state certification-compliant course offerings that will prepare teachers for students with disabilities. This fully online program will include synchronous and asynchronous online learning as well as field work and student teaching. The major will require a total of 39 credits. See Table 6 for a list of all courses required for the degree major. As noted above, there is a candidacy process for future teachers. Candidacy requires successful completion of the pre-candidacy courses and obtaining clearance to work in schools through fingerprinting and a background check. Once a candidate, the student completes student teaching and applied courses in behavior supports, mathematics, and reading to students with disabilities.

IMPACT ON EXISTING PROGRAMS

As noted above, one campus in the UMS currently offers a special education undergraduate degree accompanied by certification; the University of Maine at Farmington (UMF). UMA offers a special education minor, UMM offers a special education concentration, and there is a collaborative program through UMFK and UMPI that also offers a special education concentration. All of these programs remain important because Maine needs multiple programs in special education in order to address the critical shortage of special educators.

Despite the availability of these degree programs, Maine has a critical shortage of special education teachers. For this reason, adding a B.S. in Special Education at USM will not detract from the efforts and outcomes of existing programs. Specifically, USM’s current degree programs are all graduate programs and not accessible to individuals without a bachelor’s degree. UMF offers the only accredited bachelor’s degree in special education in the UMS, with coursework offered during the daytime (e.g., school hours) when the proposed USM students who are employed in southern Maine school districts
cannot have access to UMF learning opportunities. The new USM B.S. in Special Education at USM will provide an accessible and affordable degree and certification in special education for students not currently enrolled in any UMS or other college programs. Thus, this new degree program will not compete with programs and services offered elsewhere in the UMS.

*This course will be developed from the existing graduate level course for this content and can be co-listed with the graduate course if needed.

**These courses will have clinical field experiences in conjunction with school employment as a registered apprentice.

Although this program will not compete with or duplicate existing degree opportunities, the USM faculty seek to collaborate with all UMS campuses to optimize pathways for eligible Maine residents to become certified special educators. Importantly, the addition of this degree will make it possible for Maine
residents living in ANY location in Maine to become certified special educators. In order to create a focus on meeting Maine’s critical shortage of special educators, we will continue to collaborate with our colleagues at other UMS campuses to meet these needs. Specifically, USM special education faculty plan to (a) work with all UMS special education faculty when planning course schedules, (b) accept all equivalent UMS special education courses toward the new degree so that students can have access to required courses in multiple ways, and (c) foster communication with the Maine Department of Education Office of Special Education to develop professional learning, advocacy, and family connections in support of Maine’s children with disabilities.

Program Resources

PERSONNEL

There are three full-time special education faculty at USM and they would provide the primary teaching and advising responsibilities for the students in the bachelor’s degree program. The current USM special education faculty have extensive expertise in both the field of special education and in online instruction. Dr. Kimball has been one of the primary leaders of university online instruction for over 25 years. He pioneered one of the first UMS fully online degree programs in 2005 and has provided mentoring and professional learning for other faculty. Professor Kimball is a Sloan-C certified online instructor. Dr. Brown-Chidsey is also an online teaching veteran and developed the fully online master’s degree in applied behavior analysis (ABA) when she served on the faculty in the Educational and School Psychology Department. Like Dr. Kimball, Dr. Brown-Chidsey is Sloan-C certified, and she recently completed the Association of College and University Educators (ACUE) online instructor certificate program. Dr. Wilkinson brings her recent degree completion experience to the Department’s collection of online teaching resources. Together, the USM special education faculty offer a depth of knowledge about online teaching that will ensure that the fully online bachelor’s degree provides high-quality online instruction throughout the program of study.

Providing the courses in the new bachelor’s program alongside the existing graduate degree program will require additional instructors beyond the three at USM. We propose to include all faculty in the UMS with appointments in special education to be the program faculty. There are a total of 13 full-time special education faculty in the UMS (Table 7). Of these, two are serving in administrative roles (Artesani, Ball). We propose two ways to collaborate with UMS special education faculty in providing this degree. First, when there is an opening for an instructor in a course in the bachelor’s degree program, the UMS special education faculty will be asked to teach the course. In addition, we propose to continue our work with colleagues from all the UMS campuses to create a unified list of UMS special education courses. Any course offered by an UMS campus that is equivalent to a course required in the proposed degree requirements, will be accepted toward the degree. The benefit of having the collective UMS special education faculty provide the instruction ensures that the program focus is developing special education teachers whose professional identity and career goals are anchored in teaching students with disabilities.

The USM special education faculty also teach courses for students in other degree programs. For example, all Maine teachers must complete a course in teaching students with exceptionalities and

</tbody>
</table>

These courses are provided by the Special Education Department. A pool of highly qualified part-time faculty serve as instructors for certain special education courses. In the case where a full-time UMS faculty member is not available to teach a course in the bachelor's degree program, a part-time faculty member can be assigned to teach it.

While the additional faculty needs for the bachelor’s degree can be addressed through the USM special education faculty, there are administrative needs that will require additional personnel. At this time, the only administrative support staff specifically assigned to the Special Education Department is one Administrative Specialist – CL2. This staff person, Amanda Lieake, supports two departments with large and time-intensive certification programs:
- Language, Literacy, and Culture
- Special Education

The addition of a bachelor’s degree in special education will create more work for the administrative staff. We are budgeting for one additional full-time administrative assistant staff person to support the Special Education degree programs and certification needs.
LIBRARY ACQUISITIONS

The UMS Library currently has the resources to support the bachelor of special education program.

EQUIPMENT

USM currently has teacher education programs that are supplied with the necessary modalities to meet the CAEP accreditation requirements.

FACILITIES & SPACE REQUIREMENTS

The Center for Excellence in Teaching and Learning is being developed in Bailey Hall to serve as the academic and social center for students in all teacher education programs. In addition, both USM and the UMS have extensive online teaching support resources that can assist with course development and faculty preparation.

- Office of Educator Preparation

Financial Considerations

REVENUE PROJECTIONS

The bachelor’s degree in special education is designed and expected to draw new students to USM, especially those who are working full-time in schools and not otherwise able to pursue a degree. Table 8 summarizes information about expected tuition revenue for the new degree based on the current undergraduate "e-rate" of $351.00 per credit. This rate was selected because this degree is designed to be fully online through a combination of existing online USM Core courses, electives, and the special education major courses. Due to the goal of attracting individuals new to college as well as those with prior college credits seeking to complete a bachelor's degree, it is difficult to know how many total credits each student will complete at USM. Nonetheless, predictions based on an estimated number of new degree students taking an average of 30 credits per year, can be calculated. These data show that in the first year of the program (2023-2024), with 25 new students, $242,250 of tuition would be generated. We plan to increase enrollment gradually in the following two school years, resulting in an annual average of 35 new matriculated students in each cohort. Once there are students enrolled in all
program stages (2026-2027), estimated tuition revenue would be $1,117,500 that year and thereafter.

PERSONNEL COSTS

As previously mentioned, the Special Education Department currently has 3 core faculty, for the graduate Special Education programs, the undergraduate advanced pathway and courses taught for the Teacher Education programs. The coordination of an undergraduate program will require one additional full-time Administrative Assistant. Costs for this position are summarized in Table 9.

The estimated revenue and expenses indicate a net gain for USM starting in the first year of the program and thereafter. The estimated net revenue from this degree is significant and will offset many of the overall program costs.

Program Evaluation

A CAEP program accreditation campus visit in fall 2021 resulted in full, 7-year, approval of the current graduate certification program in special education. The proposed bachelor’s degree was included in the 2021 review and also fully approved. This approval means that bachelor’s degree candidates will be eligible for immediate recommendation for Maine special educator certification once they graduate. CAEP will require the program to submit annual reports identifying areas of compliance, and non-compliance, with the accreditation standards. The self-studies and annual reports require the program to assess formative and summative programmatic goals and outcomes. In addition, the Director of Educator Preparation will collaborate with the Dean and Provost to maintain compliance.

Dr. Adam Tuchinsky,
Interim Provost and Vice-President for Academic Affairs
University of Southern Maine
124 Wishcamper
PO Box 9300
Portland, ME. 04104

Dear Dr. Tuchinsky,

I am writing on behalf of the school superintendents of Cumberland County and would like to offer this letter of support for the undergraduate degree in Special Education that has been proposed by the University of Southern Maine. In a recent Cumberland County Superintendents Association meeting, the topic of special education programming and staffing was discussed. It was clearly evident that all districts are struggling to fully meet the special education needs of their district. One of the core issues identified by the group was the lack of fully certified special education teachers and support staff in our region and in Maine.

The districts in Cumberland County have long enjoyed a long and successful partnership with the USM. Our schools and programs have served as the training grounds for preservice and graduate level educators. Our students have benefited through these partnerships through the high quality individuals that the university has placed in our schools. USM students have certainly benefited from the placement opportunities and mentorships that they have received from the professionals that work in our districts. We are extremely confident that our regional districts will be able to provide the same level of support to this program expansion.

The staffing shortages that we are currently experiencing are not predicted to get any better. The lack of qualified individuals is impacting our students and is also having a significant impact on the professionals that are employed by our districts. Staff are increasingly needing to add to their workloads to ensure that the needs of students are being met. The added stress and fatigue of additional duties is already having an impact on our workforce. The number of individuals seeking early retirement and the number of people seeking other professions has been on the rise. A program at USM that might lead to an increase in qualified staff will most certainly impact our districts.

The University of Maine System currently offers one undergraduate program for special education teacher certification. Given the increased student needs that we are experiencing and the staff shortages that we are experiencing, one program in the state is not nearly enough to meet the programming needs of our community. The undergraduate program that is currently being proposed will have a significant impact on schools and students in our region. I hope that you will give it strong consideration. Please feel free to contact me if you have any additional questions.

Thank you for your consideration,

Christopher Howell
Superintendent of Schools RSU 14
President - Cumberland County Superintendents Association.
October 17, 2022

University of Southern Maine
124 Wishcamper
PO Box 9300
Portland, ME 04104

Dear Dr. Adam Tuchinsky, Interim Provost and Vice-President for Academic Affairs,

I am fully in support of the request for the University of Southern Maine to offer an undergraduate program that would help develop both Regular Education Teachers and Special Education Teachers. We are experiencing a national emergency in regards to a lack of educators and para-educators (educational technicians) to support students in need of Special Education and Maine schools are hurting tremendously.

Across Maine we have at least 38 Special Education Teacher positions not filled, 4 in Cumberland County. Last fall, we had approximately 400 open educational technician jobs across Maine. This fall, it was up to over 500. About ten years ago, Gorham Schools would have at least 10-15 applicants for a Special Education Teaching position, but now we're ecstatic to get up to three.

The University System of Maine, the Community College System of Maine, and the Maine Department of Education must partner with our Maine school systems to develop ways of enticing and maintaining future educators. I strongly believe that an Apprentice Program would allow the systems to entice many who cannot afford to pursue a degree through the "usual" pathway. We have already begun this work in Gorham and it has allowed us to be fully staffed to start our school year - the only district in Cumberland County that was fully staffed in September!

The apprenticeship program allows for schools to hire these candidates and place them in an existing educational technician position where they can learn the ropes from experienced colleagues and be supported by mentors, while earning a paycheck and putting practices into play as they are learning them in their classes. In many districts they may also have classes paid for by the district, removing the roadblock of personal funding. Most of the eight apprentices we hired shared that they always wanted to be an educator; but did not have the means to pursue the education needed.

In Gorham, as do many other districts, we want to build our own - we often hire our substitute teachers to become educational technicians and our educational technicians become our teachers. An apprenticeship program will allow candidates to realistically build their skills and will be focused on bachelor's degree completion that includes
special education certification. Upon completion, we will have candidates that already have significant experience.

I am begging the powers that be to allow USM to build an apprenticeship program that Maine schools can partner with so that we can build our own professionals from applicants that have a deep desire to be an educator, but have not had the opportunity to pursue their dreams due to lack of means. This program will benefit Maine students, especially those with disabilities, and that should be our top priority.

Thank you for your time and consideration of this program.

Sincerely,

Kathy Hamblen
Director of Special Services for Gorham School District
Vice-President of Maine Administrators of Services for Children with Disabilities (MADSEC)

University of Southern Maine
124 Wishcamper
PO Box 9300
Portland, Maine 04104

Dear Dr. Adam Tuchinsky, Interim Provost and Vice-President for Academic Affairs:

As the Director of Special Education for the Falmouth School Department, I would like to express my complete support of the request for The University of Southern Maine to begin offering an undergraduate education program with the purpose of developing Special and General Education Teachers.

As I know you are aware, the state of Maine continues to face a serious education workforce shortage. The state has seen the third largest decline in the nation since 2010 in the number of people completing educator preparation programs and our public school partners are struggling to find sufficient staff. In Cumberland County, we have four current Special Education Teacher openings, in Maine that number is over 35. In Falmouth, on August 1, we had 29 openings for Special Education staff. We offer some of the most competitive salary and benefits packages available. We also offered a signing and referral bonus. Although we brought in many new staff, we continue to have five openings. The number of teaching applicants and educational technician applicants continues to be low and is a clear indication of the need for further development of educators at all levels.

Our statewide educational systems (universities and community colleges) have always worked to support educational development, but we need to enhance this work at this critical time. The apprenticeship program allows for schools to hire candidates and place them in an existing educational technician position where they can learn the ropes from experienced colleagues and be supported by mentors, while earning a paycheck and putting practices into play as they are learning them in their classes. In our district and many others they will also have classes paid for by the district, removing the roadblock of personal funding. We are in the process of applying to implement this program in Falmouth and hope to have it in place soon. Education from within, in partnership with the University is a clear solution to a persistent, growing problem that is in your power to fix.

I anticipate this program being a model of educational success and fully encourage your support. Please do not hesitate to contact me with any questions.

Warmly,

Gene Kucinkas
Director of Special Education
Falmouth, Maine

gkucinkas@falmouthschools.org

Cell - 207-415-9609
February 18, 2021

Dr. Jo Williams
Dean, School of Education and Management
University of Southern Maine

Dear Dr. Williams,

I am writing to you to say thank you for pursuing an undergraduate program in Special Education. I completely endorse the proposal. The depth of need is considerable. In my own district, our numbers of students with special needs, particularly young children with significant needs, continue to grow. In just a few years, our population has increased from 17% to 23% which in some schools represents a full third of the overall school enrollment. As our case loads grow, districts like mine need to expand staff of both teachers and ed techs. However, the pools of candidates for teaching positions are small. Recruiting qualified teachers is a struggle which speaks loudly to the need for an undergraduate program in our geographic area. The market for graduates of such a program will be strong for years to come. Additionally, I would be eager to host student interns throughout their program, building professional ties with students as they complete their degree and enter the profession. Similarly, I would be eager to explore ways for exceptional students to work as ed techs in the district while they complete their degree. The possibilities are endless!

Again, thank you for pursuing this program. I look forward to expanding Westbrook’s collaboration with USM in the future.

Sincerely,

Peter Lancia, Ph. D.
Superintendent of Schools
November 15, 2022

Dr. Adam Tuchinsky
Interim Provost and Vice-President for Academic Affairs
University of Southern Maine
124 Wishcamper Center, P.O. Box 9300
Portland, ME 04104

Dear Dr. Tuchinsky,

We are writing on behalf of the Maine School Superintendents Association to offer support for the undergraduate degree program in Special Education that has been proposed by the University of Southern Maine. The topic of special education programming and staffing is a statewide topic as all districts are struggling to fully meet the needs of our Special Education students due to the significant shortage of fully certified special education teachers and support staff across the state.

As of November 1, 2022, the Maine Department of Education issued 249 emergency certificates. An emergency teacher certificate is a certificate for a teacher that is used to fill a staffing shortage identified by the Department of Education. This certificate can only be issued in a manner that the holder does not supplant an otherwise qualified and available teacher. An emergency certificate is issued for one year, and no more than three emergency teacher certificates may be issued per applicant. In three years, school districts in Maine will be looking to fill 249 positions in these areas of shortages.

The University of Maine system currently offers one undergraduate program for special education teacher certification. Maine school districts are reporting an increase in students’ needs and our current and future level of staffing falls short of being able to meet the programming needs. The undergraduate program that the University of Southern Maine is proposing will have a significant impact in our ability to provide meaningful and relevant programs and skills to our students.

Many school districts have benefited from the programs that the University of Southern Maine have offered in the field of education, and we are confident that an undergraduate program in Special Education will allow districts to meet the needs of the children we serve.

The Maine School Superintendents Association thanks you for considering our support for the Special Education undergraduate program and stands ready to engage in a dialogue with you at your convenience.

Sincerely,

Eric Waddell, President
Eileen King, Executive Director
October 28, 2022

Dr. Adam Tuchinsky,
Interim Provost and Vice-President for Academic Affairs
University of Southern Maine
124 Wishcamper
PO Box 9300
Portland, ME. 04104

Dear Dr. Tuchinsky,

The purpose of this letter is for me to express my significant support for the proposed undergraduate degree in Special Education. This degree program, if approved, will be 100% online and integrate apprenticeships where candidates work full-time in schools while they earn their degree. Most importantly, this program will be focused on bachelor’s degree completion that includes special education certification.

Public Schools across our region, our state, and our country are struggling mightily with staff shortages. The U.S. Department of Education annually requests states to designate teacher shortage areas for the purposes of deferment of loan repayments. This year’s designated teacher shortage areas reported by the Maine Department of Education include Teachers of Students with Disabilities K-12 (282 certification endorsements). Last year Maine’s schools reported over 80 unfilled special education teacher positions across the state. Over 400 educational technician positions were also reported as going unfilled across our great state during that same time frame. Conditions are no better as we begin the start of the 2022-23 school year.

Over the past two decades, the perfect storm of lowered respect towards public educators, adverse working condition as a result of the pandemic, and most recently, the great resignation have taken its toll. The Gorham Schools used to post open positions for teachers and receive 150 applications. Today, we are happy to get 10-15 and this is for regular education teachers. We often get just 2-3 applicants from teachers applying for special education positions.

As our special education populations increase, staffing shortages will soon reach crisis levels. Many schools are already there in terms of trying to fill these hard to fill positions. Our most needy students will be the first to suffer due to these shortages. It is imperative
that we increase the pipeline of new teachers into the profession, especially in the area of special education. USM can be part of this solution.

Currently, our state’s public universities offer just one undergraduate program for special education teacher certification. This is simply not going to cut it. Our needs are far greater and we need our partners in our state’s public universities to step up and increase programs to support students in these important areas for our children.

The proposed USM undergraduate degree program in Special Education is unique in that it will be part of a larger educator apprentice program approved by the Maine DOL that will allow interested students with a baseline of HS diploma to work full time while still attaining full time credits from the University that will allow them to complete their bachelor degree in four years with full certification to become special education teachers in Maine. This partnership between SMCC, the Maine DOL, Maine’s public schools and USM will be one that can be held up as a national example of how these types of organizations can work collaborate to solve complex workforce development issues having significant impacts on our present and our future.

Without teachers, other professions cannot exist. USM has long been a source for effective educator preparation programs that have provided our public schools with the talent required to fuel our past workforce. This new program will allow that strong tradition to continue and for one of Maine’s premier public universities to step up and become a real part of the solution to our workforce shortage challenges in the area of special education.

This work is important work. This proposed program will be an exemplary program for others to follow. I implore you to support the proposed undergraduate program at USM for special education.

Thank you,

Heather J. Perry, Ph.D.
Superintendent of Schools
Appendix B: Registered Apprenticeship

The registered apprenticeship is a formally recognized program that enables a school district and university together to recruit candidates to special education through employment. USM’s status as a registered apprenticeship sponsor enables the university to work in close collaboration with partner districts to provide degree completion with teacher certification for their staff. USM provides (a) a course of study for degree completion, (b) assistance with apprentice supervision by fully certified teachers, and (c) a completed bachelor’s degree and recommendation for teacher certification from an approved program.
MAINE APPRENTICESHIP PROGRAM
SCHEDULE OF WORK

Apprentices will receive on the job learning/training in the various work areas listed below. The order in which the training is given is to be determined by the flow of work and may not necessarily be in the order listed. The times allotted to these various processes are the estimated time frames in which an average apprentice will learn and become proficient in the skill area. They are intended only as a guide; the apprentice may require more time on one area and less in another. The total term of apprenticeship is indicated below. The columns at the right constitute a record of progress for the apprentice. Each apprentice will be provided with a separate sheet in which to log their hours of experience. When the apprentice has both completed the required hours and attained proficiency in the specific skill area, the Supervisor/Mentor will initial the far-right column. Items for which previous credit have been given upon registration into the program should also be initialed. This sheet or another similar record of apprentice progress must be kept in the apprentice’s paper and/or electronic file. Documentation of on-the-job and related technical instruction of individual apprentices will be reviewed by the program office during routine monitoring of apprenticeship program implementation.

OCCUPATION: Educational Technician II

APPROVED APPRENTICE TO JOURNEYWORKER RATIO: 1:1
(A numeric ratio of Apprentices to Journeyworkers will be consistent with proper supervision, training, safety, and continuity of employment throughout the apprenticeship, with the ratio of Apprentices to Journeyworkers being one (1) Apprentice to one (1) Journeyworker whenever possible).

The related instruction for this occupation will progress the individual through the requirements of obtaining a bachelor's degree in special education. Before moving into a full-time teacher position, the individual will have obtained a bachelor's degree from an accredited institution and complete all state required certification requirements.
Apprenticeship: The right answer for any industry

Sound Familiar?
- It's difficult to attract workers with the right skills and experience.
- Current employees need enhanced skills to keep pace with industry.
- High turnover rate of new-hires makes it challenging.
- Skilled employees will retire soon.

Say YES to Registered Apprenticeship!
- Customized training for workers and businesses.
- Earn-and-learn model attracts new employees and upskills current staff.
- Retain workers through career pathways that grow your business.
- Off-set training and wage costs.

What is Registered Apprenticeship?
- Minimum of 2,000 hours of structured on-the-job training with a mentor.
- Minimum of 144 hours of related classroom training per year.
- You will be directly involved and provide unique on-the-job training.
- Career path rewards the employee for skills gained.
- National Occupational Credential meets the highest standards.

What are the benefits of Registered Apprenticeship?
- Improve worker productivity, quality, and safety.
- Reduce turnover, improve loyalty, and retain talented employees – 90% of apprenticeship program finishers retain employment.
- Recruit and develop a diverse and highly-skilled workforce.
- Employers realize an average return on investment of $1.47 for every $1 invested.
  Source: U.S. Department of Labor

What are the financial incentives of Registered Apprenticeship?
- $1,500 to new sponsors once you register your first apprentice.
- $1,000 to existing sponsors when you add a new occupation.
- $500 one-time reimbursement for each apprentice to off-set classroom training costs.
- Up to $1,200 per apprentice to provide tools, equipment, and necessary support services.

If you would like to learn more about Registered Apprenticeship, email the Maine Apprenticeship Office at MaineApprenticeship@maine.gov
Appendix C: Special Education Bachelor’s Degree
Proposed Sequence of Courses
Bachelor of Science in Special Education

Note: There are two proposed sequences of courses displayed below. The first one shows 15-week courses for the Core and special education major requirements. The second shows the same requirements using 7-week courses. We propose to offer the new special education degree as a fully online program with 7-week courses for the Core and major requirements. Students will also complete electives to build full schedules. Degree candidates must complete 39 credits in the special education major and 25 credits from the USM Core curriculum for a total of 64 required courses. The remaining courses (56 credits) are electives. Transferred and prior learning credits can be applied to any course if approved. In the case of transfer students who enter with advanced standing, the major courses can be taken entirely in years 3 and 4.

Core Curriculum:  https://catalog.usm.maine.edu/content.php?catoid=6&navoid=209

In the first three years of the program, students work on completing requirements for entering candidacy, which they officially apply for after completion of at least 18 major credits with grades of B or better in all major courses and a GPA of 3.0 or higher. As needed, it is expected that students take other courses during this time that will meet USM’s core curriculum requirements.

Once accepted as candidates, in Year 4, students take methods courses in math and reading instruction. The most important feature of Year Four is the year-long internship. During this internship, students work side-by-side with a mentor teacher who is a veteran special educator. Students can complete the internship in their existing school work sites as long as the district approves the placement. This full-time student teaching experience serves as the capstone course for the Special Education degree and gives students access to hands-on application of what they have learned at USM through the duration of their program.

References

Date: March 21, 2023

To: Jacqueline Edmondson, President
University of Southern Maine (USM)

Adam Tuchinsky, Provost
University of Southern Maine (USM)

From: Jeff St. John, Interim VCASA
The University of Maine System (UMS)

Regarding: Program Addition – B.S. in Special Education

The Chief Academic Officer's Council (CAOC) reviewed the request submitted on March 16, 2022 by the University of Southern Maine for the addition of the B.S. in Special Education. The CAOC was supportive. Additionally, the VCASA supports and recommends this addition. This letter confirms the VCASA endorsement of your request to add the B.S. in Special Education degree program at USM.

According to Board of Trustee (BOT) policy, the USM Provost will be invited to present this program addition at the next convening of the Academic and Student Affairs Committee (ASA) on April 24, 2023. Pending ASA recommendation, Chancellor Malloy will present this major addition for final approval by the Board of Trustees at the May 21, 2023 UMS BOT meeting.

Please do not hesitate to let me know if you have any questions.
AGENDA ITEM SUMMARY

NAME OF ITEM: Faculty Initiated Discussion

INITIATED BY: David M. MacMahon, Chair

BOARD INFORMATION: X

BOARD ACTION:

BOARD POLICY:

NA

UNIFIED ACCREDITATION CONNECTION:

Board and Faculty engagement

BACKGROUND:

The Academic and Student Affairs (ASA) Committee of the Board invites faculty-rank members of the Faculty Representative to the Board of Trustees to bring forward discussion items relevant to their university communities and the University of Maine System. The faculty representatives, working in conjunction with the ASA Committee chair, have decided that the April 2023 ASA Committee meeting’s subject will be a continued discussion of shared governance.

AGENDA ITEM SUMMARY

NAME OF ITEM: Student Representative Discussion

INITIATED BY: David M. MacMahon, Chair

BOARD INFORMATION: X

BOARD ACTION:

BOARD POLICY:

N/A

UNIFIED ACCREDITATION CONNECTION:

N/A

BACKGROUND:

The Academic and Student Affairs (ASA) Committee of the Board invites Student Representatives of the Board of Trustees to bring forward discussion items relevant to their university communities and the University of Maine System. The April 2023 ASA meeting’s subject will revisit the topic of campus communication from and between the administration and the students. Potential solutions to future challenges will also be discussed.
