1.0 INTRODUCTION

1.1 Definitions, Background, Purpose and Specifications

1.1.1 Definitions
The University of Maine System will hereinafter be referred to as the "University." Respondents to the document shall be referred to as "Respondent(s)" or "Respondent".

The Respondent to whom the Agreement is awarded shall be referred to as the "Contractor."

The University of Maine System and other components of the University shall be referred to as "Multi-Institution".

1.1.2 Background
Overview
Established in 1968, the University of Maine System (UMS) unites seven distinctive public universities, comprising 10 campuses and numerous centers, in the common purposes of providing quality higher education while delivering on its traditional tripartite mission of teaching, research, and public service.

Maine’s largest educational enterprise, the University extends its mission as a major resource for the state, linking economic growth, the education of its people, and the application of research and scholarship.

A comprehensive public institution of higher education, UMS serves nearly 40,000 students annually and is supported by the efforts of more than 2,000 full-time and part-time faculty, more than 3,000 regular full-time and part-time staff, and a complement of part-time temporary (adjunct) faculty.

Reaching more than 500,000 people annually through educational and cultural offerings, the University of Maine System also benefits from more than two-thirds of its alumni population residing within the state; more than 123,000 individuals.

The System consists of the following seven universities: University of Maine (UM); University of Maine at Machias (UMM); University of Maine at Augusta (UMA); University of Maine at Presque Isle (UMPI); University of Maine at Farmington (UMF); University of Southern Maine (USM); and, University of Maine at Fort Kent (UMFK).

Operating within a shared services model, the offices of Information Technology, Strategic Procurement, Human Resources, Facilities, Risk and General Services, Finance and Budget, Shared Processing Center, General Counsel and Organizational Effectiveness partner to form the University Services organization.

Charged with delivering key administrative functions across the System, University Services is dedicated to leveraging its significant unit and collective resources to not only serve the immediate needs of its constituents, but deliver sustainable economies and efficiencies for the future benefit of the System as well.
Campus thumbnails

University of Maine at Augusta
Founded in 1965, the University of Maine at Augusta transforms the lives of students of every age and background across the State of Maine and beyond through access to high-quality distance and on-site education, excellence in student support, civic engagement, and professional and liberal arts programs. Celebrating its 50th anniversary, UMA is the third largest public university in Maine. In addition to its main campus in the state’s capital, UMA also serves students at its campus in Bangor (UMA Bangor) and through University College centers around the state. With its multiple locations and long-term expertise in online and distance learning, UMA is generally considered the university of choice for Mainers of all ages who want to attend college without uprooting their lives.

University of Maine at Farmington
Established in 1864, the University of Maine at Farmington is a small, increasingly selective public liberal arts college, featuring programs in teacher education, the arts & sciences and professional studies, serving primarily full-time, traditional-age undergraduates in a residential setting. Farmington continues to be recognized for its academic quality, small classes, close-knit community and integrated curricular, co-curricular and extra-curricular offerings. With enrollment at around 1,800 full-time students, UMF is about the same size as many of New England’s most selective private colleges and offers many of the same advantages, yet at a very attractive price.

University of Maine at Fort Kent
Founded in 1878, the University of Maine at Fort Kent is a unique learning institution perfect for people seeking a rural scholastic atmosphere of modern academic standards combined with an eclectic mix of rugged outdoor vistas and access to cosmopolitan epicenters across two countries. The learning opportunities at UMFK have become a model of a “rural university” that other New England campuses attempt to emulate. Strong academic programs include associate and bachelor’s degrees in such disciplines as nursing, business, education, forestry and cyber security among others. The student body at UMFK numbering 1,500, has a higher percentage of international students than any other university in New England, allowing immersion in a cultural opportunity that is unique in the world. Featuring seventy-seven full-time and adjunct faculty and eighty-one staff, UMFK enjoys national recognition for quality and value as well as championships in men’s and women’s soccer.

University of Maine at Machias
The University of Maine at Machias, a member of the University of Maine System, sits on the Gulf of Maine, surrounded by rivers, forests, fishing villages, and blueberry barrens. This unspoiled portion of the Atlantic coast is known for its outdoor recreational opportunities and quality of life. As Maine's Coastal University, faculty and students approach the liberal arts with a focus on coastal, environmental and community issues. The academic experience emphasizes learning both in the classroom and in experiential settings. UMM's fifteen undergraduate degree programs serve approximately 800 students. The University's applied research and public services contribute to the improvement of the quality of life and economic development in Downeast Maine.
University of Maine
Established as a land grant college in 1865, the University of Maine is a public research university located in Orono and referred to as the flagship institution of the University of Maine System. UMaine, as it is often called, has an overall enrollment of over 11,000 students who pursue majors in ninety undergraduate disciplines, more than seventy masters’ courses of study and thirty doctoral programs. Ranked 105th by the National Science Foundation among American research universities, UMaine’s research faculty has an international reputation for excellence and the campus’ Fogler Library is the largest in the state. Located on more than 600 acres only a few miles from Bangor, one of Maine’s largest cities, the University of Maine is a major resource not only for education but economic and community development throughout the state as well.

University of Maine at Presque Isle
For more than a century, the University of Maine at Presque Isle has been helping students find their path to great professional careers providing its 1,100 traditional and non-traditional students from all areas of the state, country, and world with life-changing opportunities in a caring, small-university environment. UMPI combines liberal arts and selected professional programs and serves as a cultural and educational resource for the entire region. The campus sits on 150 acres surrounded by the rolling hills and potato fields of northern Maine and the University strives to be the region’s premier learning institution while helping to stimulate cultural and economic development in Aroostook County and the State of Maine. The University serves as an educational and cultural center for the area and its facilities are utilized for lectures, programs, concerts, dance performances, exhibits, and plays that benefit the entire region.

University of Southern Maine
The University of Southern Maine, northern New England’s outstanding public, regional, comprehensive university, is dedicated to providing its diverse student body of more than 9,000 students from forty states and thirty foreign countries with a high-quality, accessible, affordable education. Through its undergraduate, graduate, and professional programs, USM faculty members educate future leaders in the liberal arts and sciences, engineering and technology, health and social services, education, business, law, and public service. Located on three campuses in Gorham, Portland, and Lewiston-Auburn, USM is known as Maine’s Metropolitan University and serves communities that are among the largest population centers in the state.

1.1.3 Purpose
The University’s IT organization seeks to implement an IT Service Management/Project Portfolio Management solution that will provide the tools necessary to enable the organization to improve how it manages resources, services, and service management and project portfolio processes in a manner that is consistently reliable, transparent, sustainable, measurable, and aligned with institutional priorities. The solution should assist in advancing IT towards greater organizational maturity in ITSM and PPM for the University through a thoughtful application of IT Service Management principles.

The organization currently utilizes a variety of commercial and self-developed applications to manage Information Technology services and processes across its unified, shared-service, multi-campus, IT service and support organization.
Respondents should review 1.1.4 Specifications / Scope of Work of this document to see the full Scope of Services/Products required.

1.1.4 Specifications / Scope of Work

INFORMATION TECHNOLOGY OVERVIEW (Links to 2017 & 2018 State of IT reports)

University Services: Information Technology Services (US:IT) is the primary unified IT shared-services organization that serves all seven campuses and other system-wide shared-services organizations, such as HR, Finance, Facilities, etc. US:IT, led by its CIO, consists of over 200 employees who support hundreds of unique services across the following categories:

- Accounts, Access, & Passwords
- Advanced Computing
- Business Applications
- Computers, Hardware, & Printing
- Data analytics & reporting technologies
- Email, calendaring, & listserv
- Educational tools, online learning, & classroom technology
- Support & training
- Networks, telephones, & communications
- Project Management & professional services
- Safety & information security
- Servers, backup & monitoring
- Web development & hosting

CURRENT STATE of IT SERVICE MANAGEMENT and PORTFOLIO MANAGEMENT

In general our process maturity level in these areas falls between “Managed” and “Defined” where Projects are planned, performed, measured and controlled, while in general IT services are not. However, some organization-wide standards have been implemented, such as a single incident process, financial management, and service catalog.

- Incident and Service Request Management - Recently unified IT departments in one ticketing system with standard workflows.
- Knowledge Management
- Self-service - Current ITSM tool provides end-user entry point to knowledgebase and ability to create a non-service-specific request and check/update submitted requests.
- Service Catalog Management - Utilizing a standalone homegrown online Service Catalog application that is manually synced with other service management tools. Service Catalog is structured along the lines of the ECAR Category-Service-Service Offering model, which is important to preserve. Includes some aspects of Portfolio Management, such as upcoming and retired service offerings.
- Project Management & Professional Services (business analysis, training, communication, etc.)
- Config/Release Management (Jira)
- Financial Management - Recently completed first effort at IT service-based costing and customer allocation. While not a priority for
integration, the ITSM solution needs to continue to support ongoing IT cost allocation.

- Service Level Management - Recently mapped service dependencies through IT service-based costing activity. Need some functionality to support SLA/OLA moving forward.

GOALS TO BE ACHIEVED

- Improved IT responsiveness and customer experience
- Empowerment of clients and IT support staff
- Increased awareness of IT Services and Projects across the institution
- Improved resource forecasting related to projects and IT strategy
- Reduced redundancy across IT services and projects
- Empowerment of IT staff to solve problems for customers as quickly and accurately as possible
- Illumination of service pain points
- Reduce internal effort required to maintain ITSM tools
- Improve accessibility of ITSM tools and products, such as “knowledge”, to those with disabilities.
- Ensure IT solutions that align with business strategy and maximize return on investment are prioritized and selected
- Facilitate fully informed and transparent resource requirements for new services, initiatives and changes

PRODUCT AND SERVICES SCOPE

Strategically, the preference is for a Software as a Service (SaaS) or Hybrid solution, but on-premise products will also be considered if the product’s functionality would best suit the expressed needs.

The services and solution are envisioned to include:

- Initial and ongoing consulting and implementation services, including UMS-specific recommendations for module implementation order, workflow development, metrics, etc.
- Migration from existing tools
- Long-term roadmap for process improvement and module implementation
- Provide structure and flexible processes to enable ITSM/PPM maturity ownership and growth
- Enhance our use of knowledge as an organization asset
- Standardize and streamline at least service/incident, asset, change/release, knowledge, and project portfolio management processes on one platform across the UMS.
- Deliver integrated tool set that brings all data together in actionable ways to support IT operations and staff across the organization
- Provide seamless integration among ITSM/PPM processes and key existing data sources.
- Provide a client portal that helps students, faculty and staff understand the services IT offers, and provide a mechanism for them to solve issues, submit self-serve requests and monitor the status of their requests, including seamless integration between portfolio, service catalog and service request workflows.
• Track the investment in services and assets throughout their lifecycle, which will enable the organization to evaluate its strategy, as well as its ability to execute according to the strategy.
• Includes support for a minimum set of management processes including:
  o Incident Management
  o Request Management
  o Service Portfolio Management
  o Service Level Management
  o Project Portfolio Management
  o Project Management
  o Problem Management
  o Knowledge Management
  o Asset and Configuration Management
  o Change Management
• Other service management processes that are considered optional at this time:
  o Release Management
  o Financial Management
  o IT Service Continuity Management
  o Availability Management
  o Information Security Management
  o Event Management
  o Capacity Management

1.2 General Information
1.2.1 Contract Administration and Conditions
1.2.1.1 The winning Respondent will be required to execute a contract in the form of a University of Maine System Contract for Services, which is attached to this response as Appendix E. Contract initial term and renewal periods are reflected in Section 2 of Appendix E, Contract for Services, and are subject to continued availability of funding and satisfactory performance.

The Agreement entered into by the parties shall consist of the University of Maine System Contract for Services (attached to this document), the RFP, the selected Respondent’s submission, including all appendices or attachments and clarifications, the specifications including all modifications thereof, and a Purchase Order or Letter of Agreement requiring signatures of the University and the Contractor, all of which shall be referred to collectively as the Agreement Documents.

In the event of a conflict of terms the following precedence will apply:
  1. University of Maine System Contract for Services
  2. Agreement Riders as required
  3. Contract Amendments (as required)
  4. The University’s RFP
  5. Respondent’s Submission
  6. Purchase Order or Letter of Agreement

1.2.1.2 Modification of Agreement terms and conditions is permitted except that the University, due to its public nature, will not:
a. Provide any defense, hold harmless or indemnity;
b. Waive any statutory or constitutional immunity;
c. Apply the law of a state other than Maine;
d. Procure types or amounts of insurance beyond those UMS already maintains or waive any rights of subrogation.
e. Add any entity as an additional insured to UMS policies of insurance;
f. Pay attorneys' fees, costs, expenses or liquidated damages;
g. Promise confidentiality in a manner contrary to Maine's Freedom of Access Act;
h. Permit an entity to change unilaterally any term or condition once the contract is signed;
i. Accept any references to terms and conditions, privacy policies or any other websites, documents or conditions referenced outside of the contract; or
j. Agree to automatic renewals for term(s) greater than month-to-month.

1.2.1.3 By submitting a response to a Request for Proposal, bid or other offer to do business with the University your entity understands and agrees that:

a. The above Agreement provisions (Section 1.2.1.2) will not be modified and are thereby incorporated into any agreement entered into between University and your entity; that such terms and condition shall control in the event of any conflict with such agreement; and that your entity will not propose or demand any contrary terms;
b. The above Agreement provisions (Section 1.2.1.2) will govern the interpretation of such agreement notwithstanding the expression of any other term and/or condition to the contrary;
c. Your entity agrees that the resulting Agreement will be the entire agreement between the University (including University's employees and other End Users) and Respondent and in the event that the Respondent requires terms of use agreements or other agreements, policies or understanding, whether on an order form, invoice, website, electronic, click-through, verbal or in writing, with University's employees or other End Users, such agreements shall be null, void and without effect, and the terms of the Agreement shall apply.
d. Your entity will identify at the time of submission which, if any, portion or your submitted materials are entitled to "trade secret" exemption from disclosure under Maine's Freedom of Access Act; that failure to so identify will authorize UMS to conclude that no portions are so exempt; and that your entity will defend, indemnify and hold harmless UMS in any and all legal actions that seek to compel UMS to disclose under Maine's Freedom of Access Act some or all of your submitted materials and/or contract, if any, executed between UMS and your entity.
1.2.2 Communication with the University

It is the responsibility of the Respondent to inquire about any requirement of this document that is not understood. Responses to inquiries, if they change or clarify the document in a substantial manner, will be forwarded by addenda to all parties that have received a copy of the document. Addenda will also be posted on our web site, www.maine.edu/strategic/upcoming_bids.php

It is the responsibility of all Respondents to check the web site before submitting a response to ensure that they have all pertinent documents. The University will not be bound by oral responses to inquiries or written responses other than addenda.

Inquiries must be made using the Response Contact Information provided on the cover sheet of this document. Refer to table in Section 1.3.1 Timeline of Key Events for deadline requirements.

1.2.3 Confidentiality

The University must adhere to the provisions of the Maine Freedom of Access Act (FOAA), 1 MRSA §401 et seq. As a condition of submitting a response under this section, a respondent must accept that, to the extent required by the Maine FOAA, responses to this solicitation, and any ensuing contractual documents, are considered public records and therefore are subject to freedom of access requests.

The information contained in responses submitted for the University's consideration will be held in confidence until all evaluations are concluded and a Respondent selected (the successful Respondent). At that time the University will issue award notice letters to all participating Respondents and all Respondents' responses may be made available to participating Respondents upon request. Such request must be made by submitting a written request to the individual noted in the Response Contact Information shown on the cover sheet of this document, with a copy of the request provided to the other Respondents. Such requests are public records.

After the protest period has passed and the Agreement is fully executed, responses will be available for public inspection upon request.

Pricing and other information that is an integral part of the offer cannot be considered confidential after an award has been made. The University will honor requests for confidentiality for information that meets the definition of “trade secret” under Maine law. Clearly mark any portion of your submitted materials which are entitled to “trade secret” exemption from disclosure under Maine's Freedom of Access Act. Failure to so identify as trade secret will authorize the University to conclude that no portions are so exempt; and that your entity will defend, indemnify and hold harmless the University in any and all legal actions that seek to compel the University to disclose under Maine's Freedom of Access Act some or all of your submitted materials and/or contract, if any, executed between the University and your entity.

1.2.4 Costs of Preparation

Respondent assumes all costs of preparation of the response and any presentations necessary to the response process.
1.2.5 Authorization
Any Agreement for services that will, or may, result in the expenditure by the University of $50,000 or more must be approved in writing by the Office of Strategic Procurement, Chief Procurement Officer and it is not approved, valid or effective until such written approval is granted.

1.2.6 Multi-Institutional
The University of Maine System, Office of Strategic Procurement reserves the right to authorize other University Institutions to use the Agreement(s) resulting from this document, if it is deemed to be beneficial for the University to do so.

1.2.7 Pricing
All prices provided shall remain firm for the entire term of the agreement.

1.2.8 Cost Response Form Quantities
The quantities shown on the cost response form are approximate only. The Contractor shall cover the actual needs of the University throughout the term of the Agreement regardless of whether they are more or less than the quantities shown.

1.2.9 Employees
The Contractor shall employ only competent and satisfactory personnel and shall provide a sufficient number of employees to perform the required services efficiently and in a manner satisfactory to the University. If the Agreement Administrator or designee, notifies the Contractor in writing that any person employed on this Agreement is incompetent, disorderly, or otherwise unsatisfactory, such person shall not again be employed in the execution of this Agreement without the prior written consent of the Agreement Administrator.

1.2.10 Environment Compliance
In the event that the resulting Agreement involves the generation, transportation, handling, disposal, and/or other operations or activities in relation to toxic, hazardous, radioactive, or otherwise dangerous gases, vapors, fumes, acids, alkali’s, chemicals, wastes or contaminants and/or other substance, material or condition, the Contractor agrees to indemnify save harmless and defend the University from and against all liabilities, claims, damages, forfeitures, suits, and the costs and expenses incident thereto (including costs of defense, settlement and reasonable attorney’s fees) which the University may hereafter incur as a result of death or bodily injuries or damage to any property, contamination of or adverse effects of the environment or any violation of state or federal regulations or laws (including without limitation the Resources Conservation and Recovery Act, the Hazardous Material Transportation Act or the Superfund Amendment and Reauthorization Act, as the same now exists or may hereafter be amended) or order based on or arising in whole or in part from the Contractor’s performance under the Agreement, provided, however the Contractor shall not indemnify the University for any liabilities, claims, damages, (as set forth above) caused by or arising out of the sole negligence of the University, or arising out of any area of responsibility not attributable to Contractor.
1.2.11 Specification Protest Process and Remedies:
If a Respondent feels that the specifications are written in a way that limits competition, a specification protest may be sent to the Office of Strategic Procurement to the email address provided on the cover page of this document. Specification Protests will be responded to within five (5) business days of receipt. Determination of protest validity is at the sole discretion of the University. The due date of the proposal may be changed if necessary to allow consideration of the protest and issuance of any necessary addenda. Specification protests shall be presented to the University in writing as soon as identified, but no less than five (5) business days prior to the Deadline for Proposal Submission noted in Section 1.3.1. No protest against the award due to the specifications shall be considered after this deadline. Protests shall include the reason for the protest and any proposed changes to the specifications.

1.3.2 Eligibility to Submit Responses
Public entities, private for-profit companies, and non-profit companies and institutions are invited to submit a response to this document.

1.3.3 Debarment
Respondents must complete and submit the "Debarment, Performance and Non-Collusion Certification Form provided in Appendix B. Failure to provide this certification may result in the disqualification of the Respondent’s proposal, at the University’s discretion.

Submission of a signed response in response to this solicitation is certification that your firm (or any subcontractor) is not currently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this
transaction by any State or Federal department or agency. Submission is also agreement that the University will be notified of any change in this status.

1.3.4 Response Understanding
By submitting a response, the Respondent agrees and assures that the specifications are adequate, and the Respondent accepts the terms and conditions herein. Any exceptions should be noted in your response.

1.3.5 Response Validity
Unless specified otherwise, all responses shall be valid for ninety (90) days from the due date of the response.

1.3.6 Non-Response Submission
The University will not consider non-responsive submissions, i.e., those with material deficiencies, omissions, errors or inconsistencies or that otherwise do not follow instructions. The University in its sole discretion will determine what is Non-Responsive.

1.3.7 Respondents’ Presentations
Presentations may be requested of two or more Respondents deemed by the University to be the best suited among those submitting responses on the basis of the selection criteria. After presentations have been conducted, the University may select the Respondent(s) which, in its opinion, has made the response that is the most responsive and most responsible and may award the Agreement to that/those Respondent(s).

1.3.8 Response Submission
A SIGNED virus-free electronic copy must be submitted as follows:
- The response must be received electronically to the E-Mail shown in the Response Submission Information section of the cover page of this document.
- Electronic submission must be received by the required Response Deadline Date/Time reflected on the cover page of this document.
- Response submissions that exceed 20 MB will be submitted with multiple emails modifying email subject line shown in the Response Submission Information section of the cover page of this document to include: Submission 1 of X (‘X’ representing the number of files being submitted).
2.0 EVALUATION AND AWARD PROCESS

2.1 Evaluation Criteria

2.1.1 Scoring Weights

The score will be based on a 100 point scale and will measure the degree to which each response meets the following criteria:

**Total Points 100**

2.1.2 Scoring Section Descriptions

2.1.2.1 Cost Evaluation

The total cost proposed for conducting all the functions specified in this document will be assigned a score according to a mathematical formula. The lowest cost response will be awarded the total points. Responses with higher cost response values will be awarded proportionately fewer points calculated in comparison with the lowest cost response.

The scoring formula is:

\[
\text{Points} = \left( \frac{\text{Lowest submitted cost response}}{\text{cost of response being scored}} \right) \times \text{Points}
\]

The University will NOT seek a best and final offer (BAFO) from any Respondent in this procurement process. All Respondents are expected to provide their best value pricing with the submission of their response. Respondents will NOT be given another opportunity to modify pricing once submitted.

2.1.2.2 Contract for Services (Appendix D & E)

The evaluation team will use a consensus approach to evaluate and assign evaluation based on pass/fail decision based on University risk assessment. The University reserves the right to reject any or all responses, in whole or in part, for any response receiving no points in this section in accordance with Section 2.2 Award.

Responses will be evaluated using the following guidelines:
a. Full acceptance of the terms and conditions with the Respondents signature on the Agreement signature page, will receive the total points noted in Table 2.1.1.

b. Revisions to the Agreement provisions specified in Section 1.2.1.2 will receive point reductions based on the University's risk assessment.

c. Revisions to the Agreement provisions other than those specified in Section 1.2.1.2 will be evaluated at the University's discretion based on the University's risk assessment.

2.1.2.3 Organization, Qualifications, Experience and References
The evaluation team will use a consensus approach to evaluate and assign evaluation points. Reference checks will be performed on the top Respondent(s) only as determined by consensus scoring in the other categories.

2.1.2.4 Implementation, Training, Support and Reporting
The evaluation team will use a consensus approach to evaluate and assign evaluation points.

2.1.2.5 Functional Evaluation
The evaluation team will use a consensus approach to evaluate and assign evaluation points.

2.1.2.6 Accessibility
The evaluation team will use a consensus approach to evaluate and assign evaluation points.

2.1.2.7 Information Technology Security
The evaluation team will use a consensus approach to evaluate and assign evaluation points.

2.1.2.8 Information Technology
The evaluation team will use a consensus approach to evaluate and assign evaluation points.

2.2 Award
While the University prefers a single solution that is scalable to meet the needs of both large and small institutions, it reserves the right to award Agreement(s) to one or multiple Respondents, which may include awards to Respondents for a geographical area, if such award is in the best interest of the University.

The University reserves the right to waive minor irregularities, which may include contacting the Respondent to resolve the irregularity. Scholarships, donations, or gifts to the University, will not be considered in the evaluation of responses. The University reserves the right to reject any or all responses, in whole or in part, and is not necessarily bound to accept the lowest cost response if that response is contrary to the best interests of the University. The University may cancel this request or reject any or all responses in whole or in part. Should the University determine in its sole discretion that only one Respondent
is fully qualified, or that one Respondent is clearly more qualified than any other under consideration, an Agreement may be awarded to that Respondent without further action.

2.3 Negotiations

The University reserves the right to negotiate with the successful Respondent to finalize a contract. Such negotiations may not significantly vary the content, nature or requirements of the proposal or the University’s Request for Proposals to an extent that may affect the price of goods or services requested. The University reserves the right to terminate contract negotiations with a selected respondent who submits a proposed contract significantly different from the response they submitted in response to the advertised RFP. In the event that an acceptable contract cannot be negotiated with the highest ranked Respondent, the University may withdraw its award and negotiate with the next-highest ranked Respondent, and so on, until an acceptable contract has been finalized. Alternatively, the University may cancel the RFP, at its sole discretion.

2.4 Award Protest

Respondents may appeal the award decision by submitting a written protest to the University of Maine System’s Chief General Services Officer within five (5) business days of the date of the award notice, with a copy of the protest to the successful Respondent. The protest must contain a statement of the basis for the challenge. Further information regarding the appeal process can be found at

If this RFP results in the creation of a pre-qualified or pre-approved list of vendors, then the appeal procedures mentioned above are available upon the original determination of that vendor list, but not during subsequent competitive procedures involving only the pre-qualified or pre-approved list participants.
3.0 RESPONSE FORMAT REQUIREMENTS

3.1 General Format Instructions

3.1.1 Electronic Submissions
Documents submitted as part of the electronic response are to be prepared on standard electronic formats of 8-1/2” x 11” and of PDF file type. Submissions requiring additional supporting information, such as, foldouts containing charts, spreadsheets, and oversize exhibits are permissible and must be submitted as Appendices, clearly numbered and referencing the Section in which they provide supporting information.

For clarity, the Respondent’s name should appear on every document page, including Appendices. Each Appendix must reference the section or subsection number to which it corresponds.

3.1.2 Respondents Responsibility
It is the responsibility of the Respondent to provide all information requested in the document package at the time of submission. Failure to provide information requested in this document may, at the discretion of the University’s evaluation review team, result in a lower rating for the incomplete sections and may result in the response being disqualified for consideration. Include any forms provided in the application package or reproduce those forms as closely as possible. All information should be presented in the same order and format as described in this document.

3.1.3 Brief Response
Respondents are asked to be brief and to respond to each question listed in the “Response to Questions” section of this document. Number each response in the response to correspond to the relevant question in this document.

3.1.4 Additional Attachments Prohibited
The Respondent may not provide additional attachments beyond those specified in the document for the purpose of extending their response. Any material exceeding the response limit will not be considered in rating the response and will not be returned. Respondents shall not include brochures or other promotional material with their response. Additional materials will not be considered part of the response and will not be evaluated.

3.2 Response Format Instructions
This section contains instructions for Respondents to use in preparing their response. The Respondent’s submission must follow the outline used below, including the numbering of section and sub-section headings. Failure to use the outline specified in this section or to respond to all questions and instructions throughout this document may result in the response being disqualified as non-responsive or receiving a reduced score.

The University and its evaluation team for this document have sole discretion to determine whether a variance from the document specifications should result in either disqualification or reduction in scoring of a response.
Re-phrasing of the content provided in this document will, at best, be considered minimally responsive. The University seeks detailed yet succinct responses that demonstrate the Respondent’s experience and ability to perform the requirements specified throughout this document.

3.2.1 **Section 1 - Response Cover Page**
- 3.2.1.1 Label this response - **Section 1** – UMS Response Cover Page
- 3.2.1.2 Insert Appendix A – University of Maine System Response Cover Page
- 3.2.1.3 Insert Appendix B – Debarment, Performance and Non-Collusion Certification

3.2.2 **Section 2 - Cost Response**
- 3.2.2.1 Label this response - **Section 2** – Cost Evaluation
- 3.2.2.2 Insert Appendix C – Required Cost Evaluation Exhibits

3.2.3 **Section 3 - Contract for Services**
- 3.2.3.1 Label this response - **Section 3** – Contract for Services
- 3.2.3.2 Insert Appendix D – Contract for Services
- 3.2.3.3 Insert Appendix E – Master Agreement

3.2.4 **Section 4 - Response to Questions**
- 3.2.4.1 Label this response - **Section 4** – Response to Evaluation Questions & Related Information
- 3.2.4.2 Insert Appendix F – Organization Reference Form
- 3.2.4.3 Insert Appendix G – Evaluation Question(s) - Organization, Qualifications and Experience
- 3.2.4.4 Insert Appendix H – Evaluation Question(s) – Functional Evaluation
- 3.2.4.5 Insert Appendix I – Evaluation Question(s) – Implementation, Training, Support and Reporting
- 3.2.4.6 Insert Appendix J – Evaluation – Accessibility Requirements
  - Voluntary Product Accessibility Template (VPAT)
  - Detailed Description of Accessibility features.
- 3.2.4.7 Insert Appendix K – Evaluation Question(s) – Information Technology Security
- 3.2.4.8 Insert Appendix L – Evaluation Question(s) – Information Technology

1. This pricing structure contained herein will remain firm for a period of 90 days from the date and time of the quote deadline date.
2. No personnel currently employed by the University or any other University agency participated, either directly or indirectly, in any activities relating to the preparation of the Respondent’s response.
3. No attempt has been made or will be made by the Respondent to induce any other person or firm to submit or not to submit a response.
4. The undersigned is authorized to enter into contractual obligations on behalf of the above-named organization.
5. By submitting a response to a Request for Proposal, bid or other offer to do business with the University your entity understands and agrees that:
   a. The Agreement provisions in Section 1.2.1.2 of this document will not be modified and are thereby incorporated into any agreement entered into between University and your entity; that such terms and condition shall control in the event of any conflict with such agreement; and that your entity will not propose or demand any contrary terms;
   b. The above Agreement provisions in Section 1.2.1.2 of this document will govern the interpretation of such agreement notwithstanding the expression of any other term and/or condition to the contrary;
   c. Your entity agrees that the resulting Agreement will be the entire agreement between the University (including University’s employees and other End Users) and Respondent and in the event that the Respondent requires terms of use agreements or other agreements, policies or understanding, whether on an order form, invoice, website, electronic, click-through, verbal or in writing, with University’s employees or other End Users, such agreements shall be null, void and without effect, and the terms of the Agreement shall apply.
   d. Your entity will identify at the time of submission which, if any, portion or your submitted materials are entitled to "trade secret" exemption from disclosure under Maine’s Freedom of Access Act; that failure to so identify will authorize UMS to conclude that no portions are so exempt; and that your entity will defend, indemnify and hold harmless UMS in any and all legal actions that seek to compel UMS to disclose under Maine’s Freedom of Access Act some or all of your submitted materials and/or contract, if any, executed between UMS and your entity.
To the best of my knowledge all information provided in the enclosed response, both programmatic and financial, is complete and accurate at the time of submission.

Appendix B – Debarment, Performance and Non-Collusion Certification

University of Maine System
DEBARMENT, PERFORMANCE and NON-COLLUSION CERTIFICATION
RFP # 2020-002
ITSM/PPM Solution

By signing this document, I certify to the best of my knowledge and belief that the aforementioned organization, its principals and any subcontractors named in this proposal:

a. Are not presently debarred, suspended, proposed for debarment, and declared ineligible or voluntarily excluded from bidding or working on contracts issued by any governmental agency.

b. Have not within three years of submitting the proposal for this contract been convicted of or had a civil judgment rendered against them for:
   i. Fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a federal, state or local government transaction or contract.
   ii. Violating Federal or State antitrust statutes or committing embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
   iii. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or Local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and
   iv. Have not within a three (3) year period preceding this proposal had one or more federal, state or local government transactions terminated for cause or default.

c. Have not entered into a prior understanding, agreement, or connection with any corporation, firm, or person submitting a response for the same materials, supplies, equipment, or services and this proposal is in all respects fair and without collusion or fraud. The above mentioned entities understand and agree that collusive bidding is a violation of state and federal law and can result in fines, prison sentences, and civil damage awards.

Failure to provide this certification may result in the disqualification of the Respondent’s proposal, at the University’s discretion.

Appendix C – Required Cost Evaluation Exhibits

University of Maine System
COST EVALUATION

RFP # 2020-002
ITSM/PPM Solution

GENERAL INSTRUCTIONS:

1. The Respondent must submit a cost response that covers the entire period of the Agreement, including any optional renewal periods.

2. The cost response shall include the costs necessary for the Respondent to fully comply with the Agreement terms and conditions and requirements. Note regarding total cost of ownership: This “cost” will encompass the entire solution pricing along with all products and services offered as part of the solution.

3. Failure to provide the requested information and to follow the required cost response format provided in Appendix C may result in the exclusion of the Response from consideration, at the discretion of the University. You can add rows and columns required to insert additional information. If a particular cost table is not required as part of your response simply leave it blank.

4. No costs related to the preparation of the Response for this document or to the negotiation of the Agreement with the University may be included in the Response. Only costs to be incurred after the Agreement effective date that are specifically related to the implementation or operation of contracted services may be included.

5. Identify all costs by year, to be charged for performing the services necessary to accomplish the objectives of this document.

6. If there are additional options or services that are not included in the offering, they must be identified and itemized as “optional” and include a description of the product or service and the costs of the option. All items identified in the response (including third party items required) will be considered free add-ons to the proposed solution at the prices included in this response unless expressly stated otherwise.

7. Respondents’ are encouraged to provide additional price incentives for providing an enterprise solution, multi-year or award of multiple institutions.

8. Pricing will be guaranteed by the vendor for the term of the Agreement.

9. The University will NOT seek a best and final offer (BAFO) from any Respondent in this procurement process. All Respondents are expected to provide their best value pricing with the submission of their response. Respondents will NOT be given another opportunity to modify pricing once submitted.

10. An MS Excel Version must be included in your final submission for all of these tables. For a copy of the excel version, email the contact provided on the cover page of this document.
### INSTRUCTIONS FOR – Exhibit 1 (Table 1) - Licensing and Maintenance Agreement Pricing and/or Data Maintenance / Subscription Pricing

The University needs to understand the associated lifecycle costs for your proposed system or service. For solution responses that leverage the University’s existing hardware and software investments, the Respondent must provide which licenses and maintenance agreements the University needs to maintain. For solution responses that do not leverage the University’s existing hardware and software investments, the Respondent must provide what additional equipment, licenses, and maintenance agreements we would need to purchase.

**Respondent’s Organization Name** – Provide the Respondent’s Organization Name.

**University Name** – Institution name pertaining to the costs related to the solution.

**Item Description** - Provide a brief description of your product or service.

**Initial Cost “One Time” Training** – Provide any initial ‘one-time’ costs associated with the solution for training costs.

**Initial Cost “One Time” Implementation** – Provide any initial ‘one-time’ costs associated with the solution for implementation costs.

**Initial Cost “One Time” Other** - Provide any initial ‘one-time’ costs associated with the solution other than year 1 licensing and support, training and implementation costs.

**Cost (Year 1 – 5)** - All licensing and maintenance agreement pricing should include rates during the Agreement period, and anticipated future rates. Rates will be calculated based on Current Active User FTE provided.

**Optional Renewal (Year 6 – 7)** - All licensing and maintenance agreement pricing should include rates during the Agreement period, and anticipated future rates.

**Extended Cost** – Total of Initial Term Years 1 – 5

**Subtotal** – Subtotal of the Extended Cost figures.

**Less Discount** – Discount offered off the Subtotal figure.

**Total** – Subtotal less Discount.
Exhibit 1 (Table 1) – Respondents will use this attachment to record all costs associated with this section. For a copy of the excel version of Exhibit 1, email the contact provided on the cover page of this document.

University of Maine System RFP
Rev. 07/01/2018

Page 25 of 63
INSTRUCTIONS FOR - Exhibit 1 (Table 3) - Pricing for Custom Features Deliverables

Provide rate schedule for the high-level deliverables defined RFP Section 1.1.4 Scope of Work.

Costs for subcontractors are to be broken out separately.

**Respondent's Organization Name** – Provide the Respondent’s Organization Name.

**Deliverable Name** - Provide a brief name for the deliverable.

**Role/Position Title (Exhibit 1 Table 3)** - List each role/position title from your organization that would be responsible for contributing to completion of the deliverable. Bidder will replace verbiage 'Position Title 1', etc. with the appropriate actual role/position title in **Exhibit 1 (Table 2)**.

**Hours** – Note the total hours that will be required to provide the contribution necessary to complete the deliverable for each role/position title.

**Hourly Rate** - The hourly dollar amount that may be invoiced by role/position title.

**Cost Estimate** – Calculation of the (Hours x Hourly Rate = Cost Estimate)

**Sub-Total** – Provide a sub-total for each deliverable.

**Total** – Total cost for all deliverables to complete the work for the specified University campus.

Your list of deliverables should trace back to the objectives and requirements listed in this document. Where a requirement is addressed by your product or service without customization, indicate that under the Explanation and reference the Licensing and Maintenance schedule above.

Total compensation for services rendered and deliverables shall include any hourly billing rate and all expected related expenses, both actual and administrative.

**Less Discount** – Discount offered off the Subtotal figure.

**Grand Total** – Subtotal less Discount.
Exhibit 1 (Table 3) – Respondents will use this attachment to record all costs associated with this section. For a copy of the excel version of Exhibit 1, email the contact provided on the cover page of this document.

Appendix D – Contract for Services

UNIVERSITY OF MAINE SYSTEM
MASTER AGREEMENT

This Master Agreement ("Agreement") entered into this _____ day of __________, _____, by and between the University of Maine System, hereinafter referred to as the "University", and ____________________________________, hereinafter referred to as "Contractor".

WITNESSETH, that for and in consideration of the payments and agreements hereinafter mentioned, to be made and performed by the University, the Contractor hereby agrees with the University to provide the products and services described in this agreement, and the following Riders, hereby incorporated into this Agreement and made part of it by reference:

Rider A - Specifications of Work to be Performed
Rider A-1 – Pricing
Rider B – Insurance Requirements
Rider C – University of Maine System Standards for Safeguarding Information
Rider D – Services Engagement Form

Contract Amendments as required

Request for Proposal #2020-002 Issue Date July 24, 2019 Titled Consulting Services: ITSM/PPM Business Analyst

Contractor’s Bid in Response to Request for Proposal #2020-002 Proposal Submission Date August 23, 2019 Titled Consulting Services: ITSM/PPM Business Analyst

WHEREAS, the University desires to enter into a contract for professional services, and the Contractor represents itself as competent and qualified to accomplish the specific requirements of this Contract to the satisfaction of the University;

NOW THEREFORE, in consideration of the mutual promises contained herein, the parties hereby agree as follows:

This Agreement, along with any documents identified, which are incorporated by reference, constitutes the entire Agreement between the parties, and there are no other or further written or oral understandings or agreements with respect thereto.

1. Specifications of Work: The Contractor agrees to perform the Specifications of Work as described in Rider A, hereby incorporated by reference.

Rider A provides a suite of services offered by the Contractor to the University. As required by the University institutions, the parties will develop jointly specific Services Engagement documents. The required format of this document is detailed in Rider D. The document will be governed by all the terms in this agreement; except that the engagement administrator for purposes of managing the service deliverables may be different than this Agreement Administrator and the term may be different than the term of the agreement but may not extend beyond this Agreement termination date. The Services
Engagement document will be fully executed by the parties. Institutions may execute more than one agreement for services to support their needs over the term of this Agreement.

2. **Term:** This Contract shall commence on October 21, 2019 and shall terminate on October 20, 2024, unless terminated earlier as provided in this Contract with option for three (3) one (1) year renewals upon the parties’ mutual written agreement.

3. **Payment:**
   
   A. Payment shall be made upon submittal of an electronic invoice to the University by the Contractor on a net 30 basis unless discount terms are offered. In the event there is a discrepancy with the invoice, payment terms shall be effective starting on the date the discrepancy is resolved, for only that portion of the invoice that is disputed. Invoices must include a purchase order number.
   
   B. “Additional Services” The University will have the option to purchase additional services under this Agreement. As required by the University institutions, the parties will develop jointly specific Services Engagement documents. The required format of this document is detailed in Rider D.

4. **Termination:** The Agreement or a Services Engagement (Rider D) may be terminated by the University in whole, or in part, whenever for any reason the University shall determine that such termination is in the best interest of the University. Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of the Agreement is terminated and the date on which such termination becomes effective. The University shall pay all allowable costs incurred up to the effective date of termination. However, the Contractor shall not be reimbursed for any costs incurred after the effective date of termination.

5. **Obligations Upon Termination:** Any materials produced in performance of this agreement are the property of the University and shall be turned over to the University upon request. The University shall pay the Contractor for all services performed to the effective date of termination subject to offset of sums owed by the Contractor to the University.

6. **Non-A appropriation:** Notwithstanding any other provision of this Agreement, if the University is not appropriated sufficient funds to pay for the work to be performed under this Agreement or if funds are de-appropriated, then the University is not obligated to make payment under this Agreement.

7. **Conflict of Interest:** No officer or employee of the University shall participate in any decision relating to this contract which affects his or her personal interest in any entity in which he or she directly or indirectly has interest. No employee of the University shall have any interest, direct or indirect, in this contract or proceeds thereof.

8. **Modification:** This Contract may be modified or amended only in a writing signed by both parties.

9. **Assignment:** This Contract, or any part thereof, may not be assigned, transferred or subcontracted by the Contractor without the prior written consent of the University.

10. **Applicable Law:** This Contract shall be governed and interpreted according to the laws of the State of Maine.

11. **Administration:** David Demers shall be the University's authorized representative in all matters pertaining to the administration of the terms and conditions of this Contract.

12. **Non-Discrimination:** In the execution of the contract, the Contractor shall not discriminate on the basis of race, color, religion, sex, sexual orientation, transgender status or gender expression, national origin
or citizenship status, age, disability, genetic information, or veteran status and shall provide reasonable accommodations to qualified individuals with disabilities upon request. The university encourages the employment of qualified individuals with disabilities.

13. **Indemnification**: The Contractor shall comply with all applicable federal, state and local laws, rules, regulations, ordinances and orders relating to the services provided under this Contract. Contractor shall indemnify, defend and hold the University, its Trustees, officers, employees, and agents, harmless from and against any and all loss, liability, claims, damages, actions, lawsuits, judgments and costs, including reasonable attorney's fees, that the University may become liable to pay or defend arising from or attributable to any acts or omissions of the Contractor, its agents, employees or subcontractors, in performing its obligations under this Contract, including, without limitation, for violation of proprietary rights, copyrights, or rights of privacy, arising out of a publication, translation, reproduction, delivery, performance, use or disposition of any data furnished under the Contract or based on any libelous or other unlawful matter contained in such data.

14. **Contract Validity**: In the event one or more clauses of this Contract are declared invalid, void, unenforceable or illegal, that shall not affect the validity of the remaining portions of this Contract.

15. **Independent Contractor**: Contractor is an independent contractor of the University, not a partner, agent or joint venture of the University and neither Party shall hold itself out contrary to these terms by advertising or otherwise, nor shall either party be bound by any representation, act or omission whatsoever of the other. For U.S. entities, Contractor, its employees and subcontractors if any, is/are independent contractors for whom no Federal or State Income Tax will be deducted by the University, and for whom no retirement benefits, social security benefits, group health or life insurance, vacation and sick leave, Worker's Compensation and similar benefits available to University's employees will accrue. The parties further understand that annual information returns as required by the Internal Revenue Code and Maine Income Tax Law will be filed by the University with copies sent to Contractor. Contractor will be responsible for compliance with all applicable laws, rules and regulations involving but not limited to, employment, labor, Workers Compensation, hours of work, working conditions, payment of wages, and payment of taxes, such as unemployment, social security and other payroll taxes, including other applicable contributions from such persons when required by law.

16. **Intellectual Property**: Any information and/or materials, finished or unfinished, produced in performance of this Contract, and all of the rights pertaining thereto, are the property of the University and shall be turned over to the University upon request.

17. **Entire Contract**: This Contract sets forth the entire agreement between the parties on the subject matter hereof and replaces and supersedes all prior agreements on the subject, whether oral or written, express or implied. This Contract is the entire agreement between the University (including University's employees and other End Users) and Contractor. In the event that Contractor enters into terms of use agreements or other agreements, policies or understandings, whether on Contractor's purchase order, website, electronic, click-through, verbal or in writing, with University's employees or other End Users, such agreements shall be null, void and without effect, and the terms of this Contract shall apply. University will not be bound to any other terms and conditions set forth in any documents, agreements or policies posted on Contractor's website unless such terms and conditions are set forth in this Contract. Contractor may not unilaterally change any term or condition of this Contract.

18. **Licensing**: Contractor shall secure in its name and at its expense all federal, state, and local licenses and permits required for operation under this Contract. Contractor shall provide proof of such licensure or permit to the University prior to commencing work under this Contract.

19. **Record Keeping, Audit and Inspection of Records**: The Contractor shall maintain books, records and other compilations of data pertaining to the requirements of the Contract to the extent and in such detail as shall properly substantiate claims for payment under the Contract. All such records shall be kept for a period of seven years or for such longer period as specified herein. All retention periods start...
on the first day after the final payment of the Contract. If any litigation, claim, negotiation, audit or other action involving the records is commenced prior to the expiration of the applicable retention period, all records shall be retained until completion of the action and resolution of all issues resulting therefrom, or until the end of the applicable retention period, whichever is later. The University, the grantor agency (if any), or any of their authorized representatives shall have the right at reasonable times and upon reasonable notice, to examine and copy the books, records and other compilations of data of the Contractor pertaining to this Contract. Such access shall include on-site audits.

20. **Publicity, Publication, Reproduction and use of Contract's Products or Materials:** Unless otherwise provided by law or the University, title and possession of all data, reports, programs, software, equipment, furnishings and any other documentation or product paid for with University funds shall vest with the University. The Contractor shall at all times obtain the prior written approval of the University before it, any of its officers, agents, employees or subcontractors, either during or after termination of the Contract, makes any statement bearing on the work performed or data collected under this Contract to the press or issues any material for publication through any medium of communication. If the Contractor or any of its subcontractors publishes a work dealing with any aspect of performance under the Contract, or of the results and accomplishments attained in such performance, the University shall have a royalty free, non-exclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use the publication.

21. **Confidentiality:** The contractor shall comply with all laws and regulations relating to confidentiality and privacy including but not limited to any rules or regulations of the University.

22. **Force Majeure:** Neither party shall be liable to the other or be deemed to be in breach of this Contract for any failure or delay in rendering performance arising out of causes beyond its reasonable control and without its fault or negligence. Such causes may include, but are not limited to, acts of God or of a public enemy, fires, floods, epidemics, strikes, embargoes or unusually severe weather. Dates or time of performance shall be extended to the extent of delays excused by this section provided that the party whose performance is affected notifies the other promptly of the existence and nature of such delay.

23. **Notices:** Unless otherwise specified in an attachment hereto, any notice hereunder shall be in writing and addressed to the persons and addresses below.

**To the University:**

University of Maine System  
Robinson Hall  
46 University Drive  
Augusta, ME 04330

Attn: Contract Administration

   I. **Contractor’s Bid in Response to Request for Proposal #2020-002** Proposal Submission Date August 23, 2019 Titled Consulting Services: ITSM/PPM Business Analyst

26. **Multi-Institution Capabilities** University will have the option to include products and services under this Agreement to additional University institutions, this includes any additional University institutions formed during the term of this agreement, all facilities utilized by an institution including those managed and/or owned by a third party, and additional entities, such as, the University College a division of University of Maine at Augusta.

   **The Community College System and Maine Maritime Academy**, both public higher education institutions in the state, shall be permitted to piggyback off of the University’s contract if they should so desire. The Contractor agrees to further provide the products and services, with all the same terms and conditions applicable, to these additional entities.

27. **Smoking Policy**
   The University must comply with the "Workplace Smoking Act of 1985" and M.R.S.A. title 22, § 1541 et seq “Smoking Prohibited in Public Places.” In addition, University Institutions may have specific Smoking Prohibitions. The Respondent shall be responsible for the implementation and enforcements of these restrictions.

RIDER A
SPECIFICATIONS OF WORK TO BE PERFORMED

The Contractor agrees to the Specifications of Work to be Performed as follows:

INTENT AND PURPOSE

The University’s IT organization needs to implement an IT Service Management/Project Portfolio Management solution that will provide the tools necessary to enable the organization to improve how it manages resources, services, and service management and project portfolio processes in a manner that is consistently reliable, transparent, sustainable, measurable, and aligned with institutional priorities. The solution should assist in advancing IT towards greater organizational maturity in ITSM and PPM for the University through a thoughtful application of IT Service Management principles.

The organization currently utilizes a variety of commercial and self-developed applications to manage Information Technology services and processes across its unified, shared-service, multi-campus, IT service and support organization.

PRODUCT SCOPE OF WORK:

INFORMATION TECHNOLOGY OVERVIEW (Links to 2017 & 2018 State of IT reports)

University Services: Information Technology Services (US:IT) is the primary unified IT shared-services organization that serves all seven campuses and other system-wide shared-services organizations, such as HR, Finance, Facilities, etc. US:IT, led by its CIO, consists of over 200 employees who support hundreds of unique services across the following categories:

- Accounts, Access, & Passwords
- Advanced Computing
- Business Applications
- Computers, Hardware, & Printing
- Data analytics & reporting technologies
- Email, calendaring, & listserv
- Educational tools, online learning, & classroom technology
- Support & training
- Networks, telephones, & communications
- Project Management & professional services
- Safety & information security
- Servers, backup & monitoring
- Web development & hosting

CURRENT STATE of IT SERVICE MANAGEMENT and PORTFOLIO MANAGEMENT

In general our process maturity level in these areas falls between “Managed” and “Defined” where Projects are planned, performed, measured and controlled, while in general IT services are not. However, some organization-wide standards have been implemented, such as a single incident process, financial management, and service catalog.

- Incident and Service Request Management - Recently unified IT departments in one ticketing system with standard workflows.
- Knowledge Management
- Self-service - Current ITSM tool provides end-user entry point to knowledgebase and ability to create a non-service-specific request and check/update submitted requests.
• Service Catalog Management - Utilizing a standalone homegrown online Service Catalog application that is manually synced with other service management tools. Service Catalog is structured along the lines of the ECAR Category-Service-Service Offering model, which is important to preserve. Includes some aspects of Portfolio Management, such as upcoming and retired service offerings.
• Project Management & Professional Services (business analysis, training, communication, etc.)
• Config/Release Management (Jira)
• Financial Management - Recently completed first effort at IT service-based costing and customer allocation. While not a priority for integration, the ITSM solution needs to continue to support ongoing IT cost allocation.
• Service Level Management - Recently mapped service dependencies through IT service-based costing activity. Need some functionality to support SLA/OLA moving forward.

GOALS TO BE ACHIEVED
• Improved IT responsiveness and customer experience
• Empowerment of clients and IT support staff
• Increased awareness of IT Services and Projects across the institution
• Improved resource forecasting related to projects and IT strategy
• Reduced redundancy across IT services and projects
• Empowerment of IT staff to solve problems for customers as quickly and accurately as possible
• Illumination of service pain points
• Reduce internal effort required to maintain ITSM tools
• Improve accessibility of ITSM tools and products, such as “knowledge”, to those with disabilities.
• Ensure IT solutions that align with business strategy and maximize return on investment are prioritized and selected
• Facilitate fully informed and transparent resource requirements for new services, initiatives and changes

PRODUCT AND SERVICES SCOPE
Strategically, the preference is for a Software as a Service (SaaS) or Hybrid solution, but on-premise products will also be considered if the product’s functionality would best suit the expressed needs.

The services and solution are envisioned to include:
• Initial and ongoing consulting and implementation services, including UMS-specific recommendations for module implementation order, workflow development, metrics, etc.
• Migration from existing tools
• Long-term roadmap for process improvement and module implementation
• Provide structure and flexible processes to enable ITSM/PPM maturity ownership and growth
• Enhance our use of knowledge as an organization asset
• Standardize and streamline at least service/incident, asset, change/release, knowledge, and project portfolio management processes on one platform across the UMS.
• Deliver integrated tool set that brings all data together in actionable ways to support IT operations and staff across the organization
• Provide seamless integration among ITSM/PPM processes and key existing data sources.
• Provide a client portal that helps students, faculty and staff understand the services IT offers, and provide a mechanism for them to solve issues, submit self-serve requests and monitor the status of their requests, including seamless integration between portfolio, service catalog and service request workflows.
• Track the investment in services and assets throughout their lifecycle, which will enable the organization to evaluate its strategy, as well as its ability to execute according to the strategy.
• Includes support for a minimum set of management processes including:
  o Incident Management
  o Request Management
Service Portfolio Management
Service Level Management
Project Portfolio Management
Project Management
Problem Management
Knowledge Management
Asset and Configuration Management
Change Management

- Other service management processes that are considered optional at this time:
  - Release Management
  - Financial Management
  - IT Service Continuity Management
  - Availability Management
  - Information Security Management
  - Event Management
  - Capacity Management

**Additional Scope:** The Contractor shall permit product and services not covered herein to be added by mutual agreement, without voiding the provisions of the existing contract. The Contractor, for additional consideration, shall furnish additional such products and services to the University.

**PRICING:** Refer to RIDER A-1. Pricing will be valid for the term of the Agreement.

**PERFORMANCE TERMS AND CONDITIONS**

1. **Employees:** The Contractor shall employ only competent and satisfactory personnel and shall provide a sufficient number of employees to perform the required services efficiently and in a manner satisfactory to the University. If the University Contract Administrator notifies the Contractor in writing that any person employed on this Contract is incompetent, disorderly, or otherwise unsatisfactory, such person shall not again be utilized in the execution of this Contract without the prior written consent of the Contract Administrator.

2. **Business and Performance Reviews:** Recognizing that successful performance of this contract is dependent on favorable response, the Contractor shall meet at least quarterly with the Contract Administrator or designee for a business and performance review to evaluate operations and make necessary adjustments. These meetings will normally be conducted electronically but shall be face-to-face on demand. As part of these reviews, the University reserves the right to review equipment specifications quarterly and update equipment specifications accordingly. Contractor shall provide a single point of contact (i.e., relationship manager) and shall notify University in writing and in advance whenever there is a change to that single point of contact.

3. **Campus Visits:** The Contractor agrees to maintain good relations with the University. The Contractor shall make campus visits “as needed” on three days’ notice. The Contractor will coordinate campus visits with the University Services Information and Technology Department to ensure proper communication and sharing of information related to customer projects.

4. **Toll-Free Access:** The Contractor shall provide to the University, toll-free telephone access to technical support. The University prefers a unique toll-free telephone number just for the University. The Contractor shall provide an escalated support feature to ensure that unresolved support issues can be elevated to upper level management.

5. **Accessibility:** If the solution, services or deliverables include any Information or Communication Technology (ICT) containing a human-interface, such as an end-user software component, web pages or site, video or audio playback, file upload system, mobile device components, control panel, reports, documents, keypad, etc., the Contractor hereby warrants that the products and/or services to be provided under this agreement comply with the W3C's Web Content Accessibility Guidelines (WCAG) 2.0 Level AA and the Web Accessibility Initiative Accessible Rich Internet
Applications Suite (WAI-ARIA) 1.1 for web content

The Contractor agrees to promptly respond to and resolve any complaint regarding accessibility of its products or services which is brought to its attention and Contractor further agrees to indemnify and hold harmless the University of Maine System from any claim arising out of its failure to comply with the aforesaid requirements.

The University, at its discretion, may at any time test the Contractor’s products or services covered by this agreement to ensure compliance with the above standards.

Complaints, or testing, that results in findings of non-compliance, that are not corrected within 30 days of being reported to the Contractor in writing, shall constitute a breach of this agreement and shall be grounds for termination of this agreement and a pro-rated refund of fees paid by the University.

6. **Standards for Safeguarding Information:** The Contractor is expected to comply with these standards as outlined in *Rider C - University of Maine System Standards for Safeguarding Information*. Should the Contractor fail to comply with the standards and is unable to reasonably cure its noncompliance within 60 days, the University may terminate this agreement. The University will be entitled to receive a prorated refund measured from the effective date of the termination.

PRICING

<< INSTRUCTIONS - Details in Exhibit 1 will be inserted here during Agreement negotiations. No action needed for Respondent as part of their submission. >>
RIDER B
INSURANCE REQUIREMENTS

Contractor’s Liability Insurance: During the term of this agreement, the Contractor shall maintain the following insurance:

<table>
<thead>
<tr>
<th>#</th>
<th>Insurance Type</th>
<th>Coverage Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Commercial General Liability, including Product’s and Completed Operations</td>
<td>$1,000,000 per occurrence or more</td>
</tr>
<tr>
<td></td>
<td>(Written on an Occurrence-based form) (Bodily Injury and Property Damage)</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Vehicle Liability (Including Hired &amp; Non-Owned) (Bodily Injury and Property Damage)</td>
<td>$1,000,000 per occurrence or more</td>
</tr>
<tr>
<td>3</td>
<td>Workers Compensation (In Compliance with Maine and Federal Law)</td>
<td>Required for all personnel</td>
</tr>
<tr>
<td>4</td>
<td>Professional Liability Insurance (Agents, Consultants, Brokers, Lawyers, Financial, Engineers, or Medical Services)</td>
<td>$1,000,000 per occurrence or more</td>
</tr>
<tr>
<td>5</td>
<td>Cyber Liability Insurance (If PII or PHI is stored on systems managed by the provider, the coverage is mandatory.)</td>
<td>$1,000,000 per occurrence or more</td>
</tr>
</tbody>
</table>

Coverage limit requirements can be met with a single underlying insurance policy or through the combination of an underlying insurance policy plus an Umbrella insurance policy.

The University of Maine System shall be named as Additional Insured on the Commercial General Liability insurance.

Certificates of Insurance for all of the above insurance shall be filed with:

University of Maine System
Risk Manager
Robinson Hall
46 University Drive
Augusta, Maine 04330

Certificates shall be filed prior to the date of performance under this Agreement. Said certificates, in addition to proof of coverage, shall contain the standard statement pertaining to written notification in the event of cancellation, with a thirty (30) day notification period.

The University reserves the right to change the insurance requirement or to approve alternative insurances or limits, at the University’s discretion.
RIDER C
UNIVERSITY OF MAINE SYSTEM
STANDARDS FOR SAFEGUARDING INFORMATION

This Attachment addresses the Contractor's responsibility for safeguarding Compliant Data and Business Sensitive Information consistent with the University of Maine System's Information Security Policy and Standards. (infosecurity.maine.edu)

Compliant Data is defined as data that the University needs to protect in accordance with statute, contract, law or agreement. Examples include Family Educational Rights and Privacy Act (FERPA), Health Insurance Portability and Accountability Act (HIPAA), Gramm-Leach-Bliley Act (GLBA), Maine Notice of Risk to Personal Data Act, and the Payment Card Industry Data Security Standards (PCI-DSS).

Business Sensitive Information is defined as data which is not subject to statutory or contractual obligations but where the compromise or exposure of the information could result in damage or loss to the University.

1. Standards for Safeguarding Information: The Contractor agrees to implement reasonable and appropriate security measures to protect all systems that transmit, store or process Compliant Data and Business Sensitive Information or personally identifiable information from Compliant Data and Business Sensitive Information furnished by the University, or collected by the Contractor on behalf of the University, against loss of data, unauthorized use or disclosure, and take measures to adequately protect against unauthorized access and malware in the course of this engagement.

A. Compliant Data and Business Sensitive Information may include, but is not limited to names, addresses, phone numbers, financial information, bank account and credit card numbers, other employee and student personal information (including their academic record, etc.), Driver's License and Social Security numbers, in both paper and electronic format.

B. If information pertaining to student educational records is accessed, transferred, stored or processed by Contractor; Contractor shall protect such data in accordance with FERPA.

C. If information pertaining to protected health information is accessed, used, collected, transferred, stored or processed by Contractor; Contractor shall protect such data in accordance with HIPAA and Contractor shall sign and adhere to a Business Associate Agreement.

D. If Contractor engages in electronic commerce on behalf of the University or cardholder data relating to University activities is accessed, transferred, stored or processed by Contractor; Contractor shall protect such data in accordance with current PCI-DSS guidelines.

E. If information pertaining to protected "Customer Financial Information" is accessed, transferred, stored or processed by Contractor; Contractor shall protect such data in accordance with GLBA.

2. Prohibition of Unauthorized Use or Disclosure of Information: Contractor agrees to hold all information in strict confidence. Contractor shall not use or disclose information received from, or created or received by, Contractor on behalf of the University except as permitted or required by this Agreement, as required by law, or as otherwise authorized in writing by the University.

3. Return or Destruction of Compliant or Business Sensitive Information:

A. Except as provided in Section 3(B), upon termination, cancellation, or expiration of the Agreement, for any reason, Contractor shall cease and desist all uses and disclosures of Compliant Data or Business Sensitive Information and shall immediately return or destroy (if the University gives written permission to destroy) in a reasonable manner all such information received from the University, or created or received by Contractor on behalf of the University, provided, however, that Contractor shall reasonably cooperate with the University to ensure that no original information records are destroyed. This provision shall apply to information that is in the possession of subcontractors or agents of Contractor. Contractor shall retain no copies of University information, including any compilations derived from and allowing identification of
any individual’s confidential information. Except as provided in Section 3(B), Contractor shall return (or destroy) information within 30 days after termination, cancellation, or expiration of this Agreement.

B. In the event that Contractor determines that returning or destroying any such information is infeasible, Contractor shall provide to University notification of the conditions that make return or destruction infeasible. Upon mutual agreement of the Parties that return or destruction of such information is infeasible, Contractor shall extend the protections of this Agreement to such information and limit further uses and disclosures of such information to those purposes that make the return or destruction infeasible, for so long as Contractor maintains such information.

C. Contractor shall wipe or securely delete Compliant Data or Business Sensitive Information and personally identifiable information furnished by the University from storage media when no longer needed. Measures taken shall be commensurate with the standard for "clearing" as specified in the National Institute of Standards and Technology (NIST) Special Publication SP800-88: Guidelines for Media Sanitization, prior to disposal or reuse.

4. Term and Termination:
   A. This Attachment shall take effect upon execution and shall be in effect commensurate with the term of the Agreement

5. Subcontractors and Agents: If Contractor provides any Compliant Data or Business Sensitive Information received from the University, or created or received by Contractor on behalf of the University, to a subcontractor or agent, the Contractor shall require such subcontractor or agent to agree to the same restrictions and conditions as are imposed on Contractor by this Agreement.

6. Contractor shall control access to University data: All Contractor employees shall be adequately screened, commensurate with the sensitivity of their jobs. Contractor agrees to limit employee access to data on a need-to-know basis. Contractor shall impose a disciplinary process for employees not following privacy procedures. Contractor shall have a process to remove access to University data immediately upon termination or re-assignment of an employee by the Contractor.

7. Unless otherwise stated in the agreement, all Compliant Data or Business Sensitive Information is the property of the University and shall be turned over to the University upon request.

8. Contractor shall not amend or replace University-owned hardware, software or data without prior authorization of the University.

9. If mobile devices are used in the performance of this Agreement to access University Compliant Data or Business Sensitive Information, Contractor shall install and activate authentication and encryption capabilities on each mobile device in use.

10. Reporting of Unauthorized Disclosures or Misuse of Information: Contractor shall report to the University any use or disclosure of Compliant Data or Business Sensitive Information not authorized by this Agreement or in writing by the University. Contractor shall make the report to the University not more than one (1) business day after Contractor learns of such use or disclosure. Contractor’s report shall identify: (i) the nature of the unauthorized use or disclosure, (ii) the information used or disclosed, (iii) who made the unauthorized use or received the unauthorized disclosure, (iv) what Contractor has done or shall do to mitigate the effects of the unauthorized use or disclosure, and (v) what corrective action Contractor has taken or shall take to prevent future similar unauthorized use or disclosure. Contractor shall provide such other information, including a written report, as reasonably requested by the University. Contractor shall keep University informed on the progress of each step of the incident response. Contractor shall indemnify and hold University harmless from all liabilities, costs and damages arising out of or in any manner connected with the security breach or unauthorized use or disclosure by Contractor of any University Compliant Data or Business Sensitive Information. Contractor shall mitigate, to the extent practicable, any harmful effect that is known to Contractor of a security breach or use or disclosure of Compliant Data or Business Sensitive Information by Contractor.
in violation of the requirements of this Agreement. In addition to the rights of the Parties established by this Agreement, if the University reasonably determines in good faith that Contractor has materially breached any of its obligations, the University, in its sole discretion, shall have the right to:

- Inspect the data that has not been safeguarded and thus has resulted in the material breach, and/or
- Require Contractor to submit a plan of monitoring and reporting, as the University may determine necessary to maintain compliance with this Agreement; and/or Terminate the Agreement immediately.

11. Survival: The respective rights and obligations of Contractor under Section 12 of the Agreement or Section 3 of this Attachment shall survive the termination of this Agreement.

12. Contractor Hosted Data: If Contractor hosts University Compliant Data or Business Sensitive Data, in or on Contractor facilities, the following clauses apply.

   A. Contractor computers that host University Compliant Data or Business Sensitive Information shall be housed in secure areas that have adequate walls and entry control such as a card controlled entry or staffed reception desk. Only authorized personnel shall be allowed to enter and visitor entry will be strictly controlled.

   B. Contractor shall design and apply physical protection against damage from fire, flood, earthquake, explosion, civil unrest, and other forms of natural or man-made disasters. Contractor shall protect hosted systems with Uninterruptible Power Supply (UPS) devices sufficient to meet business continuity requirements.

   C. Contractor shall backup systems or media stored at a separate location with incremental back-ups at least daily and full back-ups at least weekly. Incremental and full back-ups shall be retained for 15 days and 45 days respectively. Contractor shall test restore procedures not less than once per year.

   D. Contractor shall provide for reasonable and adequate protection on its network and system to include firewall and intrusion detection/prevention.

   E. Contractor shall use strong encryption and certificate-based authentication on any server hosting on-line and e-commerce transactions with the University to ensure the confidentiality and non-repudiation of the transaction while crossing networks.

   F. The installation or modification of software on systems containing University Compliant Data or Business Sensitive Information shall be subject to formal change management procedures and segregation of duties requirements.

   G. Contractor who hosts University Compliant Data or Business Sensitive Information shall engage an independent third-party auditor to evaluate the information security controls not less than every two (2) years. Such evaluations shall be made available to the University upon request.

   H. Contractor shall require strong passwords for any user accessing personally identifiable information or data covered under law, regulation, or standard such as HIPAA, FERPA, or PCI. Strong passwords shall be at least eight characters long; contain at least one upper and one lower case alphabetic characters; and contain at least one numeric or special character.

13. If the Contractor provides system development, Compliant Data or Business Sensitive Information shall not be used in the development or test environments. Records that contain these types of data elements may be used if that data is first de-identified, masked or altered so that the original value is not recoverable. For programs that process University data, initial implementation as well as applied updates and modifications must be produced from specifically authorized and trusted program source libraries and personnel. Contractor shall provide documentation of a risk assessment of new system development or changes to a system.

Appendix E – Evaluation Question(s) – Master Agreement

This portion of the RFP contains special terms and conditions which will govern the resulting agreement, many of which are stated in Section 1.2 of the RFP, with more detail in Appendix D. Please indicate your acceptance for each special term by checking the “Agreed” box and initialing.

Should you take exception to any of these special terms and conditions you are required to note your exception directly below each of the respective terms in question. It should be noted that any exceptions may result in the disqualification of your proposal, lack of providing the required response or indicating terms will be negotiated post award will result in a zero (0) score for the Master Agreement evaluation criteria in Section 2.1.1.

1.1 Terms and Conditions of Agreement

As a result, of this RFP process, it is our expectation that an Agreement will be established between University and one or more of the Contractors. The Agreement will incorporate the relevant terms and conditions of this RFP and Contractor’s proposal (scope of work, pricing, service level agreement, warranty, implementation plan).

Upon award each successful Agreement or will sign a Master Agreement (Appendix D) with the University to sell goods and/or services. The Agreement will incorporate all the terms and conditions, pricing, specifications, and requirements of the RFP.

No representation is made that any quantities will be purchased or that services will be utilized.

☐  Agreed ___________

Initial

1.2 Agree to term other than what is specified or automatic renewals for term(s) greater than month-to-month.

Appendix D - 2. Term

The Agreement term will be for five (5) years with the option of four (4) one-year renewals. Exercise of any renewal option will require parities’ mutual written agreement.

☐  Agreed ___________

Initial

1.3 Agree to termination language other than what is provided in Appendix D, Section 4, 5, and 6.

Appendix D - 4. Termination: The Agreement or a Services Engagement (Rider D) may be terminated by the University in whole, or in part, whenever for any reason the University shall determine that such termination is in the best interest of the University. Any such termination shall be affected by delivery to the Agreement or of a Notice of Termination specifying the extent to which performance of the Agreement is terminated and the date on which such termination becomes effective. The University shall pay all allowable costs incurred up to the effective date of termination. However, the Agreement or shall not be reimbursed for any costs incurred after the effective date of termination.

☐  Agreed ___________

Initial
Appendix D - 5. Obligations Upon Termination: Any materials produced in performance of this agreement are the property of the University and shall be turned over to the University upon request. The University shall pay the Agreement or for all services performed to the effective date of termination subject to offset of sums owed by the Agreement or to the University.

☐ Agreed ____________
   Initial

Appendix D - 6. Non-Appropriation: Notwithstanding any other provision of this Agreement, if the University is not appropriated sufficient funds to pay for the work to be performed under this Agreement or if funds are de-appropriated, then the University is not obligated to make payment under this Agreement.

☐ Agreed ____________
   Initial

1.4 Permit an entity to change unilaterally any term or condition once the Agreement is signed;

Appendix D - 8. Modification: This Agreement may be modified or amended only in a writing signed by both parties.

☐ Agreed ____________
   Initial

1.5 Apply the law of a state other than Maine;

Appendix D - 10. Applicable Law: This Agreement shall be governed and interpreted according to the laws of the State of Maine

☐ Agreed ____________
   Initial

1.6 Provide any defense, hold harmless or indemnity;

Appendix D - 13. Indemnification
The Contractor shall comply with all applicable federal, state and local laws, rules, regulations, ordinances and orders relating to the services provided under this Contract. Contractor shall indemnify, defend and hold the University, its Trustees, officers, employees, and agents, harmless from and against any and all loss, liability, claims, damages, actions, lawsuits, judgments and costs, including reasonable attorney's fees, that the University may become liable to pay or defend arising from or attributable to any acts or omissions of the Contractor, its agents, employees or subcontractors, in performing its obligations under this Contract, including, without limitation, for violation of proprietary rights, copyrights, or rights of privacy, arising out of a publication, translation, reproduction, delivery, performance, use or disposition of any data furnished under the Contract or based on any libelous or other unlawful matter contained in such data.

☐ Agreed ____________
   Initial
1.7 Waive any statutory or constitutional immunity;
  □  Agreed __________
  Initial

1.8 Pay attorneys' fees, costs, expenses or liquidated damages;
  □  Agreed __________
  Initial

1.9 Accept any references to terms and conditions, privacy policies or any other websites, documents or conditions referenced outside of the Agreement.

Appendix D - 17. Entire Agreement:
This Agreement sets forth the entire agreement between the parties on the subject matter hereof and replaces and supersedes all prior agreements on the subject, whether oral or written, express or implied. This Agreement is the entire agreement between the University (including University's employees and other End Users) and Agreement or. In the event that Agreement or enters into terms of use agreements or other agreements, policies or understandings, whether on Contractor's purchase order, website, electronic, click-through, verbal or in writing, with University’s employees or other End Users, such agreements shall be null, void and without effect, and the terms of this Agreement shall apply. University will not be bound to any other terms and conditions set forth in any documents, agreements or policies posted on Contractor's website unless such terms and conditions are set forth in this Agreement. Agreement or may not unilaterally change any term or condition of this Agreement.
  □  Agreed __________
  Initial

1.10 Promise confidentiality in a manner contrary to Maine's Freedom of Access Act;

Appendix D - 21. Confidentiality:
The Agreement or shall comply with all laws and regulations relating to confidentiality and privacy including but not limited to any rules or regulations of the University.
  □  Agreed __________
  Initial

1.11 Procure types or amounts of insurance beyond those UMS already maintains or waive any rights of subrogation.
  □  Agreed __________
  Initial

1.12 Add any entity as an additional insured to UMS policies of insurance.
  □  Agreed __________
  Initial
Appendix F – Organization Reference Form

Respondent's Organization Name: ____________________________________________________________

INSTRUCTIONS: Provide a minimum of three (3) current professional references who may be contacted for verification of the Respondent’s professional qualifications to meet the requirements set forth herein. We strongly prefer references from higher education institutions similar in size and requirements to the University of Maine System, including those with multi-campus integrated solutions.

We request that the references include one long-standing customer (minimum of 3 year engagement) and one new customer (one who has been engaged with Respondent for less than one year).

Appendix G – Evaluation Question(s) - Organization, Qualifications and Experience

Respondent’s Organization Name: ________________________________________________

INSTRUCTIONS: Respondents shall ensure that all information required herein is submitted with the response. All information provided should be verifiable by documentation requested by the University. Failure to provide all information, inaccuracy or misstatement may be sufficient cause for rejection of the response or rescission of an award. Respondents are encouraged to provide any additional information describing operational abilities.

Evaluation Question(s)

1. Provide a statement describing your company to include name, number of employees, locations, number of years in business, number of years offering/supporting the proposed solution, and any and all acquisitions or mergers in the last five years. Is the company publicly or privately held?

2. If subcontractors are to be used, provide a list that specifies the name, address, phone number, contact person, and a brief description of the subcontractors’ organizational capacity and qualifications.

3. Describe your experience offering a solution for the business requirements identified in this document within higher education. Provide a client list that includes any and all higher education clients.

4. Provide a statement that explains why your company would be most qualified to provide products and services to the University of Maine System. What differentiates you from your competitors? In the response the Respondent must demonstrate that they are a recognized leader in the services and/or products covered in this document.

5. Describe your firm’s understanding of the current higher education needs for providing the products / services described in Specifications / Scope of Work detailed in this document. Include in your response what challenges do higher education organizations face in this area how would your solution support our goals?

6. Financial Stability
   No financial statements are required to be submitted with your responses, however, prior to an award the University may request audited financial statements from your company, credit reports and letters from your bank and suppliers.
Appendix H – Evaluation Question(s) – Functional Evaluation

FUNCTIONAL EVALUATION

General Questions

1. Has your product been certified by PinkVerifyTM or another ITSM tool assessment process. If so, please provide details of certification.
2. Describe the workflow capabilities of your product.
3. Describe your product’s ability to customize forms and templates and for which processes they are available.
4. Describe the solution’s communication capabilities, both internal and customer-facing, such as, but not limited to, integrations with ACD, email, Text/SMS, Chat/IM, Calendars, etc.
5. How does your product support innovative collaborative team and work structures, such as “swarming” in Incident and Problem resolution?

Incident Management

1. Describe how your product facilitates Incident Management

Request Management

1. Describe how your product facilitates Request Fulfillment.
2. Describe your product’s self-service approach and capabilities.
3. How does the solution support the intake of requests via email? Can the solution accept emails at multiple incoming addresses and route the differently?

Service Portfolio Management

1. Describe how your product facilitates Service Catalog Management.

Service Level Management

1. Describe how your product facilitates Service Level Management.

Project Portfolio Management

1. Describe your product’s Project Portfolio Management capabilities.
2. How does the solution support the project request process?
3. How does the solution support the project portfolio prioritization process?
4. How does the solution allow leadership to run resource capacity scenarios to support the scheduling process?

Project Management

1. Describe your product’s Project Management capabilities.
2. How does the solution support best practice project management processes and make it easy for users to implement them?
3. How is project status and health reported in the system? Describe the solution’s OOTB ability to publish project status information publicly.

Problem Management

1. Describe how your product facilitates Problem Management

Knowledge Management

1. Describe your product’s Service Knowledge Management Solution and how the SKMS within your product supports process areas and functions within the software. Examples include Capacity Management, Availability Management, Configuration Management, etc.
Asset and Configuration Management
1. Describe how your product facilitates Service Asset and Configuration Management.
2. Describe how your product facilitates Asset Management including its ability to update configuration items based on changes.
3. Describe how your product tracks software licensing

Change Management
1. Describe how your product facilitates Change Management.
Appendix I – Evaluation Question(s) –Implementation, Training, Support and Reporting

Respondent’s Organization Name: __________________________________________________________

All responses to the questions will reflect what is offered as part of the Respondent’s proposed solution. Respondents MUST indicate if the product or service requires modification, additional products or services, or if any other accommodation would be necessary to meet a requirement.

Evaluation Question(s) - Implementation Questions

1. Describe your recommended implementation strategy, best practice consulting options, and professional services. The University of Maine System requires the review of consultant’s credentials/experience and reserves the right to request replacement if he/she fails to meet expectations at any time.

2. Describe the steps your firm will take to understand the business model and functional needs of the client and ensure that during the configuration and implementation process the product will be applied for optimal performance and satisfaction.

3. It is expected that the Respondent will assign a Project Manager who will have responsibility for its implementation team, and who will partner with the University’s Project Manager.
   a. Describe your project management approach.
   b. What project management tools do you use?
   c. List the typical Project Management qualifications and/or certifications, such as PMP, held by the Project Manager(s) that would be assigned to this engagement.
   d. Project Management expectations are listed below. Provide a brief description about your company’s ability to provide all the services listed. If unable to provide any of the services, indicate what you are not able to provide or where your services deviate from what is listed.
      i. The Project Manager is to serve as single point of contact and coordinate all tasks with the UMS Project Manager.
      ii. Vendor Project Manager is to develop project schedule and plans.
      iii. Vendor Project Manager is to provide quality assurance and oversight for all vendor services.
      iv. Vendor Project Manager is to identify and schedule Vendor resources to meet project deliverables and timelines.
      v. Vendor Project Manager is to provide a detailed implementation plan.
      vi. Vendor Project Manager is to provide status reports including, but not be limited to, work completed, work underway, upcoming planned work, scheduled changes and delays.

4. Indicate your timeline from implementation start to “go live” date. Provide task lists and timelines for a standard implementation. A sample project plan would be helpful.

5. Describe the support your firm provides following the “go live” date and until the product is fully operational and functioning effectively to the satisfaction of the client.

6. Outline the staffing and composition of the implementation team.
   a. Include University staff and roles, Respondent staff and roles, and proposed hours required for successful implementation.
b. Indicate the time commitment to implement this solution including functional and technical resources within the University.

c. Describe the skill set required for the staff person responsible for configuration and implementation before and after “go-live”.

7. Identify any third-party Respondents involved in your implementation strategy and describe these relationships.
   a. Indicate whether these relationships are required or optional for implementation of the proposed solution.
   b. Provide detail associated costs and requirements related to the third party Respondent.
   c. Explain the process for managing the third party Respondent’s performance. Specifically, how are performance issues addressed.

8. Can the implementation be fast tracked, and if so, what are the options?

9. What release/version are you proposing for the University of Maine System and when is the next release/version due out?

10. Explain how patches or updates released during implementation would be handled. Describe the change management process.

11. Please provide a roadmap of your hardware/software solutions that reflects their present states as well as future states for at least the next 18 months.

12. Expectations for Implementation Design and Planning include the items listed below. Provide a brief description about your company’s ability to provide all the services listed. If unable to provide any of the services, indicate what you are not able to provide or where your services deviate from what is listed.
   a. Detailed design documents and diagrams for all components of the proposed system, whether On Premises or SaaS.
   b. For On-Premises systems, server hardware recommendations for initial planned implementations and expanded implementations.
   c. Storage hardware recommendations for initial planned implementations and expanded implementations.
   d. Recommendation on best approach for process implementation.
   e. Recommendation on University personnel required to support the system.
   f. Recommended conversion and migration approach (e.g., from various currently implemented solutions to proposed solution).
   g. Recommended test plans and procedures.
   h. Standard Operating Procedures conducive to an educational institution of our size.
   i. Recommended best business practices for use of the ITSM solution.
   j. Product documentation.

13. Expectations for Implementation Services include the items listed below. Provide a brief description about your company’s ability to provide all the services listed. If unable to provide any of the services, indicate what you are not able to provide or where your services deviate from what is listed.
   a. For On Premise systems, supply and install the application software on hardware provided by the University.
   b. Complete system implementation.
c. Setup and configuration of all integrations fully supported in the current release of the product including, but not limited to Active Directory and single sign-on.
d. Provide support staff during configuration acceptance tests.

14. Expectations for **Consulting & Professional Services** as part of Implementation include the items listed below. Provide a brief description about your company’s ability to provide all the services listed. If unable to provide any of the services, indicate what you are not able to provide or where your services deviate from what is listed.
   a. UMS-specific recommendations for module implementation order, workflow development, metrics, etc.
   b. Technical consulting and development of system integrations.
   c. Documentation of custom development and integrations.
   d. Data conversion and migration (e.g., from various currently implemented solutions to proposed solution).
   e. Technical consulting services on integrations with external systems (e.g., web services, external workflow, etc.).
   f. Process design and improvement.

**Evaluation Question(s) - Training Questions**

1. Describe the standard training included as part of implementation.

2. Describe ongoing training options available for functional and technical users.

3. Describe the training methods available such as on-site, online instructor led, online self-help, documentation, etc. Provide an example of each method where possible, e.g. written documentation or webinars.

4. Describe your training best practices and what you would recommend for a successful implementation of this product.

5. Are there any particular user areas where special or unusual training is required? If yes, please describe.

**Evaluation Question(s) - Support Questions**

1. Supply your firm’s mission statement or policy regarding customer satisfaction and support.

2. Explain what type of documentation, or help system, is included with this solution. Describe all documentation available online to IT support staff.

3. Is there a customer portal available for clients to report issues and obtain information via a knowledge base? Is the knowledge base available within the product’s back office?

4. Describe your incident, request and problem management processes. Describe these processes in terms of how the client submits a request, such as thru a service desk or website, and how you respond, thru resolution. What is the standard wait time for an initial response? Provide an example.

5. What is the process for an emergency, e.g. system down, from notification through resolution?

6. What services or events do you offer clients to maximize or leverage the features/functionality of the solution?
7. Describe how you manage on-going contact with your clients. Would the University of Maine System be assigned an account manager? What expertise would that person have to support our needs? What is the ongoing relationship between the account manager, support, and the product developers?

8. What is the process if a portion of the solution’s functionality does not meet the specific needs of the University after implementation, i.e. how would you proceed to “fix” the problem?

9. Describe your approach to ensuring and monitoring system performance. Do you provide dashboards showing system performance and health?

10. Please provide a sample Service Level Agreement (SLA) related to your services.

11. Please provide a detailed account of your actions should you miss a Service Level Agreement (SLA) requirement, if applicable. Include a description of the actions you would take to assure the lapse did not occur again. Would the University of Maine System be eligible for subscription fee credits as a result of the lapse?

12. What level of support should the UMS be expected to provide to ensure success in the use of your service? What is the standard support model, and what is the estimated effort involved for the UMS? Include your thoughts on the UMS responsibilities related to installation, problem investigation, software management (if not fully SaaS), and administration of the service.

13. How do you obtain and prioritize feedback for changes or enhancements to your solution? (i.e. user groups, customer service, company representatives, etc.) To what degree do you rely on developers outside your organization to stay on top/ahead of the quickly changing technology field and what types of contributions are they able to make?

14. How is the University notified and alerted to problems, bugs, issues, security holes, and new patches available?

15. Is there an active development community available for the University to participate in? How large is the community? Is a non-disclosure agreement (NDA) required for the University to participate? Is there a community-developed knowledge base? If so, please describe.

Evaluation Question(s) - Reporting

1. Does the system offer a set of delivered reports?
   a. Please describe, specifically identifying the most commonly used reports
   b. Provide examples/screen shots of delivered reports of various types.
   c. Are the delivered reports customizable?
   d. Are delivered reports customizable by end users or only IT users? What skills are needed to modify reports?

2. Describe any dashboards the system may offer.
   a. Describe and provide screenshots of this solution’s BI visualization tool capabilities.
   b. Describe, or provide examples/screen shots of, options for dashboard content.
   c. Are they customizable, and if so, in what ways?
   d. Can different users set up different dashboard content?

3. Describe in detail how the system can be used to generate ad-hoc and customized reports.
   a. What is the skill set needed to generate reports?
b. Can data from other databases be incorporated into these reports and if so how?

c. Can reports be run by user specified fields, i.e. date ranges?

d. If SaaS/hosted solutions, describe how the UMS can query any associated database.

4. Can reports be scheduled to run automatically and emailed to specific individuals, or groups of individuals? Please explain.

5. Does the product have the ability to export data into a spreadsheet/database for querying and reporting?
   a. Explain the methods by which this may be accomplished.
   b. List the data export formats that this solution supports (e.g. tsv/csv, Microsoft Excel, XML, HTML, proprietary format, etc.)
   c. List all systems and tools that this solution successfully integrates (e.g., Microsoft Excel, Microsoft Access, Oracle RDBMS, etc.), including the level of integration.

6. Is the system integrated with a third party reporting tool? If so, please explain.

7. Reporting security – Does the reporting security correlate to the security in the system? For example, those not able to view a particular field in the system, are not able to print a report with that field on it.
Appendix J – Evaluation - Accessibility Requirements (Updated 8/14/2018)

Respondent’s Organization Name: ________________________________________________

The University is required by policy and law to procure Information Technology products, services and materials, such as software, hardware, web services, media assets, etc., that provide substantially equivalent opportunity, access and ease of use to persons with disabilities.

Evaluation Question(s) - Accessibility Standards Compliance

1. If the solution includes any end-user-facing human interface, such as an end-user device software component, web pages, web site, video or audio playback, file upload, mobile device apps, etc., or produces electronic materials such as documents, PDFs, etc., Respondents will submit a part of their bid either, or both, of the following assessments covering all Information Technology-related products, services or components that users, managers, installers, system administrators, etc., are expected to interact with:

   a. Current and accurate "Voluntary Product Accessibility Template v2.x", or VPAT v2.x, (see http://www.itic.org/public-policy/accessibility), to document products and/or services' conformance and deviations from Section 508 of the Rehabilitation Act of 1973.

   and/or

   b. Detailed description of the accessibility features in the bid products and/or services that shows and explains compliance with and deviations from the guidelines of the "Web Content Accessibility Guidelines (WCAG) 2.0 Level AA" and "Web ARIA 1.1" published by www.w3.org.

Evaluation Question(s) - Accessibility Practices

1. If the solution includes any training materials or activities that include any electronic materials or delivery platforms, how do you ensure that such materials and platforms meet disability accessibility requirements, such as Section 508 or WCAG2.0?

2. How do you ensure that your customer support phone lines, help system, customer portal, knowledge base, end-user ticket system, etc., meet disability accessibility requirements, such as Section 508 or WCAG2.0?

3. How do you ensure that software/application changes, patches, new features, etc., do not introduce new disability accessibility errors/issues?

4. How you ensure that all mobile device interfaces to your solution comply with disability accessibility requirements such as Section 508 and/or WCAG2.0.

5. How do you ensure that emails and attachments sent by the software/applications, or by your staff, to University staff, faculty and/or students, comply with disability accessibility requirements, such as Section 508 or WCAG2.0.

6. How do you ensure that all reports produced by the software/application meet disability accessibility requirements, such as Section 508 and/or WCAG2.0, and that any PDF-formatted reports also meet these requirements?
Appendix K – Evaluation Question(s) – Information Security (Updated 8/14/2018)

Respondent’s Organization Name: ____________________________________________________________

All responses to the questions will reflect what is offered as part of the Respondent’s proposed solution. Respondents MUST indicate if the product or service requires modification, additional costs, products or services, or if any other accommodation would be necessary to meet a requirement.

Evaluation Question(s) – Technical Security Evaluation

1. Is any of your solution cloud-based, Software as a Service (SaaS) or hosted on any system that is not operated by the University of Maine System or is any sensitive data transmitted, stored, or processed by the bidder or a contractor of the bidder?

If the answer to Question 1 is yes, fill out the attached Educause-created Higher Education Cloud Vendor Assessment Tool - Lightweight version (HECVAT-Lite) spreadsheet. If the bidder has a previously completed full version of this tool (HECVAT), it can be submitted in lieu of the “lite” version.

When addressing HLAA-01 regarding password complexity the institution’s password complexity is as follows: At least eight characters length, contain at least one upper and one lowercase alphabetic characters, contain at least one numeric or special character, be changed at least annually and not be reused for at least 2 years.

Supplementary information that helps address the questions or describes the information security program and controls (such as a diagram for question HLAP-05) is welcome but is not to be substituted for answering the questions.

2. Does your product process protected health information (PHI) or any data covered by the Health Insurance Portability and Accountability Act (HIPAA)?

If the answer to Question 2 is yes, provide us with your latest HIPAA audit results. You will also be required to sign a business associate agreement.

3. Does your solution involves processing credit or debit card payment transactions?

If the answer to Question 3 is yes, provide your latest attestation of compliance (AoC) or Report on Compliance (RoC) and answer the questions below:

   a. Describe all the payment methods you would support (i.e. card-present, card-not-present, and e-commerce transactions as applicable).
   b. Do you intend on processing transactions using your merchant account or the University's merchant account?
   c. What processors are involved in transactions and do you support payments involving Touchnet?
   d. Comment on the level of compliance self-assessment (e.g. SAQ A, B, P2PE-HW, SAQ D) would the University likely be required to meet with your proposed solution? We understand any final determination of self-assessment is determined between the University and our QSA.

4. Is your company a consulting firm providing only consultation to the Institution?

If the answer to Question 4 is yes, answer the following questions:
   a. Will the consulting take place on-premises or remotely?
   b. Will the consultant require access to institution network resources?
   c. Will the consultant require access to hardware in the university data centers?
   d. Will the consultant require an account within the institutions domain (@.edu)?
e. Has the consultant received training on sensitive data handling?
f. Will any data be transferred to the consultant's possession?
g. How long will it remain in their possession?
h. Is it encrypted (at rest) while in the consultant's possession?
i. Will the consultant need remote access to the institution's network or systems?
j. What software will be used to facilitate that access?
k. Can we restrict that access based on source IP address?

5. Do you require Social Security Numbers to be used in your system?

If the answer to question 5 is yes, please explain the purpose of using this high-risk data element.

6. Include a statement that notes your acceptance to the conditions stated in University of Maine System, Contract for Services, Rider C. Standards for Safeguarding Information, as part of the agreement.
Appendix L – Evaluation Question(s) - Information Technology (Updated 8/14/2018)

Respondent’s Organization Name: ___________________________________________________________

All responses to the questions will reflect what is offered as part of the Respondent’s proposed solution. Respondents MUST indicate if the product or service requires modification, additional costs, products or services, or if any other accommodation would be necessary to meet a requirement.

Evaluation Question(s) - General Technical

1. Please describe your offering as a Service (SaaS)/hosted, and/or University onsite deployment environments.
   a. If onsite, detail the hardware, core product software, storage, and database requirements of each environment.
      i. Define server requirements and provide specifications (including recommended operating systems, web server software, etc.)
      ii. Describe details of network communications required between the web server, app server, database server, and any other required servers.
   b. If SaaS/hosted, list normal scheduled downtime frequency, standard day/time slots, etc.

2. Identify which components of your products or services are provided by third-party technology partners. This includes OEM software, hosting, internal application network, etc.
   a. Describe the underlying technologies for the component(s).
   b. Provide the third-party technology partner(s) name(s), address(es) and contact(s).
   c. Explain additional costs or fees associated with the components.

3. Describe practices and policies related to data stored by this solution.
   a. Clarify the data ownership rights and responsibilities of the parties and provisions for the University obtaining the data as needed even if the contract is terminated.
   b. Indicate how long data is stored or archived.

4. Provide a description of your change management practice for all hardware and software components.
   a. How often is the software updated and releases made available?
   b. How are we notified?
   c. Are updates and upgrades opt-in or mandatory?
   d. What provisions do you have for managing customization requested by the UMS?
   e. How are the updates accomplished?
   f. How do you ensure that the system functionality is sufficiently tested before changes go into production?
   g. What are the UMS options, roles and responsibilities for reviewing and approving changes?

5. Please describe the client interface minimum requirements and capabilities for your solution
   a. If PC or Mac client software is available for your solution
      i. What are the minimum hardware requirements for PC and Mac computers?
      ii. What are the minimum software requirements, including Operating Systems, plugins, or third-party dependencies?
   b. If a mobile client is available for your solution
i. Indicate supported mobile platforms (ie Android, Apple IOS, etc.) to include minimum hardware and software requirements.
ii. Describe the mobile capabilities available with the proposed solution.
c. If the client interface requires a web browser
   i. Provide detailed information regarding browser requirements for the software proposed to meet the functionality and system requirements of this RFP, including any specific required versions and/or add-ins.

6. Do you plan to offer a solution to integrate with an Identity Management System?
   a. If so, describe how you deliver this solution.
   b. Does your solution offer capabilities to use CAS or Shibboleth for Single Sign-On (SSO)?
      If not, then what do you offer?
   c. Describe your SSO implementation requirements.
   d. Do you deliver an API that would allow for the remote management of user authorization data? If so, describe how you deliver this solution.
   e. Is any functionality of the solution not available when using integrated Identity Management?
   f. Does identity management apply to both “agent” users and “customers”? Please describe.

7. Describe the ongoing functions to be performed by the University systems administrator and applications administrator?

8. What is the maximum number of concurrent users logged in simultaneously your system can support? Describe how your system defines concurrent users.

Evaluation Question(s) - Enterprise Service Management

The University of Maine System consists of seven unique institutions throughout the state and many unified and campus-based non-IT functional areas.

1. Describe your solution’s approach and capabilities in supporting the Service Management needs of multiple IT & non-IT university functional areas that may or may not be collaborating on service support and delivery activities.

Evaluation Question(s) - Technical Interface Data Exchange Requirements

The following provides the interface data exchange requirements for the Respondent’s solution.

1. Transfer of data will ONLY be accomplished using secure methods such as, but not limited to HTTPS, SCP, SFTP. Proposers must provide secure file transfer solutions and may recommend alternative processes if they would be beneficial to the UMS. Any alternatives must be described in detail and are subject to the UMS's approval. For all proposed methods of transmission, the Proposers must provide the technical requirements for establishing each method and processing transactions, a detailed description of security and authorization processes and requirements, including forms, delegation options, encryption or authentication requirements, and devices or digital certificates, alternatives available if a standard transmission method should fail, and disclose any software limitations on file sizes or numbers of records in a batch.

2. UMS prefers that whenever possible data is encrypted via PGP/GPG at rest and only decrypted when needed during processing.
3. All responses to the requirements should reflect delivered, or out-of-the-box, functionality. Respondents MUST indicate if system modification, additional products or Respondent's, costs or if any other accommodation would be necessary to meet a requirement.

Evaluation Question(s) – Technical Interface Data Exchange

1. Please indicate your acceptance and compliance with the high-level Interface Data Exchange Requirements outlined above, including your understanding that the Interface Data Exchange may require additional requirements definition and that your proposed solution considers this task and the resulting work in-scope. Indicate any areas of noncompliance or other concerns with these requirements.

2. Does your solution support needs for sharing data with other applications and databases?

3. Does your solution integrate with an ERP application, such as PeopleSoft? If so, please describe how your integration works – the data included, methods used, etc.

4. Does your solution allow easy integration with other applications including desktop tools, for example, Microsoft Office Professional Suite (Word, Excel, PowerPoint, Access Dataset)?

5. Does your product have open Application-Programming Interface (API) / Web Services for custom integration? If so, Describe in detail how the integration functions.
