1.0 General Information

1.1 Purpose

The **University of Maine Volunteer Ambulance Corps** is seeking bids to provide **a new chassis for one of two ambulances** as defined in this document. This document provides instructions for submitting bids, the procedure and criteria by which the Provider(s) will be selected, and the contractual terms which will govern the relationship between the University and the awarded Respondent(s).

The University Volunteer Ambulance Corps, also known around campus as UVAC, is the on-campus emergency medical service (EMS) for the University of Maine. Our ambulances respond to emergency calls at the University of Maine and provide mutual aid to surrounding towns and agencies. We are inspected and licensed by Maine Emergency Medical Services on a yearly basis, and carry the equipment necessary to provide the highest level of pre-hospital care. What makes us truly unique is that we are a student run ambulance service. All members have an affiliation with the University of Maine.

Bidders should review Section 2 of this document to see the full Scope of Services/Products required.

Though this document is primarily for UMaine, all campuses in the University of Maine System must be afforded the use of this solution, with all the same terms and conditions applicable to the various University locations.

1.2 Definition of Parties

The University of Maine System will hereinafter be referred to as the "University." Respondents to the document shall be referred to as "Bidder(s)" or "bidder(s)". The Bidder to whom the Contract is awarded shall be referred to as the "Contractor."

The University will honor requests for confidentiality for information of a proprietary nature to the extent allowed by law. Clearly mark any information considered confidential.
