SECTION 1

1.0 General Information

1.1 Purpose

The University of Maine System is seeking responses to provide telecommunication cable installation and related services as defined in this document. The intent of the RFP is to seek turn-key installation services with specialized product requests.

This document provides instructions for submitting responses, the procedure and criteria by which the Provider(s) will be selected, and the contractual terms which will govern the relationship between the University and the awarded Bidder(s).

Bidders should review **Section 2** of this document to see the full Scope of Services/Products required.

Though this document is primarily for the University of Maine System, all campuses in the University of Maine System must be afforded the use of this solution, with all the same terms and conditions applicable to the various University locations.

1.2 Definition of Parties

The University of Maine System will hereinafter be referred to as the "University." Respondents to the document shall be referred to as "Bidder(s)" or "bidder(s)". The Bidder to whom the Contract is awarded shall be referred to as the "Contractor."

1.3 Eligibility to Submit Responses

1.3.1 Public entities, private for-profit companies, and non-profit companies and institutions are invited to submit a response to this document.

1.4 Evaluation Criteria

Scoring Weights: The score will be based on a 100 point scale and will measure the degree to which each response meets the following criteria.

Submission Requirements	Category	Points
Section 5 (5.1-5.2)	Organization Qualifications, Experience, and Financial Stability and References	15
Section 5 (5.4)	Economic Impact Within State of Maine	5
Section 5 (5.5)	Cost Response	40
Sections 6 & 7	Business Requirements (Matrix and Narrative)	30
Section 9	Contract for Services	10
	Total Points	100

Section 5 (5.5 Only) – Cost Response

The total cost proposed for conducting all the functions specified in this document will be assigned a score according to a mathematical formula. The lowest cost response will be awarded the total points. Responses with higher cost response values will be awarded proportionately fewer points calculated in comparison with the lowest cost response.

The scoring formula is:

$$(\text{Lowest submitted cost response} / \text{cost of response being scored}) \times (30) = \text{pro-rated score}$$

No Best and Final Offers: The University will not seek a best and final offer (BAFO) from any Bidder in this procurement process. All Bidders are expected to provide their best value pricing with the submission of their response.

1.7 Award

Presentations may be requested of two or more bidders deemed by the University to be the best suited among those submitting responses on the basis of the selection criteria. After presentations have been conducted, the University may select the bidder(s) which, in its opinion, has made the response that is the most responsive and most responsible and may award the Contract to that/those bidder(s). While the University prefers a single solution that is scalable to meet the needs of both large and small institutions, it reserves the right to award contract(s) to one or multiple vendors, which may include awards to bidders for a geographical area, if such award is in the best interest of the University.

The University reserves the right to waive minor irregularities, which may include contacting the Bidder to resolve the irregularity. Scholarships, donations, or gifts to the University, will not be considered in the evaluation of responses. The University reserves the right to reject any or all responses, in whole or in part, and is not necessarily bound to accept the lowest cost response if that response is contrary to the best interests of the University. vendor selected (the successful bidder). At that time the University will issue an award notice letters to all participating bidders and the successful bidder's response may be made available to participating bidders upon request. After the protest period has passed and the contract is fully executed, the winning response will be available for public inspection. Pricing and other information that is an integral part of the offer cannot be considered confidential after an award has been made. The University will honor requests for confidentiality for information of a proprietary nature to the extent allowed by law. Clearly mark any information considered confidential.

The University must adhere to the provisions of the Maine Freedom of Access Act (FOAA), 1 MRSA §401 et seq. As a condition of accepting a contract under this section, a contractor must accept that, to the extent required by the Maine FOAA, responses to this solicitation, and any ensuing contractual documents, are considered public records and therefore are subject to freedom of access requests.
