

Date: March 23, 2020

Re: Temporary Academic Policies in Effect Immediately Through May 31, 2020 or until further notice.

Withdrawing from Classes:

Students may request a withdrawal from any course up to the end of the week before final exams. Final exams begin on May 4, thus students have until the end of the work day on May 1 to request a W for any courses.

Pass/Fail:

In normal circumstances, students may elect to take only one course per semester on a pass/fail basis. Courses in the General Education curriculum are normally excluded from this option, which must normally be exercised during the first two weeks of the semester. Through May 1, 2020, students may opt to convert ANY course into a pass/fail option. Any course in the pass/fail option this Spring 2020 semester ONLY also automatically carries a C GPA for consideration for any subsequent course in a sequence or toward degree progress within a program. This does not change the GPA threshold for "Pass," which remains a C-.

Spring Semester Pass/Fail grades will not count toward either Spring Semester or overall GPA calculation.

Withdrawal.

Students may request a Semester Withdrawal through the end of the workday on May 1, 2020.
