REQUEST FOR PROPOSALS #055-16
Emergency & Non-Emergency Generator Repairs & Maintenance
Services
University of Maine System
ADDENDUM #1

This addendum responds to initial questions submitted by vendors.

The University of Maine

University of Maine
at Augusta

University of Maine
at Farmington

University of Maine
at Fort Kent

University of Maine
at Machias

University of Maine
at Presque Isle

University of
Southern Maine

- Q1. USM Portland under Campus Non-Emergency Generators listed Generator Make Olympian Model G80F3 two times and has only one. Generator Onan 30EK-4XR8 should not be listed, Generator Make Kohler Model # 125REOZJG should be listed in its place.
- A1. *Pricing for the second Olympian G80F3 and Onan 30EK-4XR8 will not be included in market basket calculation.*
- Q2. Would it be possible to schedule a walk-through?
- A2. *Due to scheduling and timing this would not be able to be scheduled and completed at all six campuses. The University System has provided the list of generators for each of the six campuses for reference.*
- Q3. Can the University System provide the results from past bidding for this service?
- A3. *The University of Maine System has not previously solicited this service.*
- Q4. Does the University have the kw rating for the generators listed? I can assume the kw sizes on most of these (D150P1 is most likely going to be 150kw, etc.) but I'd rather be sure on every generator.
- A4. *See table below, information provided is best available at this time.*
- Q5. We do not carry Professional Liability Insurance or Marine General Liability Insurance. We weren't clear with the language on if it was be required of us. Would you clarify that for me?
- A5. *Insurance requirements listed are only required when applicable. For the work requested Professional Liability Insurance or Marine General Liability Insurance is NOT applicable.*

A4. **Table**

<i>Campus Emergency Generators</i>			
<i>Location</i>	<i>Make</i>	<i>Model</i>	<i>kw</i>
