**REQUEST FOR BID #2022-067
SECURITY ORCHESTRATION, AUTOMATION, AND RESPONSE (SOAR)
SOLUTION
RESPONSE ADDENDUM #02
April 7, 2022**

QUESTIONS

1. Total number of site locations: (specify number of site locations that even and log data will be collected from):
   We will not be ingesting large volumes of data into this SOAR solution. We will be ingesting alerts and modest amounts of contextual data from the tools & platforms mentioned in RFP.

2. Compliance Requirements: No specific compliance requirements.

3. Number of Employees: (estimated number of employees, to forecast volume of certain log sources)
   We will not be ingesting large volumes of data into this SOAR solution. Employee count available here:https://www.maine.edu/human-resources/human-resources/reports/

4. High Availability: (is HA required?)
   See RFB, we are looking for a SaaS solution.

5. Disaster Recovery: (provides a warm standby solution with automatic replication and manual failover)
   See RFB, we are seeking a SaaS solution.

6. Number of users that would need to be monitored:
   No requirement to monitor users.

7. File integrity monitoring required?
   No requirement to perform FIM.

8. Registry Integrity Monitoring required?
   No requirement to perform RIM.

9. Networking monitor?
   No requirement to perform network monitoring.
