

REQUEST FOR PROPOSALS #2022-021
Managed Print Services
RESPONSE ADDENDUM #1
December 15, 2021

CLARIFICATION

1. Submission Deadline is modified to January 21, 2022 on or before 11:59 pm EST.
2. We are removing the RFP requirement for the Perceptive solution.

QUESTIONS

Q1: Moving forward, how will the University acquire product? Will it be via lease, installment purchase or outright purchase. If lease or installment purchase, will those agreements need to be co-terminus to end in the 5 year period of this RFP? Your MSA does not specify the hardware acquisition type.

A1: The selected vendor will provide hardware based the terms of the agreed upon contract.

Q2: What is the University's Plan B in the event that no other vendor will be able to support the current Canon devices?

A2: Should the scenario present itself we will consider options at that time.

Q3: Will there be a centralized university group or team that will work with the chosen vendor to identify areas of optimization and build a comprehensive print policy strategy that will be communicated out to each department and will there be some level of executive sponsorship to enforce the print policy is adhered to?

A3: There will be a centralized team and sponsor that will partner with the Contractor.

Q4: There is mention of three separate print management solutions in use today at UMS, PaperCut, Pharos, and Uniflow. Is there a requirement that UMS continues with all three solutions? i.e. feature/functionality requirements, license commitments, etc.

A4: PaperCut is the enterprise solution. The plan is that Pharos will migrate to PaperCut. Uniflow is only used with the Canon devices

Q5: Would UMS be open to standardizing on one of these three offerings to provide a more cost effective solution that meets all feature/functionality requirements?

A5: Yes with PaperCut

Q6: What versions of the PaperCut, Pharos, and Uniflow solutions are you running today?

A6: All products have maintenance agreements, so Latest versions are available.

Q7: Do you own the software licensing for PaperCut, Pharos, and Uniflow?

A7: All products have maintenance agreements, so Latest versions are available.

Q8: Do you have current AM&S in place for support for PaperCut, Pharos, and Uniflow?

A8: Yes

Q9: How many years remaining on current AM&S for PaperCut, Pharos, and Uniflow?

A9: These are annual support licenses.

Q10: Do you utilize a 3rd party provider to manage the PaperCut, Pharos, and Uniflow software?

A10: No

Q11: How many licenses do you have today of the PaperCut, Pharos, and Uniflow solution?

A11: PaperCut MF with Transact licensed gateway and 1 device license.

Q12: What MFP manufacturers do you currently have licenses for on the PaperCut, Pharos, and Uniflow solutions?

A12: PaperCut MF with 1 device license.

Q13: Do you own the server infrastructure PaperCut, Pharos, and Uniflow is currently implemented on?

A13: Yes

Q14: How many print servers do you have PaperCut, Pharos, and Uniflow deployed on today?

A14: 1 PaperCut has one Windows Print Server and one Linux CUPS server.
Pharos and Uniflow have one each, but those two will be going away.

Q15: Are you using badge readers today? What is the make/model?

A15: Current badge readers are Transact MF4100 readers which are end of life and would need replacement.

Q16: Do you require 11x17 capability on all units?

A16: No

Q17: Do you require finishing (staple) on all models?

A17: Yes – preferred

Q18: Are we able to get an idea of the layout so we can recommend our consolidation solution to reduce equipment and optimize efficiency?

A18: The response does not require an analysis of the existing deployment. We would expect that analysis to be performed once an award is made and contract is executed.

Q19: Will we have the opportunity to provide a demo unit?

A19: Discussions on demo units will occur once an award is made and contract is executed. We will want to review a demo unit and a demo billing.

Q20: Can we get a better idea of how many Canon units you are looking to replace when the RFP is awarded and how many you are looking to keep in service?

A20: [You should assume the list provided in RFP Exhibit 2, filename 06 - 2022-021-RFP-IT-Exhibit 2 - UMS Canon Equipment List is the complete list of devices that are to be managed. You will help us determine which devices need immediate replacement and which devices can stagger replacement.](#)

Q21: Part of our plan is for consolidation and optimizing efficiency throughout the campuses, without knowing the layout how can we explain our capabilities of reducing your fleet and utilizing our solutions so accomplish consolidation and efficiency?

A21: [The response does not require an analysis of the existing deployment. We would expect that analysis to be performed once an award is made and contract is executed.](#)

Q22: What is the expectation for the awarded vendor for implementation?

A22: [Please review RFP Sections 1.1.3, 1.1.4 and Appendix H2](#)

Q23: How do we show costs for different models (speeds accessories ect)

A23: [Please review Appendix C, Exhibit 1 Table 2.](#)

Q24: How do you foresee utilizing scanning into your perspective document management system please respond in detail?

A24: [Not at this time](#)

Q25: Who is your current papercut vendor?

A25: [SymQuest, with ACDI 2nd Tier support](#)

Q26: Will your current network printers require secure release/ follow me print? HP, Brother, etc..If not will some and how many. Will any of these printers require transact communication?

A26: [UMS would require all network Printers and MFPs, that remain as part of the Optimized fleet, to support secure release/follow me print. UMS would require PaperCut integration with Transact.](#)

Q27: Will you require Transact readers? Or are they only required on student printing example the Library and lab? MFP's only?

A27: [MFP's will need card readers and the Transact MRD5, or the superseding replacement, is the required equipment.](#)

Q28: Appendix H2 – Solution Requirements Matrix is listed to be included Section 4 – Response Questions as well as being inserted in Section 3 as part of Appendix D – Master Agreement (3.2.3.2). Please confirm H2 needs to be provided in both sections.

A28: [Please respond to the Appendix H2 in that section only. This information will later be added to Appendix D – Master Agreement once an award is made.](#)

Q29: Appendix K – Information Technology is listed (3.2.4.9) as a required item to be included in Section 4. Appendix K was not included in the bid package. Please provide Appendix K.

A29: [Please disregard the reference to Appendix K](#)

Q30: Is a proposal/pricing to support the UMS existing fleet during transition required as part of the RFP Submission. If yes, what billing model is required?

A30: [Yes](#)

Q31: Can UMS provide a complete list of devices which highlights those devices still under contract/lease and corresponding termination dates and those devices which are considered critical.

A31: [You should assume the list provided in RFP Exhibit 2, filename 06 - 2022-021-RFP-IT-Exhibit 2 - UMS Canon Equipment List is the complete list of devices that are to be managed.](#)

Q32: What is the expected SLA? Is the SLA the same for the entire fleet, or will there be varying SLA expectations depending on model, usage, and device location?

A32: [Please assume there will be one SLA for the entire fleet. As part of your response please provide what you can offer in terms of an SLA.](#)

Q33: Would the University of Maine System allow a Respondent to reference an existing contract, such as the State of Maine, to cover the terms and conditions of a final award?

A33: [No](#)

Q34: In the Order of Precedence section, the Statement of Work is not referenced. Is that part of the Rider or where would that document fall within the order of precedence? Due to the type of work being performed, we would expect to be allowed to include a Statement of Work. Would you please confirm.

A34: [Statement of Work is part of Master Agreement, Rider A. The University's SOW will be included in Rider A, please refer to RFP Exhibit 2, filename 06 - 2022-021-RFP-IT-Exhibit 2 - UMS Canon Equipment List](#)

Q35: Could you please describe your current workflow with Perceptive content?

A35: [Please ignore RFP references to Perceptive, we are removing the requirement.](#)

Q36: Do all MFPs currently have card readers? If not, how many would be needed?

A36: [Currently a limited number of copiers have Transact MF4100 external readers which function as "coin validators". The Transact MF4100's are end of life. For compatibility to UMS cards copiers would require to have Transact MRD5 readers with compatible software to integrate "release" or "follow me" printing. All MFP's would need a card reader.](#)

Q37: What happens if the awarded vendor is not authorized to service Canon devices?

A37: [The Respondent has options for securing an authorized service provider as part of their response.](#)

Q38: Does Canon currently provide firmware updates to the Uniflow system? Are you looking to maintain that throughout the transition period?

A38: No

Q39: Would the University of Maine System be open to the idea of remanufactured zero meter equipment I.e.100% environmentally friendly products which aligns to organizations sustainability goals?

A39: Yes

Q40: Are we able to get a more comprehensive list of existing fleet? Current list only provide print driver name. Could you provide model and location?

- Also if available usage per device?

A40: [The response does not require an analysis of the existing deployment. We would expect that analysis to be performed once an award is made and contract is executed. You should assume the list provided in RFP Exhibit 2, filename 06 - 2022-021-RFP-IT-Exhibit 2 - UMS Canon Equipment List is the complete list of devices that are to be managed.](#)

Q41: Can you provide what version of PaperCut MF you're running?

A41: All products have maintenance agreements, so Latest versions are available.

Q42: Can you please provide when M&S expires for both PaperCut and Pharos?

A42: This is an annual agreement

Q43: Can you provide how many of your current devices are running PaperCut?

A43: [130 Printers and MFP's currently have print queue's through PaperCut. We do not currently have any devices leveraging the PaperCut MF MEAP device based integration.](#)

Q44: Are there any site servers that you're running with PaperCut?

A44: We are not using site servers.

Q45: Are you utilizing Mobility Print with PaperCut?

A45: Yes

Q46: Are you using the Print Deploy feature through PaperCut?

A46: Yes

Q47: Are you currently using the 'Follow-me' PaperCut feature between campuses? If not, are you looking for this feature in the future? Are you running on a single domain or multi-domains?

A47: [No we are currently not using the "Follow-me" feature but would desire that as part of a future solution. We are using a single AD domain.](#)

Q48: Are you currently utilizing either cards, fob or PIN for device authentication? If so, can you please provide the format of card or fob? Standard HID, iClass, Magstripe?

A48: [Currently using PIN for authentication. Required card integration would be through the Transact MRD5 and integration through Papercut. Card Technology is MIFARE DESFire EV1 \(4k\).](#)

Q49: Would you consider remote application administration to manage the steady state of the PaperCut application?

A49: [Yes](#)

Q50: Have you considered secure cloud faxing? Can you provide any more detail on the network fax solution that was referenced during the vendor meeting?

A50: [We run on-prem Opentext XM Fax \(formerly XMedius Fax\) which is available to all UMS staff/faculty. Currently in our environment, MFDs can take advantage of our FoIP service by using the scan to email functionality. All UMS MFDs with that function configured are able to fax through our Opentext XM Fax service. We would be interested in hearing what options vendors had to integrate directly with Opentext/XMedius. There are several MFD companies that Opentext makes fax plug-ins available to integrate directly with the fax servers.](#)

Q51: Can you please explain your current scanning workflow into Perceptive? Are you currently utilizing a hot folder or a watch folder?

- What's the expectation of what users are scanning? 10-20 pages or whole filing cabinets worth of documents?

A51: [Please ignore RFP references to Perceptive, we are removing the requirement.](#)

Q52: What are you currently using for secure file transfer?

A52: [We are currently scan to a Windows File Server using SMBv3.](#)

Q53: Would University of Maine accept a full or partial managed service offering where the winning vendor provides a full-time employee on-site to help manage fleet?

A53: [Responses must provide a fully managed service offering, which may include a partnership for geographical areas of the State.](#)

Q54: Is it possible to get a list of addresses of all 35 campus "locations"?

A54: [There are only seven campuses. There are other areas that we operate. A list is provided in Exhibit 3 at the end of this addendum](#)

Q55: Is it possible to provide floor plans of each campus? How many employees work at each location and then department name per floor/location? How many machines per location?

A55: [The response does not require an analysis of the existing deployment. We would expect that analysis to be performed once an award is made and contract is executed.](#)

Q56: Do you know what your outsourced print costs are each year?

A56: No. We do not know the outsourced print costs each year.

Q57: Are OEM supplies required or can Non-OEM supplies (toner) be offered?

A57: [UMS would accept supplies that meet the service requirements and device manufactures requirements.](#)

Q58: What ITSM is the University of Maine System currently using to process service/ supply request?

A58: [Call the current vendor for the copiers or order via UMS marketplace for other MFP and printers](#)

Q59: What is the current process for end users to request service and supplies?

A59: [Call the current vendor for the copiers or order via UMS marketplace for other MFP and printers](#)

Q60: What is the current SLA for a technician arriving on site? Is the SLA the same for Multi-Function and Single Function printers the same?

A60: [Please assume there will be one SLA for the entire fleet. As part of your response please provide what you can offer in terms of an SLA](#)

Q61: What is the current IMAC-D (installs, moves, adds, changes, and disposal) Process?

A61: [We are seeking your guidance on the best process for managing the fleet.](#)

Q62: Mapping of locations showing the location of printers for consolidation recommendations.

A62: [The response does not require an analysis of the existing deployment. We would expect that analysis to be performed once an award is made and contract is executed.](#)

Q63: The University of Maine owns all equipment being replaced- 12 of the fleet are not owned by The University of Maine.

A63: [Yes](#)

Q64: Volumes of individual printers and MFP's?

A64: [Please review current inventory list provided as RFP Exhibit 2 and table in RFP Section 1.1.3](#)

Q65: Departments not included in the RFP?

A65: [None](#)

Q66: How many unmanaged printers, and are they all on the various campuses?

A66: [There are 298 and they are set at the campuses.](#)

Q67: Central location for the pickup of empty or used supplies.

A67: [The Respondent is being asked to supply full services to manage the fleet.](#)

Q68: Current licenses and maintenance agreements with contract obligations.

[A68: We will share that information with the RFP awardee](#)

Q69: Supplies shipped directly to the department or central areas on campuses?

[A69: Directly to the departments via campus mail room.](#)

Q70: To be considered for the RFP, the Canon legacy printers not being replaced must be serviced by all potential awardees?

[A70: Yes](#)

Q71: Is the new bidder responsible for relocating legacy equipment and reinstalling the equipment?

[A71: Yes](#)

Q72: Does the present equipment not being replaced need to be on a cost per page?

[A72: No](#)

Q73: Will the other respondent's questions and answers be shared with all potential bidders?

[A73: Yes](#)

Q74: Is there a fee for using Paymode X? If so, please elaborate on the amount or how the amount is determined.

[A74: Payees may choose Premium ACH or basic through PaymodeX and Bank of America. Premium is charged 1.5% that behaves like a credit card exchange fee. The fee may be deducted directly from the payment or handled through direct debit on a weekly basis from the payee to Bank of America, the payee chooses. The differences between the services available between Basic and Premium are attached in Exhibit 4 to this Addendum.](#)

Q75: The RFP asks for a total price for Managed Print Services per year but no indication of how many units will be in use. Most office equipment dealers only sell and support a few brands so knowing how many units will be covered under a support agreement is the only way to provide this price. I realize that part of what you're looking for is support in how to consolidate but we need a way to price that out. How many units does USM expect to replace each year?

[A75: The price should be determined based on the current inventory list provided as RFP Exhibit 2 and table in RFP Section 1.1.3](#)

Q76: Along with question 2, since most dealers only support certain brands are you open to having new equipment serviced by the new vendor and the existing Canon devices supported by a second vendor?

[A76: No](#)

Q77: For any copiers currently under a lease can you please indicate the models, number of devices included, time left on the lease and let us know if service is included in the lease?

[A77: The last unit on lease will end on 1/6/2022](#)

Q78: Is every location part of the UMS network? If not, is a solution like PaperCut currently in use at those locations?

A78: [Large percentage of the locations are part of the UMS network. For those not PaperCut is not used.](#)

Q79: Can you be more specific as to what would cause termination for any reason? Would you accept adding rectifying language to the agreement? For example, vendor would have opportunity to correct the issue in a timely manner, 7 days or 15 days.

A79: [Please review the RFP Section 1.2.1 and Appendix E](#)

Real Vendor Value Drives Adoption

- Convenient, secure electronic payments
- Streamlined payment processing
- Ability to track incoming payments
- Enhanced remittance information and faster cash application
- Secure storage of bank account information

EXHIBIT 4

FEATURES & BENEFITS	PREMIUM ACH	BASIC
Faster electronic payments	✓	✓
Payment notification via email 24 hours prior to receipt	✓	✓
Mitigation of risk of payment fraud, account takeover and email compromise	✓	✓
Access to audited payment detail 24 x 7	✓	✓
Ability to update account information online	✓	✓
Payment Tracker	✓	✓
Rich remittance detail in a format of your choice (Excel, CSV, CTX, XML, BA1.v2, 835, email or custom AR file)	✓	
Voice-enabled mobile app for easy access to payment information	✓	
Request payment status online	✓	
"My Payers" functionality to track and trend your largest customers	✓	
Ability to easily share critical documents such as W -8 & W -9's with your customers via the portal	✓	
Searchable graphical and list views of payment data	✓	
Ability to submit invoices electronically, track status, and prioritize customer follow -up by invoice age or amount	✓	
Vendor Connect – enables Payers in the network to find your business	✓	
Vendor Spotlight – Advertise with Paymode -X	✓
