	Contract Negotiations (subject to change)	August 6, 2015
	Estimated Contract Start Date (subject to change)	August 7, 2015

QUESTIONS

1. In regards to section 8.5 Technical Requirements- Security. Are you asking us to provide answers on how Google will maintain your data? That is not a statement that we can make on their behalf. You are already using the product, so I am a little confused as for that request in this RFP. Can you please explain this section and what is expected of the migration partner to provide exactly?

ANSWER: We are removing 8.5.2, 8.5.4 and 8.5.6. The remaining questions require a response which should be focused on the procedures used to collect or transfer University data.

2. "What is the total current size in GB of live GroupWise mail?"

ANSWER: Use 1.5 Terabytes as upper limit for estimating. This limit could be significantly less.

3. "What is the total current size in GB of GroupWise Native archives?"

ANSWER: Unable to tell due to scattered locations, please use 2.5 Terabytes as upper limit. This limit could be significantly less.

ADDENDUM #01**

4. “What does the section “8.5 Technical Requirements – Security” refer to? It does not appear to apply to a migration solution, but rather to a solution where cloud hosting is involved, which is not in the scope of this RFP.”

ANSWER: We are removing 8.5.2, 8.5.4 and 8.5.6. The remaining questions require a response which should be focused on the procedures used to collect or transfer University data.
