1.0 INTRODUCTION

1.1 Definitions, Background, Purpose and Specifications

1.1.1 Definitions

The University of Maine System will hereinafter be referred to as the "University." Respondents to the document shall be referred to as "Respondent(s)" or "Respondent".

The Respondent to whom the Agreement is awarded shall be referred to as the "Contractor."

The University of Maine System and other components of the University shall be referred to as "Multi-Institution".

1.1.2 Background

Overview

Established in 1968, the University of Maine System (UMS) unites six distinctive public universities, comprising 10 campuses and numerous centers, in the common purpose of providing quality higher education while delivering on its traditional tripartite mission of teaching, research, and public service.

A comprehensive public institution of higher education, UMS serves more than 30,000 students annually and is supported by the efforts of more than 2,000 full-time and part-time faculty, more than 3,000 regular full-time and part-time staff, and a complement of part-time temporary (adjunct) faculty.

Reaching more than 500,000 people annually through educational and cultural offerings, the University of Maine System also benefits from more than two-thirds of its alumni population residing within the state; more than 123,000 individuals.

The System consists of six universities: The University of Maine (UMaine), including its regional campus the University of Maine at Machias (UMM); the University of Maine at Augusta (UMA); the University of Maine at Farmington (UMF); the University of Maine at Fort Kent (UMFK), the University of Maine at Presque Isle (UMPI); and the University of Southern Maine (USM). The System also includes the University of Maine School of Law and the University of Maine Graduate and Professional Center.

1.1.3 Purpose

The University of Southern Maine is seeking responses to provide Snow Removal and Sanding, Gorham Campus only as defined in this document. This document provides instructions for submitting responses, the procedure and criteria by which the Respondent(s) will be selected, and the contractual terms which will govern the relationship between the University and the awarded Respondent(s).

Respondents should review **1.1.4 Specifications / Scope of Work** of this document to see the full Scope of Services/Products required.

The University is committed to providing increased access and opportunity to diverse businesses include and not limited to: Lesbian, Gay, Bisexual and

Transgender Business Enterprise (LGBTQ+BE); Minority Business Enterprise (MBE); Service-Disabled Veteran Business Enterprise (SDVBE); Small Business Enterprise (SBE); veteran-owned; service-disabled veteran-owned; HUBZone; small disadvantaged business; women-owned; minority-owned; Veteran Business Enterprise (VBE); and Women’s Business Enterprise (WBE).

1.1.4 Specifications / Scope of Work

Work under this contract includes plowing snow, sanding and salting areas described in Attachment A according to requirements of this solicitation generally beginning November 1st and ending May 15th. The actual beginning and ending dates may vary, depending upon weather conditions. The Contractor shall fulfill the requirements of this contract whether or not the dates are earlier or later than stated.

The University’s Gorham campus has approximately 570,000 +/- square feet of parking area and approximately 2.5 square miles of roadway. These areas must be cleared of accumulated, drifted, and ice-packed snow, sanded and salted, when necessary, prior to 7:00 a.m. Both campuses have students entering and leaving the campus at all hours as well as being involved in many campus activities regardless of weather. The Gorham campus never closes. All roadways on the Gorham campus must be kept open throughout a winter storm event. In order to properly clear all parking lots of snow, the day following a storm, a parking ban **MAY** be called by the campus Grounds Department. The contractor will be required to return to campus and plow the resident student lots which will be cleared of parked cars as a result of the parking ban. Snow must be cleared to locations specified by the grounds coordinator to minimize the loss of existing parking spaces throughout the snow season. Snow plowing will begin after accumulation of 2” of snow under normal conditions, but will be subject to the University’s discretion. Currently the University treats the roads prior to storms. A sand/salt mix must be provided by the Contractor and spread **when requested** or if conditions require application. The staging location will G-13C. Fuel tanks may be stored, with the University’s approval, on campus however will need to meet all Federal/State/Local/University rules and regulations and be required to have a locking mechanism to prevent unauthorized usage / spillage.

The University seeks additional pricing for Gorham and Portland campuses. The University will determine, in its sole discretion, if the University will add additional services listed below to the services listed above.

Additional Services / Pricing, Gorham Campus:

Additionally, the University seeks separate pricing for snow removal and sanding/salting of all sidewalks up to the doors of all buildings on the Gorham Campus. This would be considered a full “turn-key” snow removal for the Gorham Campus. The University will provide salt/sand mix to the Contractor.

Additional Services / Pricing, Portland Campus:

Additionally, the University seeks separate pricing for snow removal of two large University owned parking lots- P6 and P9 on the Portland Campus map. Sanding/salting of University roadways and parking lots will be completed by the University.

The University will honor requests for confidentiality for information that meets the definition of "trade secret" under Maine law. Clearly mark any portion of your submitted materials which are entitled to "trade secret" exemption from disclosure under Maine's Freedom of Access Act. Failure to so identify as trade secret will authorize the University to conclude that no portions are so exempt; and that your entity will defend, indemnify and hold harmless the University in any and all legal actions that seek to compel the University to disclose under Maine's Freedom of Access Act some or all of your submitted materials and/or contract, if any, executed between the University and your entity.

The score will be based on a 100-point scale and will measure the degree to which each response meets the following criteria:

Evaluation Appendices	Category	Points
Appendix C	Cost Evaluation	30
Appendix D & D1	Master Agreement	10
Appendix E & F	Organization, Qualifications, Experience and References	60
Total Points		100

2.1.2 Scoring Section Descriptions

2.1.2.1 Cost Evaluation

The total cost proposed for conducting all the functions specified in this document will be assigned a score according to a mathematical formula. The lowest cost response will be awarded the total points. Responses with higher cost response values will be awarded proportionately fewer points calculated in comparison with the lowest cost response.

The scoring formula is:

(Lowest submitted cost response / cost of response being scored) x **Points** = pro-rated score

The University will NOT seek a best and final offer (BAFO) from any Respondent in this procurement process. All Respondents are expected to provide their best value pricing with the submission of their response. Respondents will NOT be given another opportunity to modify pricing once submitted.

2.1.2.2 Master Agreement (Appendix D and D1)

The evaluation team will use a consensus approach to evaluate and assign evaluation based on pass/fail decision based on University risk assessment. The University reserves the right to reject any or all responses, in whole or in part, for any response receiving no points in this section in accordance with Section 2.2 Award.

Responses will be evaluated using the following guidelines:

- a. Full acceptance of the terms and conditions with the Respondents signature on the Agreement signature page, will receive the total points noted in Table 2.1.1.
- b. Revisions to the Agreement provisions specified in Section 1.2.1.2 will receive point reductions based on the University's risk assessment.

- c. Revisions to the Agreement provisions other than those specified in Section 1.2.1.2 will be evaluated at the University’s discretion based on the University’s risk assessment.

2.1.2.3 Organization, Qualifications, Experience and References

The evaluation team will use a consensus approach to evaluate and assign evaluation points. Reference checks will be performed on the top Respondent(s) only as determined by consensus scoring in the other categories.

2.2 Award

While the University prefers a single solution that is scalable to meet the needs of both large and small institutions, it reserves the right to award Agreement(s) to one or multiple Respondents, which may include awards to Respondents for a geographical area, if such award is in the best interest of the University.

The University reserves the right to waive minor irregularities, which may include contacting the Respondent to resolve the irregularity. Scholarships, donations, or gifts to the University, will not be considered in the evaluation of responses. The University reserves the right to reject any or all responses, in whole or in part, and is not necessarily bound to accept the lowest cost response if that response is contrary to the best interests of the University. The University may cancel this request or reject any or all responses in whole or in part. Should the University determine in its sole discretion that only one Respondent is fully qualified, or that one Respondent is clearly more qualified than any other under consideration, an Agreement may be awarded to that Respondent without further action.

2.3 Negotiations

The University reserves the right to negotiate with the successful Respondent to finalize a contract. Such negotiations may not significantly vary the content, nature or requirements of the proposal or the University’s Request for Proposals to an extent that may affect the price of goods or services requested. The University reserves the right to terminate contract negotiations with a selected respondent who submits a proposed contract significantly different from the response they submitted in response to the advertised RFP. In the event that an acceptable contract cannot be negotiated with the highest ranked Respondent, the University may withdraw its award and negotiate with the next-highest ranked Respondent, and so on, until an acceptable contract has been finalized. Alternatively, the University may cancel the RFP, at its sole discretion.

2.4 Award Protest

Respondents may appeal the award decision by submitting a written protest to the University of Maine System’s Chief General Services Officer within five (5) business days of the date of the award notice, with a copy of the protest to the successful Respondent. The protest must contain a statement of the basis for the challenge. Further information regarding the appeal process can be found at

http://staticweb.maine.edu/wp-content/uploads/2015/07/APL_VII-A_20150630-FINAL.pdf?565a1d

If this RFP results in the creation of a pre-qualified or pre-approved list of vendors, then the appeal procedures mentioned above are available upon the original determination of that vendor list, but not during subsequent competitive procedures involving only the pre-qualified or pre-approved list participants.
