1.0 INTRODUCTION

1.1 Definitions, Background, Purpose and Specifications

1.1.1 Definitions

The University of Maine System will hereinafter be referred to as the "University." Respondents to the document shall be referred to as "Respondent(s)" or "Respondent".

The Respondent to whom the Agreement is awarded shall be referred to as the "Contractor."

The University of Maine System and other components of the University shall be referred to as "Multi-Institution".

1.1.2 Background

University of Maine at Augusta

Founded in 1965, the University of Maine at Augusta transforms the lives of students of every age and background across the State of Maine and beyond through access to high-quality distance and on-site education, excellence in student support, civic engagement, and professional and liberal arts programs. UMA is the third largest public university in Maine. A leader in distance education, UMA has a statewide presence with two campuses in Augusta and Bangor, eight UMA Centers from Saco to Houlton, and 32 course receive sites across Maine. Flexible modalities, with classes onsite, online, through video conference, Interactive Television, and at UMA Centers allow its students to take classes, while keeping work and family commitments. While UMA has a traditional-aged cohort, two-thirds of its students are over 25 years old. Over 50% of UMA’s students are first generation and 72% are Pell Grant eligible. These students are motivated to make a positive change in their lives by pursuing a college degree. With its multiple locations and long-term expertise in online and distance learning, UMA is generally considered the university of choice for Mainers of all ages who want to attend college without uprooting their lives.

1.1.3 Purpose

The University of Maine at Augusta is seeking responses to satisfy one immediate objective for the 2021 Academic Year:

Purchase Aircraft for UMA to service UMA’s Private Flight course

The University is exploring long term opportunities for its BS in Aviation program and will evaluate respondent’s ability to meet future programmatic goals as a value add in this RFP.

The University of Maine at Augusta began offering a BS in Aviation in 2014 as a public private partnership with an Augusta based flight training center – using the flight training center’s FAA Part 141 certificates. Due to changes in the Veterans' Administration funding rules for veterans seeking an aviation degree, it is required that the academic institution providing the program hold FAA Part 141 Air Agency Certification for the Private Pilot Certificate. To meet our mission goal of being “Veteran Friendly” UMA seeks to hold its own certificates for both Private Pilot Ground and Private Pilot Flight and manage its own planes and instructors.
Presently, the University holds the Code of Federal Regulations (CFR) Part 141 Air Agency Certificate for Private Pilot Ground Training, and the University has applied for the CFR Part 141 Air Agency Certificate for Private Pilot Flight Training. Our application for Private Pilot Flight is currently at the FAA for review.

Training Objective
The University’s flight school objective is to train students as professional pilots capable of flying the latest aircraft and managing the latest avionics, with the skill and confidence to operate in any flight environment. To satisfactorily meet this objective, training aircraft must be capable of teaching basic stick and rudder skills yet be high performance with sufficient power and aerodynamic characteristics such that students learn energy management, all weather flying, and pilot resource management.

Respondents should review 1.1.4 Specifications / Scope of Work of this document to see the full Scope of Services/Products required.

1.1.4 Specifications / Scope of Work
The University requests that respondents address their ability to successfully and expediently deliver the following items and services under the direction of UMA’s Aviation Coordinator:

Aircraft Specifications:
1. UMA will use a technically advanced aircraft that are manufactured after January 1, 2016 for Private, Instrument and Commercial flight training-to include provisions for flying in Instrument Meteorological Conditions (clouds).
2. Provided aircraft will be capable of Electronic Flight Instrument System (EFIS) data export to software applications such as Air Sync. This will allow for EFIS flight data to be compiled with other information from additional aviation resources, allowing students and flight instructors to analyze training flights and present the analysis of the flight via an interactive display for a post flight debriefing.
3. Bids for aircraft will be for purchase.
4. Considerations for aircraft will be based on the following capabilities:
   a. Overall safety performance over the last 5 years
   b. Ease of maintenance and immediate availability of parts
   c. Extended maintenance warranty with purchase of new aircraft as available
   d. Aircraft supplier will provide factory training for instructor pilots
   e. Aircraft will have a published interactive Flight Operations Manual available for use by students and instructors.
   f. Students must have access to factory-produced training that teaches aircraft systems and their operation, flight characteristics, and factory-recommended basic transition lessons.
   g. All aircraft will have a standard configuration.
   h. Aircraft will have capability of True Airspeed of over 145 Knots and a range of at least 500 Nautical Miles
   i. Aircraft should have a ballistic parachute recovery system
   j. Aircraft should have a service ceiling of at least 15,000 feet
k. Aircraft will be customized with the University of Maine at Augusta Logo/brand.

l. Aircraft will have the ability to download aircraft maintenance and flight parameters after each sortie (See 2 above).

m. Bids for aircraft will include the option of air conditioning.

n. Bids for aircraft will include a Tanis heater or equivalent.

o. Aircraft trend resale value if applicable.

5. All bids for aircraft will include a maintenance provision with 95% operational minimum and 24-hour replacement if needed.

b. The above Agreement provisions (Section 1.2.1.2) will govern the interpretation of such agreement notwithstanding the expression of any other term and/or condition to the contrary;

c. Your entity agrees that the resulting Agreement will be the entire agreement between the University (including University’s employees and other End Users) and Respondent and in the event that the Respondent requires terms of use agreements or other agreements, policies or understanding, whether on an order form, invoice, website, electronic, click-through, verbal or in writing, with University’s employees or other End Users, such agreements shall be null, void and without effect, and the terms of the Agreement shall apply.

d. Your entity will identify at the time of submission which, if any, portion or your submitted materials are entitled to "trade secret" exemption from disclosure under Maine's Freedom of Access Act; that failure to so identify will authorize UMS to conclude that no portions are so exempt; and that your entity will defend, indemnify and hold harmless UMS in any and all legal actions that seek to compel UMS to disclose under Maine's Freedom of Access Act some or all of your submitted materials and/or contract, if any, executed between UMS and your entity.

1.2.2 Communication with the University

It is the responsibility of the Respondent to inquire about any requirement of this document that is not understood. Responses to inquiries, if they change or clarify the document in a substantial manner, will be forwarded by addenda to all parties that have received a copy of the document. Addenda will also be posted on our web site, www.maine.edu/strategic/upcoming_bids.php

It is the responsibility of all Respondents to check the web site before submitting a response to ensure that they have all pertinent documents. The University will not be bound by oral responses to inquiries or written responses other than addenda.
Inquiries must be made using the Response Contact Information provided on the cover sheet of this document. Refer to table in Section 1.3.1 Timeline of Key Events for deadline requirements.

As a condition of submitting a response under this section, a respondent must accept that, to the extent required by the Maine FOAA, responses to this solicitation, and any ensuing contractual documents, are considered public records and therefore are subject to freedom of access requests.

The information contained in responses submitted for the University's consideration will be held in confidence until all evaluations are concluded and a Respondent selected (the successful Respondent). At that time the University will issue award notice letters to all participating Respondents and all Respondents' responses may be made available to participating Respondents upon request. Such request must be made by submitting a written request to the individual noted in the Response Contact Information shown on the cover sheet of this document, with a copy of the request provided to the other Respondents. Such requests are public records.

After the protest period has passed and the Agreement is fully executed, responses will be available for public inspection upon request.

The University will honor requests for confidentiality for information that meets the definition of “trade secret” under Maine law. Clearly mark any portion of your submitted materials which are entitled to “trade secret” exemption from disclosure under Maine's Freedom of Access Act. Failure to so identify as trade secret will authorize the University to conclude that no portions are so exempt; and that your entity will defend, indemnify and hold harmless the University in any and all legal actions that seek to compel the University to disclose under Maine's Freedom of Access Act some or all of your submitted materials and/or contract, if any, executed between the University and your entity.

Total Points 100

2.1.2 Scoring Section Descriptions

2.1.2.1 Cost Evaluation (Appendix C)

The total cost proposed for conducting all the functions specified in this document will be assigned a score according to a mathematical formula. The lowest cost response will be awarded the total points. Responses with higher cost response values will be awarded proportionately fewer points calculated in comparison with the lowest cost response.

The scoring formula is:

\[
\text{Points} = \frac{\text{Lowest submitted cost response}}{\text{cost of response being scored}} \times \text{Points}
\]

The University will NOT seek a best and final offer (BAFO) from any Respondent in this procurement process. All Respondents are expected to provide their best value pricing with the submission of their response. Respondents will NOT be given another opportunity to modify pricing once submitted.

2.1.2.2 Purchase Agreement and Contract for Services (Appendix D)

The evaluation team will use a consensus approach to evaluate and assign evaluation points based on University risk assessment. The University reserves the right to reject any or all responses, in whole or in part, for any response receiving no points in this section in accordance with Section 2.2 Award.

Responses will be evaluated using the following guidelines:

a. Full acceptance of the terms and conditions with the Respondents signature on the Agreement signature page, will receive the total points noted in Table 2.1.1.

b. Revisions to the Agreement provisions specified in Section 1.2.1.2 will receive point reductions based on the University’s risk assessment.
c. Revisions to the Agreement provisions other than those specified in Section 1.2.1.2 will be evaluated at the University’s discretion based on the University’s risk assessment.

2.1.2.3 Aircraft Assessment, Specification, Condition, History, Warranty (Appendix E)
The evaluation team will use a consensus approach to evaluate and assign evaluation points based on the material and specifications provided in response to meeting or exceeding the University’s Scope and Program goals noted within the RFP.

2.1.2.4 Training and Support (Appendix F)
The evaluation team will use a consensus approach to evaluate and assign evaluation points.

2.2 Award
While the University prefers a single solution that is scalable to meet the needs of both large and small institutions, it reserves the right to award Agreement(s) to one or multiple Respondents, which may include awards to Respondents for a geographical area, if such award is in the best interest of the University.

The University reserves the right to waive minor irregularities, which may include contacting the Respondent to resolve the irregularity. Scholarships, donations, or gifts to the University, will not be considered in the evaluation of responses. The University reserves the right to reject any or all responses, in whole or in part, and is not necessarily bound to accept the lowest cost response if that response is contrary to the best interests of the University. The University may cancel this request or reject any or all responses in whole or in part. Should the University determine in its sole discretion that only one Respondent is fully qualified, or that one Respondent is clearly more qualified than any other under consideration, an Agreement may be awarded to that Respondent without further action.

2.3 Negotiations
The University reserves the right to negotiate with the successful Respondent to finalize a contract. Such negotiations may not significantly vary the content, nature or requirements of the proposal or the University’s Request for Proposals to an extent that may affect the price of goods or services requested. The University reserves the right to terminate contract negotiations with a selected respondent who submits a proposed contract significantly different from the response they submitted in response to the advertised RFP. In the event that an acceptable contract cannot be negotiated with the highest ranked Respondent, the University may withdraw its award and negotiate with the next-higher ranked Respondent, and so on, until an acceptable contract has been finalized. Alternatively, the University may cancel the RFP, at its sole discretion.

2.4 Award Protest
Respondents may appeal the award decision by submitting a written protest to the University of Maine System’s Chief General Services Officer within five (5) business days of the date of the award notice, with a copy of the protest to the successful Respondent. The protest must contain a statement of the basis for the challenge. Further information regarding the appeal process can be found at

If this RFP results in the creation of a pre-qualified or pre-approved list of vendors, then the appeal procedures mentioned above are available upon the original determination of that vendor list, but not during subsequent competitive procedures involving only the pre-qualified or pre-approved list participants.
3.0 RESPONSE FORMAT REQUIREMENTS

3.1 General Format Instructions

The Respondent’s submission must follow the outline used below, including the numbering of section and sub-section headings. Failure to use the outline specified in this section or to respond to all questions and instructions throughout this document may result in the response being disqualified as non-responsive or receiving a reduced score.
