

**REQUEST FOR BID #2020-072
MICROSOFT LICENSING
RESPONSE ADDENDUM #02
May 26, 2020**

CLARIFICATION

Clarification/addition of Purpose (1.1.3):

As our Microsoft VAR, we would be looking for procurement support of additional licensing, license fulfillment/issuance, licensing support, software subscription support, and invoice and billing support for subscription based licenses and services. This would include working with UMS to ensure that information flows efficiently between the Microsoft licensing and service portals to the University administrative systems.
