**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees  
University of Maine System  
Orono, Maine

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of University of Maine System (the System) and the discretely presented component unit of the System, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise University of Maine System's basic financial statements, and have issued our report thereon dated October 31, 2019. The System is a component unit of the state of Maine. The financial statements of the discretely presented component unit were not audited in accordance with *Government Auditing Standards*.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness of the System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

### **Internal Control Over Financial Reporting**

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program**

We have audited the University of Maine System's (the System) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the System's major federal programs for the year ended June 30, 2019. The System's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of the System's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the System's compliance.

***Opinion on Each Major Federal Program***

In our opinion, the System complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2019.

### **Other Matters**

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2019-001. Our opinion on the System's Federal Student Financial Assistance Cluster is not modified with respect to this matter.

### **Report on Internal Control Over Compliance**

Management of the System is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the System's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the System's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2019-001, that we consider to be a significant deficiency.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the business-type activities, the aggregate discretely presented component unit of the System as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise System's basic financial statements. We issued our report thereon dated October 31, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**UNIVERSITY OF MAINE SYSTEM - SINGLE AUDIT  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
YEAR ENDED JUNE 30, 2019**

**NOTE 1 BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the University of Maine System (the System) under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the System, it is not intended to and does not present the financial position, changes in net position, or cash flows of the System. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

This report includes the seven campuses of the System and the administrative and management offices of the System (System-Wide Services). The seven campuses and their respective federal identification numbers are as follows:

University of Maine at August (UMA)	1-01-600-0769-A3
University of Maine at Farmington (UMF)	1-01-600-0769-B1
University of Maine at Fort Kent (UMFK)	1-01-600-0769-A5
University of Maine at Machias (UMM)	1-01-600-0769-A9
University of Maine (UM)	1-01-600-0769-A2
University of Maine at Presque Isle (UMPI)	1-01-600-0769-A6
University of Southern Maine (USM)	1-01-600-0769-A8

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the same basis of accounting as the basic financial statements. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-21, *Cost Principles for Education Institutions* or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

The System has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance. The System has predetermined Facilities and Administrative (F&A) rates for fiscal year 2019. The base rates for other F&A cost recoveries range from 26% to 51% for fiscal year 2019.

**Section III – Findings and Questioned Costs – Major Federal Programs**

---

**2019 – 001**

**Federal Agency:** Department of Education

**Federal Program Title:** Student Financial Assistance Cluster

**CFDA Number:** Various

**Award Period:** July 01, 2018 – June 30, 2019

**Type of Finding:**

- Significant Deficiency in Internal Control over Compliance
- Other Matters

**Criteria or Specific Requirement:** The Code of Federal Regulations, 34 CFR 668.25(e) requires that the Eligibility and Certification Approval Report (ECAR) be updated within 10 days for any changes in third-party servicers.

**Condition:** During our testing of accurate and timely reporting on the ECAR, we noted the following instances of noncompliance:

1. University of Maine Orono (UM) did not list the National Student Clearinghouse (NSC) as a third-party servicer.
2. University of Maine Fort Kent (UMFK) did not list the National Student Clearinghouse (NSC) as a third-party servicer.

**Questioned Costs:** None

**Context:** When there was a change in third party servicer, the ECAR was not updated for the change.

**Cause:** The University's processes and controls did not ensure that the ECAR was timely updated.

**Effect:** Outdated information was reported on the ECAR.

**Repeat Finding:** No

**Auditor's Recommendation:** We recommend the University carefully review the ECAR before it is filed to ensure it includes current information. We recommend any changes be filed in a timely manner.

**Views of Responsible Officials and Planned Corrective Actions:** There is no disagreement with the audit finding.

University of Maine System respectfully submits the following summary schedule of prior audit findings for the year ended June 30, 2019.

Audit period: July 01, 2018 to June 30, 2019

The findings from the prior audit's schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the prior year.

### **FINDINGS—FINANCIAL STATEMENT AUDIT**

There were no financial statement findings in the prior year.

### **FINDINGS— FEDERAL AWARD PROGRAMS AUDITS**

#### **Finding 2018–001**

#### **Information on the Federal Program**

U.S. Department of Education - Student Financial Assistance Cluster award period July 1, 2017 – June 30, 2018. CFDA 84.063 Federal Pell Grant Program

#### **Specific Criteria**

Per 34 CFR 690.83(b)(1), the institution shall submit the student's Payment Data reporting any change to the Secretary by the reporting deadlines published by the Secretary in the Federal Register. Per the Federal Register (82 FR 29061) Department of Education Notice on June 27, 2017, an institution must submit Pell Grant, Iraq and Afghanistan Service Grant, Direct Loan, and TEACH Grant disbursement records to the Department's Common Origination and Disbursement (COD) System, no later than 15 days after making the disbursement or becoming aware of the need to adjust a previously reported disbursement.

#### **Condition and Context**

As part of testing of Pell Grant disbursements, the requirement to report payment data to COD within the 15 day requirement was tested. Of the 18 total Pell students selected for testing, 8 students were selected at the University of Maine Farmington (UMF). Of the 8 students, 1 had a disbursement reported with an effective date in advance of the actual disbursement and 7 had disbursements for the fall semester that were not reported to COD within 15 days after the disbursement. The COD reporting for these 7 students was completed within 18 days of the disbursement. UMF had approximately 900 Pell Grant disbursements for the fall semester. The majority of Pell Grant disbursements are completed on the same day, near the beginning of the semester

**UNIVERSITY OF MAINE SYSTEM  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
YEAR ENDED JUNE 30, 2019**

**Questioned Costs**

None noted.

**Cause and Effect**

Due to an extended staff vacancy, coupled with the volume of activity at the start of the semester, the COD reporting for Pell Grant disbursements was delayed by 3 days on the initial report for the fall semester. Per the Dear Colleague Letter ID: GEN-13-14; an institution that does not report Pell Grant disbursement within the required 15 day timeframe may be liable for any overpayment that results from another institution disbursing Pell Grant funds with incomplete information because of the late reporting.

**Prior Year Recommendation**

It was recommended the System reinforce the 15 day reporting deadline to all staff who are responsible for reporting to COD. It was also recommended that UMF fill the vacant staff position or reassign COD reporting responsibilities to ensure timely and accurate reporting. This should lead to a reduction in the reporting timeframe and would limit those circumstances for potential overpayments.

**Status:** Finding was resolved in the current year.
