2. Confirmation of Bandwidth requested. There are several sites where the Bandwidth being requested seems incorrect. Examples:
- RSU 1 Bath ELAN. Hub is requesting 1000 Mbps, and the remote sites total to 5300 Mbps, should the HUB site be getting more Bandwidth or should the remote sites be getting less?
 - RSU 34 Old Town, Similar to above
 - Calais School Dept, Similar to above
 - SAD 28 Camden Rockport, Similar to above

ANSWER:

- The **Preferred Minimum Circuit Size** listed for these locations are correct. Bidders may provide pricing information for bandwidth levels above the listed **Preferred Minimum Circuit Size**.
3. I can understand why a ELAN District Hub site, could also be a POP, but why would a ELINE site also be a POP. POP Site, Stevens Brook Elementary School is also listed as a ELAN Hub site, a ELINE Site and a Dark Fiber Site is this correct?

ANSWER:

- Yes, this is correct.
4. There are several District Hubs, where there is no connection from the Hub back to a POP. Is this intentional?
Examples
- RSU 1 Bath, Morse High School, No ELINE Component.
 - MSAD 31 Penobscot Valley High School, no ELINE Component
 - SAD 41 Penquis Valley High School, No ELINE Component
 - SAD 30 Woodland Jr/Sr High School, No ELINE Component

ANSWER:

- The follow locations were inadvertently left off the Uplink (ELINE)
