**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
University of Maine System

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component unit of the University of Maine System (the System), a component unit of the State of Maine, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the System's basic financial statements, and have issued our report thereon dated November 17, 2014, which contained an unmodified opinion on those financial statements with an emphasis of a matter paragraph regarding the System's adoption of Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The financial statements of the discretely presented component unit of the System were not audited in accordance with *Governmental Auditing Standards* and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance or other matters for the discretely presented component unit of the System.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness of the System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the System's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND
REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY
OMB CIRCULAR A-133**

The Board of Trustees
University of Maine System

Report on Compliance for Each Major Federal Program

We have audited the University of Maine System's (the System's) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the System's major federal programs for the year ended June 30, 2014. The System's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

We did not audit the System's compliance with the requirements governing student loan repayment processing services in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the *Compliance Supplement*. Those requirements govern functions performed by Heartland Campus Solutions ECSI (ECSI). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. ECSI's compliance with the requirements governing the functions that it performs for the System for the year ended June 30, 2014 was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Services*. Our report does not include the results of the other accountants' examination of ECSI's compliance with such requirements.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the System's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the System's compliance.

Opinion on Each Major Federal Program

In our opinion, the System complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 2014-001. Our opinion on each major federal program is not modified with respect to this matter.

The System's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The System's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the System is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the System's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the System's internal control over compliance.

Requirements governing student loan repayment processing services in the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement are performed by ECSI. Internal control over compliance related to such functions for the year ended June 30, 2014 was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Services*. Our report does not include the results of the other accountants' testing of ECSI's internal control over compliance related to such functions.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the business-type activities and the discretely presented component unit of the System as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the System's basic financial statements. We issued our report thereon dated November 17, 2014, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

UNIVERSITY OF MAINE SYSTEM

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2014

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of the University of Maine System (the System) under programs of the federal government for the year ended June 30, 2014. The information in the Schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the System, it is not intended to and does not present the financial position, changes in net position, or cash flows of the System. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

This report includes the seven campuses of the System and the administrative and management offices of the System (System-Wide Services). The seven campuses and their respective federal identification numbers are as follows:

University of Maine at Augusta (UMA)	1-01-600-0769-A3
University of Maine at Farmington (UMF)	1-01-600-0769-B1
University of Maine at Fort Kent (UMFK)	1-01-600-0769-A5
University of Maine at Machias (UMM)	1-01-600-0769-A9
University of Maine (UM)	1-01-600-0769-A2
University of Maine at Presque Isle (UMPI)	1-01-600-0769-A6
University of Southern Maine (USM)	1-01-600-0769-A8

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule, if any, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

3. Loan Program Balances

Loan balances receivable from students under federal programs are as follows as of June 30, 2014:

Federal Perkins Loans	\$ <u>30,994,014</u>
Nursing Student Loans	\$ <u>1,862,487</u>

4. Subrecipients

Certain funds are passed through to sub-grantee organizations by the System. Expenditures incurred by the sub-grantees and reimbursed by the System are included in the Schedule. It is not practical to report the amounts of expenditures passed through from each federal program for purposes of this report. During the year ended June 30, 2014, subrecipient expenditures totaled \$7,029,007.

UNIVERSITY OF MAINE SYSTEM

Notes to Schedule of Expenditures of Federal Awards (Concluded)

Year Ended June 30, 2014

5. Indirect Costs

The System has predetermined Facilities and Administrative (F&A) rates for fiscal year 2014, 2015 and 2016. The base rates for other F&A cost recoveries range from 26.0% to 49.6% for fiscal year 2014 through and including fiscal year 2016.

6. Expenditures of Federal Awards Summarized by Agency

The following table summarizes the expenditures of federal awards by agency for the fiscal year ended June 30, 2014:

Agency	CFDA	Direct Funding	Passed- Through Funding	Total
U.S. Department of Agriculture	10.xxx	\$ 13,357,711	\$ 1,464,379	\$ 14,822,090

Schedule of Findings and Questioned Costs (Concluded)

Year Ended June 30, 2014

Section II Financial Statement Findings

None

Section III Federal Award Findings and Questioned Costs

Finding 2014-001

Federal Program: Research and Development Cluster, CFDA number 81.087 – U.S. Department of Energy - Renewable Energy Research and Development.

Federal Award Number: DE-EE0005990

Criteria: 2 CFR 170 Reporting Subaward and Executive Compensation Information. The Federal Funding Accountability and Transparency Act (FFATA) requires the System, as a direct recipient of federal awards, to report key data elements regarding its first-tier subawards greater than or equal to \$25,000 in the FFATA Subaward Reporting System (FSRS). The FSRS is a reporting tool used to capture and report subaward and executive compensation data and make it available to the public via a single, searchable web site.

Condition and Context: The University of Maine did not submit required reporting under FFATA for subawards under this agreement. The University of Maine has not been performing any FFATA reporting for first-tier subawards.

Questioned Costs: None noted

Cause and Effect: It appears staff misinterpreted the guidance to mean this reporting was only required for new grants or cooperative agreements that specifically labeled the award or identification number as the “Federal Assistance Identification Number.” The FFATA reports were not filed and, therefore, federal agencies and the public did not receive the information included in the FFATA reporting with respect to subawards.

Recommendation: We recommend the University of Maine properly report subaward data as required under FFATA in a timely manner. Additionally, we recommend the System monitor adherence with this reporting compliance requirement.

Views of Responsible Officials and Corrective Action Plan: On March 2, 2015, the University of Maine began registering new prime sub-awards equal to, or over, \$25,000, in full compliance with the Federal Funding Accountability and Transparency Act. Also, between March 2, 2015 and June 30, 2015, the University will back-register prime sub-awards equal to, or over, \$25,000 that were issued between July 1, 2013 and March 1, 2015.
